

the IHA to accommodate the Navy's delayed schedule for this project has no effect on our analysis of project impacts and does not affect our findings. No new information is available that would substantively affect our analyses under the MMPA, NEPA, or ESA. All mitigation, monitoring, and reporting measures described in our notice of issuance of the IHA remain in effect. The species for which take was authorized and the numbers of incidences of take authorized are unchanged.

As a result of the foregoing, we have revised the IHA issued to the Navy to conduct the specified activities in Naval Station Mayport, FL. Originally valid for one year, from December 1, 2013, through November 30, 2014, the IHA now becomes effective on September 1, 2014, and is valid for one year, until August 31, 2015.
