

Federal Water Pollution Control Act Amendments of 1972 (Pub. L. 92–500).

Estimated number of respondents: 1,115 (1,068 facility respondents and 47 state respondents).

Frequency of response: Varies (monthly, quarterly, or annually; every 5 years).

Total estimated burden: Total estimated burden is 634,596 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$37,725,394 (per year), includes \$8,525,907 annualized capital and operation & maintenance costs (all costs in 2011 dollars).

Changes in Estimates: There is a decrease of 388,925 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is due to changes in program requirements. The currently approved ICR is for electric generators with a DIF of at least 50 mgd and that were subject to the 2004 Phase II rule. Many of these facilities have already met most of the new data collection requirements of the revised rule. Newly affected facilities have significantly fewer comprehensive requirements for data collection than was required under the Phase II rule, such as less frequent biological data collection. Further, while the overall universe of affected facilities has increased, more facilities in the affected universe already meet the requirements of the revised rule.

Title: Safer Detergent Stewardship Initiative (SDSI) Program.

ICR numbers: EPA ICR No. 2261.03, OMB Control No. 2070–0171.

ICR Status: The current OMB approval for this ICR is scheduled to expire on May 31, 2014. Under OMB regulations, the Agency may continue to

conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: SDSI is a voluntary program administered by the EPA to offer resources and recognition to businesses involved in the transition to safer surfactants. Surfactants are a major ingredient in cleaning products such as detergents, cleaners, airplane deicers and fire-fighting foams. Safer surfactants are those that break down quickly to non-polluting compounds.

Under SDSI, businesses that have fully transitioned to safer surfactants, or (for non-profits, academic institutions, etc.) can document outstanding efforts to encourage the use of safer surfactants, are granted Champion status. At this level, the participant is invited to the SDSI awards ceremony, listed on the EPA SDSI Web site as a champion, and may use a special logo in their literature to help explain their participation in the program. Businesses that commit to a full and timely transition to safer surfactants, or (for non-profits, academic institutions, etc.) can document outstanding efforts to encourage the use of safer surfactants, are granted Partner status. This category provides recognition of significant accomplishments towards the use of safer surfactants. Partners will be listed on the EPA SDSI Web site and may be granted recognition as a Champion in the future if appropriate. This information collection addresses reporting activities that support the administration of the SDSI program.

Responses to this collection of information are voluntary. Respondents may claim all or part of a response confidential. EPA will disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA section 14 and 40 CFR part 2.

Form Numbers: EPA Form 6300–2.

Respondents/affected entities: Entities potentially affected by this action are establishments or organizations engaged in formulating, producing, purchasing or distributing surfactants or products containing surfactants.

Respondent’s obligation to respond: Voluntary.

Estimated number of respondents: 14 (total).

Frequency of response: On occasion.

Total estimated burden: 140 hours per year. Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$8,232 per year, includes \$0 annualized capital or operation and maintenance costs.

Changes in the Estimates: There is no change in the number of hours in the

total estimated respondent burden compared with the ICR currently approved by OMB.
