Supplementary Information:

Title: Collection or Recovery by VA for Medical Care or Services Provided or Furnished to a Veteran for a Nonservice-Connected Disability.

OMB Control Number: 2900–0606.

Type of Review: Revision of a currently approved collection.

Abstract: Public Law 105–33 amended the statutory provision of 38 U.S.C. 1729 to authorize VA to bill “reasonable charges” instead of “reasonable cost” for medical care or services provided or furnished to a Veteran:

(a) For a non-service connected disability for which the Veteran is entitled to care (or the payment of expenses of care) under a health-plan contract;

(b) For a non-service connected disability incurred incident to the Veteran’s employment and covered under a worker’s compensation law or plan that provides reimbursement or indemnification for such care and services; or

(c) For a non-service connected disability incurred as a result of a motor vehicle accident in a State that requires automobile accident reparations insurance.

“Reasonable charges” are collected from available data (that includes complexity of care, degree of skill, provider specialty, and third party payer prevailing charges in other area) to set the local market charges for each geographic area where VA provides care. “Reasonable cost”, on the other hand, does not factor all of these criteria and can impact the amount reimbursed to the VA. In the circumstances described above, third party payers set their allowable rate structure for compensable care based on their payment methodology, thus the importance in obtaining this information to ensure VA is reimbursed similarly to non-government entities. VA also utilizes reasonable charges to settle subrogated claims for worker’s compensation or motor vehicle accidents.

Affected Public: Individuals or households.

Estimated Annual Burden: 800 hours.

Estimated Average Burden per Respondent: Two hours.

Frequency of Response: Annually.

Estimated Annual Responses: 800.

Dated: June 3, 2014.
