SUPPLEMENTARY INFORMATION: The Atlantic City Emergency Management Office has requested a temporary deviation from the current operating regulation of the US 40–322 (Albany Avenue) Bridge across Inside Thorofare, NJICW mile 70.0, at Atlantic City, NJ. The closure has been requested to ensure the safety of the runners and spectators that will be participating in the Challenge Atlantic City Triathlon on June 29, 2014. The vertical clearance of this bascule bridge is approximately 10 feet above mean high water in the closed position and unlimited in the open position. The current operating regulation is outlined at 33 CFR 117.733(f), which requires that on the weekdays during this time of year, the bridge shall open on signal; except that from 11 p.m. to 7 a.m., the draw need only open if at least four hours of notice is given, from 9 a.m. to 4 p.m. and from 6 p.m. to 9 p.m., the draw need only open on the hour and

Vessels that can pass under the bridge without a bridge opening may do so at all times. The bridge will be able to open for emergencies. The Atlantic Ocean is an alternate route for vessels with mast heights greater than 10 feet. The Coast Guard will inform the users of the waterway through our Local and Broadcast Notices to Mariners of the closure periods so that vessels can plan their transits to minimize any impact caused by the temporary deviation. At all other times during the affected period, the bridge will operate as outlined at 33 CFR 117.733(f).

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

SUMMARY: The Coast Guard has issued a temporary deviation from the operating schedules that govern two North Carolina Department of Transportation (NCDOT) drawbridges: The S.R. 74 Bridge, across the AIWW, mile 283.1, at Wrightsville Beach, NC, and the Isabel S. Holmes Bridge across the Northeast Cape Fear River, mile 1.0, at Wilmington, NC. The deviation is necessary to accommodate the annual Beach2Battleship Iron and Half Iron Distance Triathlons. This deviation allows the bridges to remain in the closed position during the races.

SUPPLEMENTARY INFORMATION: AAA Series Director of SetUp Events, on behalf of NCDOT, has requested a temporary deviation from the current operating regulations for the S.R. 74 Bridge, across AIWW, mile 283.1, at Wrightsville Beach, NC and the Isabel S. Holmes Bridge across the Northeast Cape Fear River, mile 1.0, at Wilmington, NC. The requested deviation is to accommodate the annual Beach2Battleship Iron and Half-Iron Distance Triathlons scheduled for Saturday, October 25, 2014. To facilitate these events, the draw of the S.R. 74 Bridge will be maintained in the closed position from 7 a.m. to 11 a.m. and the draw of the Isabel S. Holmes Bridge will be maintained in the closed position from 10 a.m. to 6 p.m. Extended closure times were requested for the event beyond the times published in the current regulations based on tide dependant races.

The S.R. 74 Bridge is a double-leaf bascule drawbridge with a vertical clearance of 20 feet at mean high water in the closed position, the current operating schedule is set out in 33 CFR 117.821(a)(4). During the month of October, the bridge is required to open on the hour from 7 a.m. to 7 p.m., except 7 a.m. to 10:30 a.m. on the last Saturday of October of every year when the draw need not open for vessels due to annual races.

The Isabel S. Holmes Bridge is a double-leaf bascule drawbridge with a vertical clearance of 40 feet at mean high water in the closed position. The current operating schedule is set out in 33 CFR 117.829(a). The regulation requires that during the month of October, from noon to 11:59 p.m. on the last Saturday of October of every year,

that the draw need not open for vessels, to accommodate annual races. Most waterway traffic for both bridges consists of recreational boats with a few barges and tugs in the daytime.

Vessels able to pass under these bridges in the closed position may do so at any time and are advised to proceed with caution. The bridges will be able to open for emergencies as soon as safely possible. There are no alternate routes available to vessels transiting these waterways. These races have been an annual event; therefore, local waterway users should be familiar with these closures. The Coast Guard will also inform additional waterway users through our Local and Broadcast Notices to Mariners of the closure periods for the bridge so that vessels can arrange their transits to minimize any impacts caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridges must return to their regular operating schedules immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.
