B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency's estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

HUD encourages interested parties to submit comment in response to these questions.

Authority: Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35.

Date: June 9, 2014.

Merrie Nichols-Dixon,

Deputy Director, Office of Policy, Programs and Legislative Initiatives.

Deepwater Horizon Oil Spill; Final Programmatic and Phase III Early Restoration Plan and Final Early Restoration Programmatic Environmental Impact Statement; Withdrawal

AGENCY: Department of the Interior.

ACTION: Notice of availability; withdrawal.

SUMMARY: The Department of the Interior (Interior) is withdrawing a notice that announced that Federal and State natural resource trustee agencies (Trustees) had prepared a Final Programmatic and Phase III Early Restoration Plan and Final Early Restoration Programmatic

Environmental Impact Statement (Final Phase III ERP/PEIS).

FOR FURTHER INFORMATION CONTACT:

Nanciann Regalado,
nanciann_regalado@fws.gov.

SUPPLEMENTARY INFORMATION: On June 5, 2014, Interior published a **Federal Register** notice (79 FR 32570) to inform the public of the availability of the Trustees' Final Phase III ERP/PEIS. However, the Final Phase III ERP/PEIS is currently unavailable. When finalized, the Final Phase III ERP/PEIS will be made available to the public.

For background information, please see the June 5, 2014, notice.

Authorities

The authorities of this action are the Oil Pollution Act of 1990 (33 U.S.C. 2701 *et seq.*), the implementing Natural Resource Damage Assessment regulations found at 15 CFR 990, the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*), and the Framework for Early Restoration Addressing Injuries Resulting from the Deepwater Horizon Oil Spill.

Cynthia K. Dohner,

DOI Authorized Official.

Classroom Guidelines for Preventing the Introduction and Spread of Aquatic Invasive Species (AIS)

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability.

SUMMARY: The U.S. Fish and Wildlife Service (Service), announces the availability of the *Classroom Guidelines for Preventing the Introduction and Spread of Aquatic Invasive Species (AIS)*. These voluntary guidelines are intended to be used by agencies and organizations to develop materials that inform educators and students about the risks of spreading aquatic invasive species, and to limit their spread via the disposal of unwanted live educational specimens (animals, plants, and

microorganisms) into local waters, including release into drains or flushing down toilets.

DATES: To ensure consideration, please send your written comments by July 16, 2014.

ADDRESSES: The guidelines may be obtained online, by U.S. mail, or by email:

- *Online:* <http://anastaskforce.gov/documents.php>;

- *U.S. mail:* Laura Norcutt, U.S. Fish and Wildlife Service, Branch of Aquatic Invasive Species, 4401 N. Fairfax Drive, Room 740, Arlington, VA 22203; or

- *Email:* Laura_Norcutt@fws.gov.

Submitting Comments: Please submit your comments in writing by one of the following methods:

- *U.S. mail:* U.S. Fish and Wildlife Service, Branch of Aquatic Invasive Species, 4401 N. Fairfax Drive, Room 740, Arlington, VA 22203; or

- *Email:* Laura_Norcutt@fws.gov.

FOR FURTHER INFORMATION CONTACT: Laura Norcutt, 703-358-2398.

SUPPLEMENTARY INFORMATION:

Background

Through the Lacey Act (18 U.S.C. 42), the U.S. Fish and Wildlife Service (Service) regulates the importation and interstate transport of certain aquatic invasive species that have been determined to be injurious. The Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990 (16 U.S.C. 4701 *et seq.*) established the Aquatic Nuisance Species Task Force (ANSTF), an intergovernmental organization co-chaired by the Service and the National Oceanic and Atmospheric Administration and dedicated to preventing and controlling the spread of aquatic nuisance species.

Development of the Guidelines

In 2011 the ANSTF established a committee to develop guidelines that would help to prevent the spread of aquatic invasive species through the disposal of unwanted live educational specimens (animals, plants, and microorganisms) into local waters and municipal water systems. The goal of the committee was to develop clear, easy-to-use standardized national guidelines that are easily communicated to educators and students and can be incorporated into education and outreach media. An additional benefit to

educators and students who follow these guidelines is to avoid possible violation of Federal, Tribal, and State laws that prohibit the transport or release of aquatic invasive species. The committee's product, a document titled *Classroom Guidelines for Preventing the Introduction and Spread of Aquatic Invasive Species (AIS)*, will provide concise useable guidelines for agencies, and organizations to develop materials that inform educators and students about the risks of spreading aquatic invasive species.

Preparing Final Documents

Because these documents are guidance only, there is no requirement to provide the public with an opportunity to submit comments. However, we are opening a comment period to receive information and comments that may be useful for future versions of the guidelines.

Request for Public Comments

The guidelines are available on the ANSTF Web site (see **ADDRESSES**) for public review and comment.

We invite review and comment on our guidelines from local, State, Tribal, and Federal agencies, and from the public. All comments received by the date specified in **DATES** will be considered in preparing final documents. Methods of submitting comments are in **ADDRESSES**.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. You can ask the Service in your comment to withhold your personal identifying information from public review; however, we cannot guarantee that we will be able to do so.

Responses to individual commenters will not be provided, but we will provide a summary of the comments we receive and a summary of how we addressed substantive comments in a document on the ANSTF Web site listed above in **ADDRESSES**. Individuals may request an appointment to inspect the comments during normal business hours at our office (see **ADDRESSES**).

Dated: May 23, 2014.

Stephen Guertin,

Director, U.S. Fish and Wildlife Service.

DeSoto and Boyer Chute National Wildlife Refuges; Washington County, Nebraska, and Harrison and Pottawattamie Counties, Iowa; Final Comprehensive Conservation Plan and Finding of No Significant Impact for Environmental Assessment

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce the availability of a final comprehensive conservation plan (CCP) and finding of no significant impact (FONSI) for the environmental assessment (EA) for DeSoto and Boyer Chute National Wildlife Refuges. In this final CCP, we describe how we intend to manage the refuges for the next 15 years.

ADDRESSES: You will find the final CCP and the EA/FONSI on the planning Web site at www.fws.gov/midwest/planning/desoto_boyerchute/. A limited number of hard copies and compact discs are available. You may request one by any of the following methods:

- **Email:** r3planning@fws.gov. Include "DeSoto and Boyer Chute Refuges—Final CCP" in the subject line of the message.

- **U.S. Mail:** Conservation Planning, U.S. Fish and Wildlife Service, 5600 American Blvd. West, Suite 990, Bloomington, MN 55437.

FOR FURTHER INFORMATION CONTACT: Thomas Larson, 612-713-5430.

SUPPLEMENTARY INFORMATION:

Introduction

With this notice, we continue the CCP process for DeSoto and Boyer Chute National Wildlife Refuges. We began the CCP process for Boyer Chute Refuge by publishing a notice of intent in the **Federal Register** (75 FR 7289) on February 18, 2010, and for DeSoto Refuge by publishing a notice of intent in the **Federal Register** (76 FR 76745) on December 8, 2011. For more about the initial process and the history of these refuges, see those notices.

We released the EA and draft CCP to the public, announcing and requesting comments in a notice of availability (78 FR 57876) on September 20, 2013. The 30-day comment period was to end October 21, 2013, but was extended for an additional 3 weeks, ending on November 8, 2013, due to the Federal

government shutdown that occurred from October 1 to 16. A summary of public comments and the agency responses is included in the final CCP.

Background

The National Wildlife Refuge System Administration Act of 1966, as amended by the National Wildlife Refuge System Improvement Act of 1997 (16 U.S.C. 668dd-668ee) (Administration Act), requires us to develop a CCP for each national wildlife refuge. The purpose in developing a CCP is to provide refuge managers with a 15-year strategy for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System (NWRS), consistent with sound principles of fish and wildlife management, conservation, legal mandates, and Service policies. In addition to outlining broad management direction on conserving wildlife and their habitats, CCPs identify wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation and photography, and environmental education and interpretation. We will review and update the CCP at least every 15 years in accordance with the Administration Act.

Each unit of the NWRS was established for specific purposes. We use these purposes as the foundation for developing and prioritizing the management goals and objectives for each refuge within the NWRS mission, and to determine how the public can use each refuge. The planning process is a way for us and the public to evaluate management goals and objectives that will ensure the best possible approach to wildlife, plant, and habitat conservation, while providing for wildlife-dependent recreation opportunities that are compatible with each refuge's establishing purposes and the mission of the NWRS.

Additional Information

The final CCP may be found at www.fws.gov/midwest/planning/desoto_boyerchute/. The final CCP includes detailed information about the planning process, the refuges, issues, and management alternative selected. The Web site also includes an EA and FONSI, prepared in accordance with the National Environmental Policy Act (NEPA) (43 U.S.C. 4321 *et seq.*). The EA/FONSI includes discussion of four alternative refuge management options. The Service's selected alternative is reflected in the final CCP. The selected alternative takes an active approach to habitat and wildlife management and
