

of delays in handling conventional mail, it is recommended that documents be transmitted by overnight mail, by electronic mail to Electricity.Exports@hq.doe.gov, or by facsimile to 202-586-8008.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b), 7172(f)) and require authorization under section 202(e) of the Federal Power Act (16 U.S.C. 824a(e)).

On May 22, 2014, Frontera and Lonestar applied to transfer Frontera's existing authority to transmit electric energy from the United States to Mexico, using the electric transmission facilities authorized in Presidential permit PP-206, to Lonestar. DOE's regulations do not permit the voluntary transfer of export authority, but instead require a joint application to rescind the existing authorization and to issue a new authorization in the name of the transferee. DOE will consider this a joint application for a new authorization in the name of Lonestar. Lonestar is requesting expedited treatment of this application and issuance of an Order within 60 days.

In its application, Lonestar states that it does not own any electric generating or transmission facilities, and it does not have a franchised service area. The electric energy that Lonestar proposes to export to Mexico would be energy generated at the Frontera Generation Station. The existing international transmission facilities that Lonestar proposes to use for export have previously been authorized by Presidential permit PP-206, issued pursuant to Executive Order 10485, as amended.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal Energy Regulatory Commission's (FERC) Rules of Practice and Procedures (18 CFR 385.211). Any person desiring to become a party to these proceedings should file a motion to intervene at the above address in accordance with FERC Rule 214 (18 CFR 385.214). Five copies of such comments, protests, or motions to intervene should be sent to the address provided above on or before the date listed above.

Comments and other filings concerning the Lonestar application to export electric energy to Mexico should

be clearly marked with OE Docket No. EA-401. An additional copy is to be provided directly to Thomas Favinger, Chief Executive Officer, Lonestar Power Marketing LLC, c/o The Blackstone Group L.P., 345 Park Avenue, New York, NY 10154 and to Brooksany Barrowes, Baker Botts L.L.P., 1299 Pennsylvania Ave. NW., Washington, DC 20004. A final decision will be made on this application after the environmental impacts have been evaluated pursuant to DOE's National Environmental Policy Act Implementing Procedures (10 CFR part 1021) and after a determination is made by DOE that the proposed action will not have an adverse impact on the sufficiency of supply or reliability of the U.S. electric power supply system.

Copies of this application will be made available by request to the addresses provided above or by accessing the program Web site at <http://energy.gov/node/11845>.

Issued in Washington, DC, on June 11, 2014.

DEPARTMENT OF ENERGY

Office of Energy Efficiency and Renewable Energy

Proposed Agency Information Collection

AGENCY: Office of Energy Efficiency and Renewable Energy, U.S. Department of Energy.

ACTION: Notice and Request for OMB Review and Comment.

SUMMARY: The Department of Energy's (DOE) Office of Energy Efficiency and Renewable Energy (EERE) has submitted to the Office of Management and Budget (OMB) for clearance, a proposal for collection of information under the provisions of the Paperwork Reduction Act of 1995. The proposed collection will provide DOE with the information necessary to meet its statutory and regulatory obligations under the National Environmental Policy Act (NEPA) of 1969 (42 U.S.C. 4321 *et seq.*) and the DOE NEPA implementing regulations, which requires EERE to perform environmental impact analyses prior to making a decision to provide Federal funding for research, development and demonstration projects funded by DOE.

DATES: Comments regarding this collection must be received on or before July 17, 2014. If you anticipate difficulty in submitting comments within that period, contact the **DOE Desk Officer at OMB** of your intention to make a submission as soon as possible. The Desk Officer may be telephoned at 202–395–4650.

ADDRESSES: Written comments should be sent to:

DOE Desk Officer at Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10102, 735 17th Street NW., Washington, DC 20503.

And to:

Lisa Jorgensen at U.S. Department of Energy, 15013 Denver West Parkway, Golden, CO 80401, by fax at (720–356–1790), or by email at EEREQComments@go.doe.gov.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the EERE Environmental Questionnaire should be directed to Lisa Jorgensen at EEREQComments@go.doe.gov. The EERE Environmental Questionnaire also is available for viewing in the Golden Field Office Public Reading Room at: <http://www.eere.energy.gov/golden/ReadingRoom.aspx>.

SUPPLEMENTARY INFORMATION: This information collection request contains:

- (1) OMB No. New;
- (2) Information Collection Request Title: Office of Energy Efficiency and Renewable Energy (EERE) Environmental Questionnaire;
- (3) Type of Request: New;
- (4) Purpose: The DOE's EERE provides federal funding through federal

assistance programs to businesses, industries, universities, and other groups for renewable energy and energy efficiency research and development and demonstration projects. The National Environmental Policy Act (NEPA) of 1969 (42 U.S.C. 4321 *et seq.*) requires that an environmental analysis be completed for all major federal actions significantly affecting the environment including projects entirely or partly financed by federal agencies. To effectively perform environmental analyses for these projects, the DOE's EERE needs to collect project-specific information from federal financial assistance awardees. DOE's EERE has developed its Environmental Questionnaire to obtain the required information and ensure that its decision-making processes are consistent with NEPA as it relates to renewable energy and energy efficiency research and development and demonstration projects;

(5) Annual Estimated Number of Total Responses: 300;

(6) Average Hours per Response: .5; and

(7) Annual Estimated Number of Burden Hours: 150.

Statutory Authority: National Environmental Policy Act (NEPA) (42 U.S.C. 4321 *et seq.*).

Issued in Golden, CO on June 10, 2014.
