The US 70/Alfred C. Cunningham Bridge across the Trent River, mile 0.0, a double bascule lift Bridge, in New Bern, NC, has a vertical clearance in the

closed position of 14 feet, above mean high water. Under the normal operating schedule, the US 70/Alfred C.

Cunningham Bridge would open on signal during this timeframe. However, under this temporary deviation, the drawbridge will only be allowed to open every two hours, on the hour, starting at 9 a.m. and continuing until 7 p.m. on Saturday, October 11, 2014; and from 9 a.m. to 5 p.m., on Sunday, October 12, 2014 to accommodate the New Bern Mumfest.

Vessels able to pass under the closed span may do so. Mariners are advised to proceed with caution. There are no alternate routes for vessels and the bridge will be able to open in the event of an emergency. The Coast Guard will also inform the users of the waterways through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridge so that vessels can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

POSTAL SERVICE

39 CFR Part 111

Revised Postage and Fee Refund Criteria

AGENCY: Postal Service™.

ACTION: Final rule.

SUMMARY: The Postal Service™ will revise *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM®) section 604.9 to update the hourly charges and related postage threshold used in assessing certain types of postage refunds and to provide the allowable time periods for requesting refunds for extra service fees.

DATES: *Effective Date:* July 28, 2014.

FOR FURTHER INFORMATION CONTACT: Douglas Germer, Revenue/Field Accounting, douglas.g.germer@usps.gov, 202-268-8522; Karen Key, Director, Shipping Products and Services, karen.f.key@usps.gov, 202-268-7492; or Suzanne Newman,

Product Classification, suzanne.j.newman@usps.gov, 202-268-5581.

SUPPLEMENTARY INFORMATION:

I. Revised Proposal

On January 3, 2014, the Postal Service published a revised notice of proposed rulemaking (79 FR 375-6) to align with current costs the assessments for processing postage refunds that have been in effect since 2003. The Postal Service proposed to update the hourly factor used in refund assessments from \$35.00 an hour to \$50.00 an hour. Additionally, the threshold for assessing postage refunds at the hourly factor would be updated from postage amounts exceeding \$350.00 to postage amounts exceeding \$500.00. The current 10% assessment used below the threshold would remain unchanged.

The Postal Service also proposed to add language to the DMM to provide customers with information on refund time periods for extra service fees to align with the revised claims filing periods (made effective January 26, 2014) to promote timely adjudication. The Postal Service proposed including instructions in the DMM that refund requests for Registered Mail™, Certified Mail®, Signature Confirmation™, USPS Tracking™, Adult Signature services, and insurance fees must be made by the mailer no sooner than 10 days, or more than 60 days, from the date the service was purchased.

Additionally, if these proposed changes were adopted, PS Form 3533, *Application for Refund of Fees, Products and Withdrawal of Customer Accounts*, would be revised to reflect the changes. The proposed rule included a 30-day comment period. After a review of the comments and further analysis, the Postal Service is adopting this final rule as originally proposed with the exception of the proposed change regarding the refund of insurance fees, which has been removed.

II. Comments and Responses

The Postal Service received two formal responses to the revised proposed rule of January 3, 2014, one from a mailer and from a PC Postage provider.

The mailer requested that the Postal Service not eliminate the 10% assessment for postage refunds. The 10% will not change, but the threshold at which the 10% assessment changes to an hourly rate, and the hourly rate itself, will both be increased.

The comment from the PC Postage provider referenced certain refund and

appeal assessments which were outside the scope of this rulemaking. The PC Postage provider expressed opposition to the current standards that provide for hourly charges when validating refunds to higher volume (postage refunds for) postage meter users. This commenter stated that these are not the same standards used for PC Postage appeals (when the end-users is denied a postage refund by the PC Postage provider). The commenter continued that processes used to validate refunds from PC Postage appeals should be equivalent to that used for postage meter refunds. This commenter also suggested that the Postal Service relax or eliminate assessments for processing postage refunds and appeals when customers make mistakes in printing postage indicia (and the Postal Service is not at fault). Although these comments fall outside of the scope of this rulemaking, the Postal Service provides the following clarifications:

- The refund assessment amounts in this proposed rule would not revise the current standards for providing PC postage refunds or appeals to adverse rulings by a PC Postage provider. The Postal Service does not make any assessment for postage refunds submitted electronically by PC Postage end-users to their provider within the established filing period(s). This includes postage refunds for unused, dated PC Postage indicia with a package identification code (PIC) made within 30-days from the date of printing and for unused, undated PC Postage without a PIC when made within 60 days from the date of printing.

- The Postal Service expanded the refund period (under DMM 604.9) for items with a package identification code from 10 days to 30 days in a final rule, published June 26, 2013, and effective July 28 (78 FR 38203-19). This effort served to provide customers additional time to reconcile their shipping records and to help reduce the amount of requests for appeals being received beyond the current 10 day refund filing period.

- Based on current records, approximately 75% of PC Postage appeals are submitted to USPS® outside of the established criteria. As a reminder, only the PC Postage *end-user* should submit their appeal to an *adverse provider ruling* on their refund request, made within *the 30-day period* for items associated to a package identification code, and *60-day period* for items not associated to a package identification code. Further, postage refund requests made by the end-user during the established periods are submitted to the provider and not
