

14. Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023-01 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321-4370f), and have concluded this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule involves a special local regulation issued in conjunction with a regatta or marine parade. An environmental analysis checklist and a Categorical Exclusion Determination were completed for this event in previous years. Since this event has remained materially unchanged from the time of the prior determinations, a new environmental analysis checklist and Categorical Exclusion Determination were not completed for 2014. The previously completed environmental analysis checklist and Categorical Exclusion Determination can be found in docket folder for USCG-2013-0213 at www.regulations.gov. This rule is categorically excluded from further review under paragraph 34(h) of Figure 2-1 of the Commandant Instruction. We seek any comments or information that may lead to the discovery of a significant environmental impact from this rule.
