

Between the last collection submitted and this collection, we received one comment from a private citizen concerning BSEE not having any options for electronic submission of Form BSEE-0132, *Hurricane and Tropical Storm Evacuation and Production Curtailment Statistics (GOMR)*. Our response: An electronic option does exist. The BSEE provides a secure alternative for operators to report the information required on BSEE-0132 in eWell.

Form BSEE-0011, *iSEE*, was out for comment and published in the **Federal Register** on November 18, 2013 (78 FR 69118); and on March 26, 2014 (79 FR 16810). We received two comments from a private citizen (submitted same comment for both 60-day notices) that Form BSEE-0011 should include the same or something similar as admonition to the reporter against false reporting. Our response: The BSEE would like some kind of a report of what individuals have encountered. There could be situations in which people think they saw something but aren't sure—we still would like them to report so BSEE can further investigate. With the statement on the form, we feel that this would deter individuals from reporting. Even without the statement on the form, the individuals/submitters are still subject to penalties for false statements, so we could still penalize any abuse or malicious intent of the system.

Public Availability of Comments: Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: Section 4 of the Archeological Resources Protection Act (ARPA) of 1979 (16 U.S.C 470cc), and Section 3 of the Antiquities Act (AA) of 1906 (16 U.S.C. 432), authorize any individual or institution to apply to Federal land managing agencies to scientifically excavate or remove archeological resources from public or Indian lands. Archeological

investigations that require permits include excavation, shovel-testing, coring, pedestrian survey (with and without removal of artifacts), underwater archeology, photogrammetry, and rock art documentation. Individuals, academic and scientific institutions, museums, and businesses that propose to conduct archeological field investigations must

obtain a permit before the project may begin.

To apply for a permit, applicants submit DI Form 1926 (Application for Permit for Archeological Investigations). In general, an application includes, but is not limited to, the following information:

- Statement of Work.
- Statement of Applicant's Capabilities.
