

Type of Review: New Information Collection.

Affected Public: Prime contractors and small businesses participating in DOT's Mentor Protégé Program.

Estimated Annual Number of Responses: 16

Frequency: One-time.

Estimated Average Burden per Response: 1 hour per respondent.

Estimated Total Annual Burden Hours: 16 hours.

Extending the Duration of the Relationship

The duration of the mentorship will be determined by the mentor and protégé. We anticipate in most cases, this period will be 12 months, but some participants may want to extend their mentorship relationship. Currently, the DOT allows for this relationship to be extended up to 24 months. However, the DOT proposes to amend the 24 month cap and allow the relationship to be extended up to 36 months. We received anecdotal information from program participants and other businesses expressing that a longer relationship may be beneficial to the firms. Program participants should be able to develop long range developmental plans up to 36 months benefiting small business concerns to receive additional technical assistance; otherwise not received due to time constraints and limitations. In addition, other federal government Mentor-Protégé programs allow their participants to establish a relationship for up to 36 months.

Reports Beyond Program Participation

DOT's Mentor Protégé program's primary goal is to provide developmental assistance to help small business to compete and perform on federal procurement opportunities. It's important to DOT to ensure the developmental assistance received by protégés during their program participation helps them to succeed beyond the term of the Mentor Protégé agreement. DOT will request firms participating as protégés in the program to agree to report its progress to the OSDBU annually for two (2) years after exiting the program. OSDBU will not request this of Mentors.

For additional information related to the Mentor Protégé program, visit OSDBU's Web site at www.dot.gov/osdbu.

Federal Railroad Administration

[Docket No. FRA 2014–0011–N–13]

Proposed Agency Information Collection Activities; Comment Request

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 and its implementing regulations, the Federal Railroad Administration (FRA) hereby announces that it is seeking an extension of the following currently approved information collection activities. On May 7, 2014, the Secretary of Transportation issued Emergency Order Docket No. DOT–OST–2014–0067 (EO), requiring affected railroad carriers to provide certain information to the State Emergency Response Commissions (SERCs) for each State in which their trains carrying 1 million gallons or more of Bakken crude oil travel. The information collection activities associated with the Secretary's Emergency Order received a six-month emergency approval from OMB on May 10, 2014. FRA seeks a regular clearance (extension of the current approval for three years) while it is determining the proper course of action to take after a recent series of train accidents involving the transportation petroleum crude oil, a hazardous material the transportation of which is regulated by the Department of Transportation. Before submitting these information collection requirements for clearance by the Office of Management and Budget (OMB), FRA is soliciting public comment on specific aspects of the activities identified below.

DATES: Comments must be received no later than August 29, 2014.

ADDRESSES: Submit written comments on any or all of the following proposed activities by mail to either: Mr. Robert Brogan, Office of Safety, Planning and Evaluation Division, RRS–21, Federal Railroad Administration, 1200 New Jersey Ave. SE., Mail Stop 17, Washington, DC 20590, or Ms. Kimberly Toone, Office of Information Technology, RAD–20, Federal Railroad Administration, 1200 New Jersey Ave. SE., Mail Stop 35, Washington, DC 20590. Commenters requesting FRA to acknowledge receipt of their respective comments must include a self-addressed stamped postcard stating, “Comments on OMB control number 2130–0604.”

Alternatively, comments may be transmitted via facsimile to (202) 493–6216 or (202) 493–6497, or via email to Mr. Brogan at Robert.Brogan@dot.gov, or to Ms. Toone at Kim.Toone@dot.gov. Please refer to the assigned OMB control number in any correspondence submitted. FRA will summarize comments received in response to this notice in a subsequent notice and include them in its information collection submission to OMB for approval.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Brogan, Office of Planning and Evaluation Division, RRS–21, Federal Railroad Administration, 1200 New Jersey Ave. SE., Mail Stop 17, Washington, DC 20590 (telephone: (202) 493–6292) or Ms. Kimberly Toone, Office of Information Technology, RAD–20, Federal Railroad Administration, 1200 New Jersey Ave. SE., Mail Stop 35, Washington, DC 20590 (telephone: (202) 493–6132). (These telephone numbers are not toll-free.)

SUPPLEMENTARY INFORMATION: The Paperwork Reduction Act of 1995 (PRA), Public Law 104–13, sec. 2, 109 Stat. 163 (1995) (codified as revised at 44 U.S.C. 3501–3520), and its implementing regulations, 5 CFR part 1320, require Federal agencies to provide 60-days notice to the public for comment on information collection activities before seeking approval for reinstatement or renewal by OMB. 44 U.S.C. 3506(c)(2)(A); 5 CFR 1320.8(d)(1), 1320.10(e)(1), 1320.12(a). Specifically, FRA invites interested respondents to comment on the following summary of proposed information collection activities regarding (i) whether the information collection activities are necessary for FRA to properly execute its functions, including whether the activities will have practical utility; (ii) the accuracy of FRA's estimates of the burden of the information collection activities, including the validity of the methodology and assumptions used to determine the estimates; (iii) ways for FRA to enhance the quality, utility, and clarity of the information being collected; and (iv) ways for FRA to minimize the burden of information collection activities on the public by automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submission of responses). See 44 U.S.C. 3506(c)(2)(A)(i)–(iv); 5 CFR 1320.8(d)(1)(i)–(iv). FRA believes that soliciting public comment will promote its efforts to reduce the administrative and paperwork burdens associated with the collection of information mandated
