Title: South American Cactus Moth; Quarantine and Regulations.

OMB Control Number: 0579–0337.

Summary of Collection: Under the Plant Protection Act (7 U.S.C. 7701—*et seq.*), the Secretary of Agriculture is authorized to prohibit or restrict the importation, entry, or movement of plants and plant pests to prevent the introduction of plant pests into the United States or their dissemination within the United States. The Animal and Plant Health Inspection Service (APHIS) regulations subpart, “Subpart-South American Cactus Moth” (7 CFR part 301.55 through 301.55–9), restrict the interstate movement of regulated articles from quarantined areas into or through non-quarantined areas within the United States.

Need and Use of the Information: APHIS will collect information using Limited Permit (PPQ Form 530), Certificate (PPQ Form 540) and Compliance Agreement (PPQ Form 519). The limited permits are used to authorize movement of regulated articles that are not certifiable to specified destination for processing, treatment, or utilization. The certificate is used for domestic movement of treated articles relating to quarantines. Certificates are issued for regulated articles when an inspector or other person authorized to issue certificates finds that the articles have met the conditions of the regulations and may be safely moved interstate without further restrictions. The Compliance agreements are provided for the convenience of persons who are involved in the growing, handling, or moving of regulated articles from quarantined areas. Without this information, APHIS could not provide an effective domestic quarantine

program to prevent the artificial spread of the South American cactus moth within the United States.
