Approval and Promulgation of Air Quality Implementation Plans; Maryland; Low Emission Vehicle Program

AGENCY: Environmental Protection
Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) proposes to approve the State Implementation Plan (SIP) revision submitted by the State of Maryland for the purpose of incorporating by reference the most recent amendments to California's Low Emission Vehicle (LEV) program. The Clean Air Act (CAA) contains authority by which other states may adopt new motor vehicle emissions standards that are identical to California's standards. Maryland has adopted by reference California's light and medium-duty vehicle emissions and fuel standards, and consistent with California, submits amendments to these standards as revisions to the State's SIP. In this SIP revision, Maryland is updating its Low Emissions Vehicle Program regulation to adopt by reference California's Advanced Clean Car Program. In the Final Rules section of this **Federal Register**, EPA is approving the State's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time.

Protection of Stratospheric Ozone: Listing of Substitutes for Refrigeration and Air Conditioning and Revision of the Venting Prohibition for Certain Refrigerant Substitutes

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed rulemaking.

SUMMARY: Pursuant to the U.S. Environmental Protection Agency's Significant New Alternatives Policy program, this action proposes to list a number of flammable refrigerants as acceptable substitutes, subject to use conditions, for ozone-depleting substances in several end-uses: Household refrigerators and freezers, stand-alone commercial refrigerators and freezers, very low temperature refrigeration, non-mechanical heat transfer, vending machines, and room air conditioning units. This action also proposes to exempt from Clean Air Act Section 608's prohibition on venting, release, or disposal the hydrocarbon refrigerant substitutes that we are proposing to list in this action as acceptable subject to use conditions in specific end-uses. We are proposing this exemption on the basis of current evidence that their venting, release, or disposal would not pose a threat to the environment.
