BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****14 CFR Part 97**

[Docket No. 30965 Amdt. No. 3597]

Standard Instrument Approach Procedures, and Takeoff Minimums and Obstacle Departure Procedures; Miscellaneous Amendments**AGENCY:** Federal Aviation Administration (FAA), DOT.**ACTION:** Final rule.**SUMMARY:** This rule establishes, amends, suspends, or revokes Standard

Instrument Approach Procedures (SIAPs) and associated Takeoff Minimums and Obstacle Departure Procedures for operations at certain airports. These regulatory actions are needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, adding new obstacles, or changing air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: This rule is effective July 14, 2014. The compliance date for each SIAP, associated Takeoff Minimums,

and ODP is specified in the amendatory provisions.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of July 14, 2014.

ADDRESSES: Availability of matters incorporated by reference in the amendment is as follows:

For Examination—

1. FAA Rules Docket, FAA Headquarters Building, 800 Independence Avenue SW., Washington, DC 20591;

2. The FAA Regional Office of the region in which the affected airport is located;

3. The National Flight Procedures Office, 6500 South MacArthur Blvd., Oklahoma City, OK 73169 or,

4. The National Archives and Records Administration (NARA). For information on the availability of this material at NARA, call 202-741-6030, or go to: http://www.archives.gov/federal_register/code_of_federal_regulations/ibr_locations.html.

Availability—All SIAPs and Takeoff Minimums and ODPs are available online free of charge. Visit <http://www.nfdc.faa.gov> to register. Additionally, individual SIAP and Takeoff Minimums and ODP copies may be obtained from:

1. FAA Public Inquiry Center (APA-200), FAA Headquarters Building, 800 Independence Avenue SW., Washington, DC 20591; or

2. The FAA Regional Office of the region in which the affected airport is located.

FOR FURTHER INFORMATION CONTACT:

Richard A. Dunham III, Flight Procedure Standards Branch (AFS-420), Flight Technologies and Programs Divisions, Flight Standards Service, Federal Aviation Administration, Mike Monroney Aeronautical Center, 6500 South MacArthur Blvd., Oklahoma City, OK 73169 (Mail Address: P.O. Box 25082, Oklahoma City, OK 73125) Telephone: (405) 954-4164.

SUPPLEMENTARY INFORMATION: This rule amends Title 14 of the Code of Federal Regulations, Part 97 (14 CFR part 97), by establishing, amending, suspending, or revoking SIAPs, Takeoff Minimums and/or ODPS. The complete regulators description of each SIAP and its associated Takeoff Minimums or ODP for an identified airport is listed on FAA form documents which are incorporated by reference in this amendment under 5 U.S.C. 552(a), 1 CFR part 51, and 14 CFR 97.20. The applicable FAA Forms are FAA Forms 8260-3, 8260-4, 8260-5, 8260-15A, and 8260-15B when required by an entry on 8260-15A.

The large number of SIAPs, Takeoff Minimums and ODPs, in addition to their complex nature and the need for a special format make publication in the **Federal Register** expensive and impractical. Furthermore, airmen do not use the regulatory text of the SIAPs, Takeoff Minimums or ODPs, but instead refer to their depiction on charts printed by publishers of aeronautical materials. The advantages of incorporation by reference are realized and publication of the complete description of each SIAP, Takeoff Minimums and ODP listed on FAA forms is unnecessary. This amendment provides the affected CFR sections and specifies the types of SIAPs and the effective dates of the, associated Takeoff Minimums and ODPs. This amendment also identifies the airport

and its location, the procedure, and the amendment number.

The Rule

This amendment to 14 CFR part 97 is effective upon publication of each separate SIAP, Takeoff Minimums and ODP as contained in the transmittal. Some SIAP and Takeoff Minimums and textual ODP amendments may have been issued previously by the FAA in a Flight Data Center (FDC) Notice to Airmen (NOTAM) as an emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for some SIAP and Takeoff Minimums and ODP amendments may require making them effective in less than 30 days. For the remaining SIAPs and Takeoff Minimums and ODPS, an effective date at least 30 days after publication is provided.

Further, the SIAPs and Takeoff Minimums and ODPS contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Procedures (TERPS). In developing these SIAPs and Takeoff Minimums and ODPS, the TERPS criteria were applied to the conditions existing or anticipated at the affected airports. Because of the close and immediate relationship between these SIAPs, Takeoff Minimums and ODPS, and safety in air commerce, I find that notice and public procedures before adopting these SIAPs, Takeoff Minimums and ODPS are impracticable and contrary to the public interest and, where applicable, that good cause exists for making some SIAPs effective in less than 30 days.

Conclusion

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 97

Air Traffic Control, Airports, Incorporation by reference, and Navigation (air).

Issued in Washington, DC, on June 20, 2014.

John Duncan,

Director, Flight Standards Service.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, Title 14, Code of Federal Regulations, Part 97 (14 CFR part 97) is amended by establishing, amending, suspending, or revoking Standard Instrument Approach Procedures and/or Takeoff Minimums and/or Obstacle Departure Procedures effective at 0902 UTC on the dates specified, as follows:

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

■ 1. The authority citation for part 97 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40106, 40113, 40114, 40120, 44502, 44514, 44701, 44719, 44721–44722.

BILLING CODE 4910-13-P

FEDERAL TRADE COMMISSION

16 CFR Part 20

Guides for the Rebuilt, Reconditioned and Other Used Automobile Parts Industry

AGENCY: Federal Trade Commission (FTC or Commission).

ACTION: Final Revisions to Guides.

SUMMARY: The Commission has completed its review of the Guides for the Rebuilt, Reconditioned and Other Used Automobile Parts Industry (Used Auto Parts Guides or Guides) and has determined to revise and retain the Guides.

DATES: This action is effective as of August 22, 2014.

ADDRESSES: The document is available on the Internet at the Commission's Web site, www.ftc.gov.

FOR FURTHER INFORMATION CONTACT: Jonathan L. Kessler, Federal Trade Commission, 1111 Superior Avenue, Suite 200, Cleveland, Ohio 44114, (216) 263-3436, jkessler@ftc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The market for previously used automobile parts encompasses a broad

range of parts and assemblies of parts previously used on vehicles (collectively, industry products or products). Industry products range from mechanical or body parts removed from a salvaged vehicle and put on a working vehicle without modification of any kind to parts that, after removal from the original vehicle, undergo substantial disassembly, rebuilding, inspection, and, in some instances, upgrading from their original condition, before being returned to service. The availability of these parts means vehicles stay in service longer and for a lower price than if consumers had to rely only on new parts from the manufacturer. One commenter asserted that without rebuilt or remanufactured parts, 25% of the vehicles currently on the road, and a higher percentage of off-road vehicles (e.g., construction and farm equipment) would be out of service.¹ Savings to consumers from using rebuilt or remanufactured parts range from 20–50%.²

The Guides for the Rebuilt, Reconditioned and Other Used Automobile Parts Industry (Used Auto Parts Guides or Guides) provide advice to industry members on how they can avoid engaging in unfair or deceptive practices that violate Section 5 of the Federal Trade Commission Act, 15 U.S.C. 45.³ The Guides deem certain practices to be unfair or deceptive, including the following:

1. Misrepresenting industry products as new or misrepresenting the amount of use of an industry product;
2. Misrepresenting the identity of anyone who worked on an industry product after it was removed from the original vehicle;
3. Misrepresenting the condition of an industry product or the amount of work done to it after its removal from the original vehicle.

II. Regulatory Review of the Guides

As part of its continuing program to review its rules and guides, the Commission published a notice in the **Federal Register** on May 21, 2012, seeking written comments about the Used Auto Parts Guides, including their costs, benefits, and scope.⁴ Twelve

¹ Automotive Parts Remanufacturers Association (APRA), p. 1.

² *Id.*, p. 1; Motor & Equipment Manufacturers Association (MEMA), pp 1–2 (MEMA submitted comments on behalf of its affiliated organization, Motor & Equipment Remanufacturers Association.)

³ The final revised guides contain a new paragraph (b) in section 20.0 describing the purpose and status of the guides, which is consistent with the Commission's long standing treatment of its industry guides. See 16 CFR 1.5.

⁴ 77 FR 29922 (May 21, 2012).
