SUPPLEMENTARY INFORMATION:

Introduction

We announce the availability of the proposed low-effect habitat conservation plan (HCP) which analyzes the take of the threatened gopher tortoise (*Gopherus polyphemus*) incidental to construction of a hydrocarbon test well drilling pad. The applicant (Petro-Chem Operating Company, Inc.) requests a 5-year incidental take permit (ITP) under section 10(a)(1)(B) of the Endangered Species Act (Act; 16 U.S.C. 1531 *et seq.*). If we approve the ITP, the applicant anticipates the taking of up to three individual gopher tortoises over the 5-year span of the ITP.

Applicant's Proposal

The applicant proposes to minimize and mitigate the take of up to three gopher tortoises by relocating the tortoises impacted by test well drilling pad construction to the Chickasawhay Conservation Bank in Greene County, Mississippi, using Service-approved relocation methods. The Chickasawhay Conservation Bank is a Service-approved gopher tortoise relocation site that is conserved and managed in perpetuity for gopher tortoises. All fees associated with the relocation of tortoises and conservation bank management will be paid by Petro-Chem Operating Company, Inc.

Service's Preliminary Determination

The Service has made a preliminary determination that the applicant's project, including the proposed mitigation and minimization measures, will individually and cumulatively have a minor or negligible effect on the species covered in the HCP. Therefore, issuance of the ITP is a "low-effect" action and qualifies as a categorical exclusion under the National Environmental Policy Act (NEPA) (40 CFR 1506.6), as provided by the Department of the Interior Manual (516 DM 2 Appendix 1 and 516 DM 6 Appendix 1), and as defined in our Habitat Conservation Planning Handbook (November 1996).

We base our determination that issuance of the ITP qualifies as a low-effect action on the following three criteria: (1) Implementation of the project would result in minor or negligible effects on federally listed, proposed, and candidate species and their habitats; (2) Implementation of the project would result in minor or negligible effects on other environmental values or resources; and
