SUPPLEMENTARY INFORMATION:

A. Purpose

SF 1413, Statement and Acknowledgment, is used by all executive agencies, including the Department of Defense, to obtain a statement from contractors that the proper clauses have been included in subcontracts. The form is used by the prime contractor to identify and report all applicable subcontracts (all tiers) awarded under the prime contract, identify specific scopes of work the subcontractors will be performing, subcontract award date, and subcontract number, and provide formal notification to the applicable subcontractors of the labor laws and associated clauses they are responsible for complying with.

B. Annual Reporting Burden

A reassessment of the number of contracts awarded that required the inclusion of the SF 1413 was performed for Fiscal Year (FY) 2010, FY 2011, and FY 2012 using data obtained from the Federal Procurement Data System. Based on the comprehensive reassessment performed, it was determined that no changes to the annual number of responses and the annual time burden (from the previous information collection published in the **Federal Register** at 76 FR 28039 on May 13, 2011) was warranted at this time. No public comments were received in prior years that have challenged the validity of the Government's estimate.

Respondents: 31,500.

Responses per Respondent: 2.

Total Responses: 63,000.

Hours per Response: .05.

Total Burden Hours: 3,150.

C. Public Comments

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the Federal Acquisition Regulation (FAR), and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the

burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

SUPPLEMENTARY INFORMATION:

A. Purpose

The Affidavit of Individual Surety SF 28 is used by all executive agencies, including the Department of Defense, to obtain information from individuals wishing to serve as sureties to Government bonds. To qualify as a surety on a Government bond, the individual must show a net worth not less than the penal amount of the bond on the SF 28. It is an elective decision on the part of the maker to use individual sureties instead of other available sources of surety or sureties for Government bonds. We are not aware if other formats exist for the collection of this information.

The information on SF 28 is used to assist the contracting officer in determining the acceptability of individuals proposed as sureties.

B. Annual Reporting Burden

Based on a comprehensive reassessment performed, this information collection resulted in no change in the total burden hours from the previous information collection that was published in the **Federal Register** at 76 FR 60050 on September 28, 2011. The previous assessment performed resulted in a change to the "Response per Respondent" and "Hours per Response" categories. The 1.43, responses per respondent, was lowered to 1. to adequately reflect this category. A respondent has to respond completely not partially when submitting this form.

The "Hours per Response" category has been decreased to .3 (18 minutes) from .4 (24 minutes) to reflect the benefits of being able to submit the required information electronically, as respondents no longer have to print and physically mail forms.

Respondents: 500.

Responses per Respondent: 1.

Total Responses: 500.

Hours per Response: 0.3.

Total Burden Hours: 150.
