Administration for Community Living

The Eldercare Locator

SUMMARY: The Administration for Community Living (ACL) is announcing the application deadline and supplemental funding for the Eldercare Locator program. The Eldercare Locator program helps older adults and their families and caregivers find their way through the maze of services for older adults by linking to a trustworthy network of national, State, Tribal and community organizations and services through a nationally recognized toll-free number. The Eldercare Locator also provides older adults and caregivers who require more in depth support the opportunity to speak with highly trained eldercare consultants who can better triage the situation. The purpose of this notice is to award supplemental funds to the National Association of Area Agencies on Aging to provide for additional eldercare consultants.

Program Name: Eldercare Locator.

Award Amount: \$250,000.

Project Period: 6/1/2013 to 5/31/2018.

Award Type: Cooperative Agreement.

Statutory Authority: The statutory authority for grants under this notice is contained in Title IV of the Older Americans Act (OAA) (42 U.S.C. 3032), as amended by the Older Americans Act Amendments of 2006. Statutory authority specifically for the Eldercare Locator is contained in Title II of the Older Americans Act (202(a)(21).

Catalog of Federal Domestic Assistance (CFDA) Number: 93.048, Discretionary Projects.

DATES:

- Application Submission deadline: August 21, 2014.
- The supplemental funds will be issued no later than September 30, 2014.

I. Program Description

The Administration on Aging, an agency of the U.S. Administration for Community Living, has been funding the Eldercare Locator (the Locator) since 1991. The Eldercare Locator links older persons and their caregivers to resources through a nationally recognized toll-free number, 1-800-677-1116 and Web site (www.eldercare.gov). Since inception, over 2.7 million older adults, caregivers, professionals and others have used the Locator toll-free number to find resources for older adults in any U.S. community. The goal is to provide users with the information and resources they need that will help older persons live independently and safely in their homes and communities for as long as possible.

The Eldercare Locator call center utilizes live agents to help callers find their way through the maze of services for older adults by linking to a trustworthy network of national, State, Tribal and community organizations and services. In 2011, an additional feature was added to assist older adults and caregivers who require more in depth support the opportunity to speak with highly trained eldercare consultants who can better triage the situation. In addition written materials are provided to further educate callers and users of the Web site on a variety of topics such as fall prevention, housing, and advanced care planning.

II. Justification for the Supplemental Funding

Since 2011, the demand for eldercare consultant services has increased dramatically, doubling in the last year. During the last 6 months, 40% of the calls escalated to eldercare consultants were individuals calling with multiple and very complex issues. Because of the complexity, eldercare consultant calls are about 5 minutes longer than a regular information specialist call which averages about 5 minutes. There is a need to increase the number of eldercare consultants to handle this higher demand for intense consultation. In addition, there is a need to increase the availability of resource materials available to supplement and educate the callers about complex eldercare issues.

III. Eligible Applicants: Current Grantee

Evaluation Criteria: ACL will use the following evaluation criteria to ensure that proposed activities are within the approved scope and budget of the grant:

Approach

Is the purpose of the funding clearly described? Does it reflect a coherent and feasible approach for successfully addressing the identified problem and achieving the identified outcome(s)? Is the project work plan clear and comprehensive? Does it include sensible and feasible timeframes for the accomplishment of tasks presented? Does the work plan include specific objectives and tasks that are linked to measurable outcomes?

Budget

Is the budget justified with respect to the adequacy and reasonableness of resources requested? Are budget line items clearly delineated and consistent with work plan objectives?

Project Impact

Are the expected project benefits/results clear, realistic, and consistent with the objectives and purpose of the project? In addition, information previously provided in semi-annual reports will be considered in evaluating the proposal.

SUPPLEMENTARY INFORMATION: In compliance with 44 U.S.C. 3507, FDA has submitted the following proposed collection of information to OMB for review and clearance.

Customer/Partner Service Surveys—(OMB Control Number 0910-0360)—Extension

Under section 903 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 393), FDA is authorized to conduct research and public information programs about regulated products and responsibilities of the Agency. Executive Order 12862, entitled, "Setting Customer Service Standard," directs Federal Agencies that "provide significant services directly to the public" to "survey customers to determine the kind and quality of services they want and their level of satisfaction with existing services." FDA is seeking OMB clearance to conduct a series of surveys to implement Executive Order 12862. Participation in the surveys is voluntary. This request covers customer/partner service surveys of regulated entities, such as food processors; cosmetic, drug, biologic, and medical device manufacturers; consumers; and health professionals. The request also covers "partner" (State and local governments) customer service surveys.

FDA will use the information from these surveys to identify strengths and weaknesses in service to customers/partners and to make improvements. The surveys will measure timeliness, appropriateness, and accuracy of information; courtesy; and problem resolution in the context of individual programs.

FDA estimates conducting 15 customer/partner service surveys per year, each requiring an average of 15 minutes for review and completion. We estimate respondents to these surveys to be between 100 and 20,000 customers. Some of these surveys will be repeats of earlier surveys for purposes of monitoring customer/partner service and developing long-term data.

In the **Federal Register** of April 17, 2014 (79 FR 21765), FDA published a 60-day notice requesting public comment on the proposed collection of information. No comments were received.

FDA estimates the burden of this collection of information as follows:
