DEPARTMENT OF HOMELAND SECURITY

Coast Guard

[Docket No. USCG-2013-0240]

Change-1 to the Marine Safety Manual, Volume III

AGENCY: Coast Guard, DHS.

ACTION: Notice of availability.

SUMMARY: The Coast Guard announces the availability of Change-1 to the Marine Safety Manual (MSM), Volume III, Marine Industry Personnel, and the corresponding Commandant Change Notice that highlights the changes made to that manual. MSM Volume III provides information and interpretations on international conventions and U.S. statutory and regulatory issues relating to marine industry personnel. Change-1 is presented in a new format to facilitate future revisions by creating three distinct parts; Part A: Mariner Credentialing (Chapters 1-17), Part B: Vessel Manning (legacy Chapters 20-26, now Chapters 1-7), and Part C: Shipment and Service (legacy Chapters 18-19, now Chapters 1-2). The Commandant Change Notice discusses the substantive changes to Part B, Chapters 1 through 7. This Change includes revisions to Part C, Chapters 1 and 2, to account for revised regulations, updated forms, and reformatting. Part A will be reviewed and revised as part of a separate initiative.

DATES: Unless specifically stated otherwise, Change-1 to Marine Safety Manual, Volume III, Marine Industry Personnel, COMDTINST M16000.8B is effective as of August 5, 2014. Documents discussed in this notice should be available in the online docket within three business days of today's publication. This change has been incorporated into the electronic copy of the manual available on the Internet at http://www.uscg.mil/directives/listing_cim.asp?id=16000-16999. There will be no hardcopy distribution of this change.

ADDRESSES: To view the documents mentioned in this notice, go to <http://www.regulations.gov> and use "USCG-2013-0240" as your search term. Locate this notice in the search results, and use the filters on the left side of the page to locate specific documents by type. If you do not have access to the Internet, you may view the docket online by visiting the Docket Management Facility in Room W12-140 on the ground floor of the Department of Transportation West Building, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. We have an agreement with the Department of Transportation to use the Docket Management Facility.

SUPPLEMENTARY INFORMATION:

Background and Purpose

The Marine Safety Manual, Volume III, Marine Industry Personnel, COMDTINST M16000.8B, provides information and interpretations on international conventions and U.S. statutory and regulatory issues relating to marine industry personnel. The last revisions were released on May 27, 1999. The primary reasons for these changes are to incorporate the 2010 amendments to the International Convention on Standards of Training, Certification and Watchkeeping for Seafarers, 1978, as amended (STCW Convention), update the provisions for vessel manning, revise the discussion on the impact of multiple international standards, to clarify the applicability of tonnage measurement systems to U.S. flag vessels, and to include changes resulting from the consolidation of merchant mariner qualification credentials. The Coast Guard published two notices in the **Federal Register** announcing the availability of the changes to Part B (legacy chapters 20-26) and requested public comments (See 78 FR 48696 and 79 FR 14714) as well as input from the Merchant Marine Personnel Advisory Committee.

Specifically, the substantive changes announced in the initial notice (August 9, 2013) included: (1) Updated provisions for vessel manning, including guidance for the issuing of safe manning documents; (2) clarified roles, responsibilities, and facilitation of

communications with the appropriate offices at Coast Guard Headquarters in alignment with current Coast Guard organization; and (3) revised discussion on the impact of multiple international standards, including the Officer's Competency Certificates Convention (OCCC) 1936, the International Convention for Safety of Life at Sea (SOLAS), the Global Maritime Distress and Safety System (GMDSS), and the Principles of Minimum Safe Manning (IMO Resolution A.1047(27)). Additionally, the initial draft clarified the applicability of tonnage measurement systems to U.S. flag vessels, and included changes resulting from the consolidation of merchant mariner qualification credentials, including the removal of references to the operated uninspected towing vessel endorsement.

The primary reasons for the supplemental notice (March 17, 2014) were to announce the incorporation of the 2010 amendments to the STCW Convention and to address the 15 public comments received from the initial solicitation as well as input from the Merchant Marine Personnel Advisory Committee.

We received 12 public comment responses to the March 17, 2014 supplemental **Federal Register** notice. These comment responses contained a total of approximately 29 specific recommendations, suggestions, and other comments. We have created a comment matrix that provides a summary of each comment and the corresponding Coast Guard response, as well as internal Coast Guard comments. A copy of this comment matrix is available for viewing in the public docket for this notice. For more detailed information, please consult the actual public comment letters, which are available in the docket. You may access the docket going to <http://www.regulations.gov>, using "USCG-2013-0240" as your search term, and following the instructions in the **ADDRESSES** section above.

The basic ideas and principles encompassed in the initial and supplemental drafts remain. Some commenters raised concerns and objections over several proposed revisions to the MSM. In response to these comments, the Coast Guard has made some additional revisions. The Coast Guard notes, however, that the MSM (and any revisions made to the MSM) reflect current law and regulation and are intended to provide guidance and information to marine industry personnel. A brief discussion of the comments is included below. For a more in-depth discussion of the
