

features, or analyze environmental effects.

We are particularly interested in hearing about any potential issues, which are defined as points of discussion, dispute, or debate about the effects of the proposed action. Your participation will help the interdisciplinary team develop effective, issue-driven alternatives and mitigations to the proposed action as needed. It is important that reviewers provide their comments at such times and in such a manner that they are useful to the agency's preparation of the environmental impact statement. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions.

The project was originally proposed as an environmental assessment, and an opportunity for public scoping comments was provided between December 18, 2013 and January 24, 2014. The proposed action in the EA has been modified for the EIS. If you previously commented on the project, your comments have been and will continue to be considered in the development of alternatives. In order to move forward with this project, we ask that you do not repeat your comments. Following alternative development, the Forest Service will be providing another opportunity to comment on the alternatives and analysis. If you have any new comments, we welcome those at this time.

Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public project record for this proposed action. Comments submitted anonymously will be accepted and considered; however, anonymous comments will not provide the agency with the ability to provide the respondent with subsequent environmental documents.

Citric Acid and Certain Citrate Salts From the People's Republic of China: Final Results of Expedited Sunset Review of the Countervailing Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce ("the Department") finds that revocation of the countervailing duty order ("CVD") order on citric acid and certain citrate salts ("citric acid") from the People's Republic of China ("PRC") would be likely to lead to continuation or recurrence of a countervailable subsidy at the levels indicated in the "Final Results of Review" section of this notice.

Effective Date: August 6, 2014.

FOR FURTHER INFORMATION CONTACT: Patricia Tran, Office III, AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-1503.

SUPPLEMENTARY INFORMATION:

Background

On April 1, 2014, the Department initiated a sunset review of the CVD order on citric acid from the PRC pursuant to section 751(c) of the Tariff Act of 1930, as amended (“the Act”).¹ The Department received a notice of intent to participate in the review on behalf of Archer Daniels Midland Company, Cargill, Incorporated, and Tate & Lyle Ingredients Americas LLC, (collectively, “the domestic industry”) within the deadline specified in 19 CFR 351.218(d)(1)(i). Each of these companies claimed interested party status under section 771(9)(C) of the Act, as a domestic producer of the domestic like product.

The Department received adequate substantive responses collectively from the domestic industry within the 30-day deadline specified in 19 CFR 351.218(d)(3)(i). The Department did not receive a substantive response from any government or respondent interested party to the proceeding. Because the Department received no response from the respondent interested parties, the Department conducted an expedited review of this CVD order, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2).

Scope of the Order

The merchandise subject to the order is citric acid and certain citrate salts. The product is currently classified under the Harmonized Tariff Schedule of the United States (“HTSUS”) item numbers 2918.14.0000, 2918.15.1000, 2918.15.5000, 3824.90.9290, and 3824.90.9290. Although the HTSUS numbers are provided for convenience and customs purposes, the written product description remains dispositive.

For a full description of the scope, see “Issues and Decision Memorandum for the Final Results of Expedited Sunset Review of the Countervailing Duty Order on Citric Acid and Certain Citrate Salts from the People’s Republic of China” from Christian Marsh, Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, to Paul Piquado, Assistant Secretary for Enforcement and Compliance, dated concurrently with this final notice, and hereby adopted by this notice (“Issues and Decision Memorandum”).

Analysis of Comments Received

All issues raised in this review are addressed in the Issues and Decision Memorandum. The issues discussed in the Issues and Decision Memorandum include the likelihood of continuation

or recurrence of a countervailable subsidy and the net countervailable subsidy likely to prevail if the order were revoked. Parties can find a complete discussion of all issues raised in this expedited sunset review and the corresponding recommendations in this public memorandum which is on file electronically via the Enforcement and Compliance Antidumping and Countervailing Duty Centralized Electronic Service System (IA ACCESS). IA ACCESS is available to registered users at <http://iaaccess.trade.gov> and in the Central Records Unit, Room 7046 of the main Department of Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly on the Internet at <http://enforcement.trade.gov/frn/index.html>. The signed Issues and Decision Memorandum and the electronic versions of the Issues and Decision Memorandum are identical in content.

Final Results of Review

We determine that revocation of the CVD order on citric acid from the PRC would be likely to lead to continuation or recurrence of a countervailable subsidy at the rates listed below:

Exporter/manufacturer	Net subsidy rate
TTCA Co., Ltd. (a.k.a. Shandong TTCA Biochemistry Co., Ltd.)	44.31 percent <i>ad valorem</i> .
Yixing Union Biochemical Co., Ltd.; and Yixing Union Cogeneration Co., Ltd	36.46 percent <i>ad valorem</i> .
Anhui BBKA Biochemical Co., Ltd	150.58 percent <i>ad valorem</i> .
All Others	39.77 percent <i>ad valorem</i> .

Notification Regarding Administrative Protective Order

This notice serves as the only reminder to parties subject to administrative protective order (“APO”) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

We are issuing and publishing the results and notice in accordance with sections 751(c), 752(b), and 777(i)(1) of the Act.

Polyethylene Terephthalate Film, Sheet and Strip From India and Taiwan: Continuation of Antidumping and Countervailing Duty Orders

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.
DATES: *Effective Date:* August 6, 2014.
