SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.), this notice announces that we are requesting re-approval for the collection of data from recreational users of our lands, rivers, and reservoirs. To meet our needs for the collection of visitor use data, we will be requesting OMB to authorize a two-part request. The first part of the request provides us with a set of 11 pre-approved questionnaires to be administered as approved by OMB.

The second part of the request consists of OMB and the Bureau of Reclamation agreeing upon a process whereby we custom design a survey instrument to fit a specific situation or area. The custom designed survey would be created by extracting questions from the approved questionnaires as applicable to the area and issue being evaluated. Only questions included in the pre-approved questionnaires will be used. We will then submit the new survey form to OMB for expedited approval.

I. Abstract

The Bureau of Reclamation is responsible for recreation development at all of its reservoirs. Presently, there are 289 designated recreation areas on our lands within the 17 Western States hosting over 24 million visitors annually. As a result, we must be able to respond to emerging trends, changes in the demographic profile of users, changing values, needs, wants, and desires, and conflicts between user groups. Statistically valid and up-to-date data derived from the user is essential to developing and providing recreation programs relevant to today's visitor.
