

The Rule's first condition is that orders for covered accounts be transmitted from off the exchange floor. The Commission has previously found that the off-floor transmission requirement is met if a covered account order is transmitted from a remote location directly to an exchange's floor by electronic means.⁶⁸ The Exchange has represented that orders sent to BOX, regardless of where it executes within the BOX system, including the Complex Order Book, the BOX Book, a PIP or a COPIP, will be transmitted from remote terminals directly to BOX by electronic means. The Exchange also represents that orders for covered accounts from OFPs and BOX Market Makers will only be submitted from electronic systems from remote locations, separate from BOX. Because the Exchange has represented that there are no other Options Participants that are able to submit order to BOX other than OFPs or Market Makers, the Commission believes that orders received through the PIP and COPIP would satisfy the off-floor transmission requirement.

Second, the Rule requires that the member not participate in the execution of its order. The Exchange represents that at no time following the submission of an order is a Participant able to acquire control or influence over the result or timing of an order's execution.⁶⁹ According to the Exchange, the execution of an order is determined by what other orders are entered into BOX at or around the same time, what orders are on the Complex Order Book and on the BOX Book, whether a PIP or COPIP is initiated and where the order is ranked based on the priority ranking algorithm.⁷⁰ In addition, as noted above, BOX proposes to no longer broadcast Improvement Orders received during the PIP and COPIP. As a result, responses to the PIP and COPIP auctions would no longer be visible to Participants.⁷¹ Accordingly, the

Commission believes that a member does not participate in the execution of an order submitted through the PIP or the COPIP, including orders that execute against an order on the BOX Book or the Complex Order Book.

Third, Rule 11a2-2(T) requires that the order be executed by an exchange member who is unaffiliated with the member initiating the order. The Commission has stated that this requirement is satisfied when automated systems facilities are used, as long as the design of these systems ensures that members do not possess any special or unique trading advantages in handling their orders after transmitting them to the exchange.⁷² BOX has represented that the PIP and COPIP are designed so that no broker-dealer has any special or unique trading advantage in the handling of its orders after transmitting its orders to BOX.⁷³ Based on the Exchange's representation, the Commission believes that the PIP and COPIP satisfy this requirement.

Fourth, in the case of a transaction effected for an account with respect to which the initiating member or an associated person thereof exercises investment discretion, neither the initiating member nor any associated person thereof may retain any compensation in connection with effecting the transaction, unless the person authorized to transact business for the account has expressly provided otherwise by written contract referring to Section 11(a) of the Act and Rule 11a2-2(T) thereunder.⁷⁴ BOX represents that Participants relying on Rule 11a2-2(T) for transactions effected through the PIP and COPIP must comply with this condition of the Rule and that the Exchange has represented that it will enforce this requirement pursuant to its

⁷² In considering the operation of automated execution systems operated by an exchange, the Commission noted that, while there is not an independent executing exchange member, the execution of an order is automatic once it has been transmitted into the system. Because the design of these systems ensures that members do not possess any special or unique trading advantages in handling their orders after transmitting them to the exchange, the Commission has stated that executions obtained through these systems satisfy the independent execution requirement of Rule 11a2-2(T). See 1979 Release, *supra* note 55.

⁷³ See Notice, *supra* note 3, 79 FR at 37815.

⁷⁴ See 17 CFR 240.11a2-2(T)(a)(2)(iv). In addition, Rule 11a2-2(T)(d) requires a member or associated person authorized by written contract to retain compensation, in connection with effecting transactions for covered accounts over which such member or associated persons thereof exercises investment discretion, to furnish at least annually to the person authorized to transact business for the account a statement setting forth the total amount of compensation retained by the member in connection with effecting transactions for the account during the period covered by the statement. See 17 CFR 240.11a2-2(T)(d).

obligation under Section 6(b)(1) of the Act to enforce compliance with federal securities laws.⁷⁵

V. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,⁷⁶ that the proposed rule change (SR-BOX-2014-16), be and hereby is, approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.⁷⁷

Kevin M. O'Neill,
Deputy Secretary.
