INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701-TA-511 and 731-TA-1246-1247 (Final)]

Certain Crystalline Silicon Photovoltaic Products From China and Taiwan; Scheduling of the Final Phase of Countervailing Duty and Antidumping Duty Investigations

AGENCY: United States International Trade Commission.

ACTION: Notice.

SUMMARY: The Commission hereby gives notice of the scheduling of the final phase of antidumping and countervailing duty investigation Nos. 701-TA-511 and 731-TA-1246-1247 (Final) under sections 705(b) and 731(b) of the Tariff Act of 1930 (19 U.S.C. 1671d(b) and 1673d(b)) (the Act) to determine whether an industry in the United States is materially injured or threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of imports of certain crystalline silicon photovoltaic products from China and Taiwan that are being sold at less than fair value and subsidized by the Government of China.¹

¹ For purposes of these investigations, the Department of Commerce has defined the subject merchandise as "crystalline silicon photovoltaic cells, and modules, laminates and/or panels consisting of crystalline silicon photovoltaic cells, whether or not partially or fully assembled into other products, including building integrated materials."

For purposes of these investigations, subject merchandise also includes modules, laminates and/or panels assembled in the subject country consisting of crystalline silicon photovoltaic cells that are completed or partially manufactured within a customs territory other than that subject country, using ingots that are manufactured in the subject country, wafers that are manufactured in the subject country, or cells where the manufacturing process begins in the subject country and is completed in a non-subject country.

Subject merchandise includes crystalline silicon photovoltaic cells of thickness equal to or greater than 20 micrometers, having a p/n junction formed by any means, whether or not the cell has undergone other processing, including, but not limited to, cleaning, etching, coating, and/or addition of materials (including, but not limited to, metallization and conductor patterns) to collect and forward the electricity that is generated by the cell.

Excluded from the scope of these investigations are thin film photovoltaic products produced from amorphous silicon (a-Si), cadmium telluride (CdTe), or copper indium gallium selenide (CIGS).

Also excluded from the scope of these investigations are any products covered by the existing antidumping and countervailing duty orders on crystalline silicon photovoltaic cells, whether or not assembled into modules, from the People's Republic of China.

Also excluded from the scope of these investigations are crystalline silicon photovoltaic cells, not exceeding 10,000 mm² in surface area, that are permanently integrated into a consumer good whose function is other than power generation

and that consumes the electricity generated by the integrated crystalline silicon photovoltaic cell. Where more than one cell is permanently integrated into a consumer good, the surface area for purposes of this exclusion shall be the total combined surface area of all cells that are integrated into the consumer good.

Merchandise covered by these investigations is currently classified in the Harmonized Tariff Schedule of the United States (HTSUS) under subheadings 8501.61.0000, 8507.20.8030, 8507.20.8040, 8507.20.8060, 8507.20.8090, 8541.40.6020, 8541.40.6030 and 8501.31.8000. Overview of This Information Collection

(1) *Type of Information Collection:* New statistical data collection.

(2) *Title of the Form/Collection:* National Survey of Tribal Court Systems (NSTCS).

(3) *Agency form number:* The form labels include NSTCS-14L48; NSTCS-14AK; and NSTCS-14CFR. Bureau of Justice Statistics, Office of Justice Programs, United States Department of Justice.

(4) *Affected public who will be asked to respond, as well as a brief abstract:* Primary: This information collection is a census of tribal court systems that

operated in Indian country or on tribal lands during 2014. The Bureau of Justice Statistics (BJS) proposes to implement a National Survey of Tribal Courts (NSTCS). Tribal courts are diverse, with some being extensively elaborate in their development, some based on traditional or indigenous customs, and others are just beginning to develop a contemporary justice system. Over the past decade, legislation such as the Violence against Women Reauthorization Act of 2013, the Tribal Law and Order Act of 2010, and the Adam Walsh Child Protection and Safety Act of 2006 (PL 109-248) have sought to improve public safety in Indian country through expanded jurisdiction over non-Indians for domestic violence cases, increased sentencing authority for tribal courts, and tracking of active protection orders and sex offenders through a registry or database systems. In addition, TLOA specifically requires the Bureau of Justice Statistics (BJS) to (1) establish and implement a comprehensive tribal crime data collection system; (2) support tribal participation in national records and information systems (P.L. 111-211, 124 Stat. 2258, § 251(b)); and (3) report to Congress annually the data collected and analyzed in accordance with the act. Existing information on tribal courts is extremely dated or was conducted with a narrow focus and did not include all of the distinctive areas or types of tribal courts that operate in the U.S.—the lower 48 States, Alaska, and the Courts of Indian Offenses. No reliable and recurring data are collected on the volume and types of criminal and civil cases handle in tribal courts annually, as well as the types of justice programs and services rendered in tribal communities. Hence, the NSTCS will fill these gaps and provide national level statistics on the administration and operation of trial and appellate courts in Indian country. The NSTCS is designed to provide BJS and other interested stakeholders with current empirical information on tribal court systems. A goal of the NSTCS is to obtain national statistics on the types of tribal forums, including joint jurisdictional tribal-state courts; staffing and qualifications; budgets; prosecution; public defense and civil legal services; pretrial, probation and reentry programs; juvenile justice cases; domestic violence and protection orders; enhanced sentencing and expanded jurisdiction capacity; and criminal justice information database access and reporting. These data will help BJS generate aggregate statistics on the organizational structure of the tribal
