SUPPLEMENTARY INFORMATION:

I. Background

GSA is proposing to amend the
General Services Administration
Acquisition Regulation (GSAR) to
update the text addressing GSAR part
515, Contracting by Negotiation, GSAR
part 538, Federal Supply Schedule
Contracting, and corresponding
provisions and clauses in GSAR part

552, Solicitation Provisions and
Contract Clauses.

GSAR Part 538 will be amended to
include MAS policies contained in FAS
Acquisition Letters (ALs) and
Instructional Letters (ILs). Bringing
these policies into the GSAM will allow
for greater transparency and an
opportunity for the public to comment
on these longstanding procedures.

The proposed changes included in
this rulemaking are as follows:

1. GSAR 538.273 is restructured to be
more consistent with the formation of
Federal Supply Schedule (FSS)
solicitations and contracts. The previous
structure of GSAR 538.273 was based
upon whether the FSS was single-award
or multiple-award. A more practical
structure outlines where each provision
or clause shall be located in FSS
solicitations and contracts (*e.g.*, as an
addendum to FAR clause 52.212–1 or
52.212–4).

2. Thirty five (35) new FSS-specific
clauses and provisions, previously
implemented through internal FAS
policy and currently in FSS solicitations
and contracts will be incorporated into
GSAR parts 538 and 552. Bringing these
clauses and provisions into the GSAM
allows for greater transparency, and
consolidates all regulations into one
area, while updating administrative
information to ensure currency and
consistency within the FSS program.
This also allows the public an
opportunity to comment on these
longstanding procedures. The thirty-five
(35) new clauses, prescriptions, and a
brief description are as follows:

This clause provides to the Offeror instructions on adding and deleting, special item numbers, products and services from its contract.

4. Six (6) FSS-specific provisions and clauses that were removed from the GSAR as part of a previous General Services Administration Acquisition Manual (GSAM) rewrite are reinstated and given new clause numbers. Specifically, GSAR Case 2006–G507,

“*Rewrite of GSAR Part 538, Federal Supply Schedule Contracting*,” was published in the **Federal Register** at 74 FR 4596 on January 26, 2009 and removed the clauses. Since then, the clauses have been and are retained by GSA Acquisition Letter (AL) V–09–10

(and its supplements). The clauses and provisions contained therein are proposed to be reinstated into GSAR Parts 538 and 552 in order to ensure consistency and transparency and to provide the public an opportunity to comment.

THE REINSTATED CLAUSES ARE AS FOLLOWS:

Clause title	New GSAR location	New number	Previous number (s)
Contractor's Remittance (Payment) Address	538.273(b)(2)	552.238–89	552.232–82
Evaluation—Commercial Items (Federal Supply Schedule)	538.273(c)(1)	552.238–92	552.212–73
Discount for Prompt Payment (Federal Supply Schedule)	538.273(d)(10)	552.238–95	552.232–8

Payment by Credit Card	538.273(d)(12)	552.238–97	552.232–79
Warranty (Federal Supply Schedule)	538.273(d)(13)	552.238–98	552.246–73

5. The GSAR clause at 552.215–71, Examination of Records by GSA (Multiple Award Schedule), is relocated to GSAR part 538. As part of the GSAR rewrite, GSA is relocating the instructions for using all clauses and provisions dealing with the FSS Program to GSAM part 538. Bringing these instructions into one area ensures currency and consistency within the FSS program. This provides better guidance to FSS contracting officers when developing FSS solicitations and contracts.

6. Typographical errors are corrected and minor administrative changes are made to GSAR parts 538 and 552 (e.g., renumbers existing provisions and clauses, changes “MAS” to “FSS” to be more consistent with the FAR).

II. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the

importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

III. Regulatory Flexibility Act

GSA does not expect this proposed rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act 5 U.S.C. 601, *et seq.*, because the proposed rule will incorporate a number of provisions and clauses that are currently in use in FSS solicitations and contracts and most contractors are familiar with and are currently complying with these practices. However, since this is the first time these proposed changes and existing policies and procedures that impact the public are being published, an Initial Regulatory Flexibility Analysis (IRFA) has been prepared. The Secretariat has submitted a copy of the IRFA to the Chief Counsel for Advocacy of the Small Business Administration. A

copy of the IRFA may be obtained from the Regulatory Secretariat. GSA will consider comments from small entities concerning the affected GSAR parts in accordance with 5 U.S.C. 610. Comments must be submitted separately and shall cite 5 U.S.C. 601, *et seq.* (GSAR Case 2013–G502), in correspondence. The analysis is summarized as follows:

This IRFA has been prepared consistent with the criteria of 5 U.S.C. 604.

There are approximately 20,500 FSS contracts that are affected by this proposed change. Of these, approximately eighty percent (16,400) of FSS contracts are held by small businesses. The proposed rule is unlikely to affect small businesses awarded GSA FSS contracts as it implements a number of provisions and clauses currently in use in FSS solicitations and contracts, yet not vetted via public comment. The information collected is used by FAS to evaluate vendors' offers, ordering activities when placing orders against the contract, and other FSS vendors to conduct market research when submitting proposals. Therefore, this rule does not pose any new projected reporting, recordkeeping, or additional compliance requirements. Bringing these regulations into the GSAM consolidates all regulations into one area, allowing for any future changes to receive public comment.

There are a total of 31 Schedules, with 14 possessing an array of Special Item Numbers (SINs) set-aside for small businesses. Overall, small businesses have benefited from GSA providing access to the Federal marketplace via the Pre-award phase (Pathway to Success), the Post-award phase (New Contractor Orientation), and Contractor Assistance Visits (CAVs). FSS contracts are negotiated as volume purchase agreements, with generally very favorable pricing. The ability of small businesses to receive awards under the FSS Program has enabled them to grow in the Federal marketplace as well as realize significant cost savings.

IV. Paperwork Reduction Act

The Paperwork Reduction Act (44 U.S.C. chapter 35) applies because the proposed rule contains information collection requirements. Accordingly, the Regulatory Secretariat has submitted a request for approval of a new information collection requirement concerning OMB Control Number 3090-0303; Administrative Changes to the Office of Management and Budget under 44 U.S.C. 3501, *et seq.*

The new clause at GSAR 552.238-96, Contractor's Billing Responsibilities, contains a recordkeeping requirement that is subject to the Paperwork Reduction Act (44 U.S.C. 3501, *et seq.*). The clause provides for the contractor to require all dealers participating in the performance of the contract to agree to maintain certain records on sales made under the contract on behalf of the contractor. However, it does not add burden to what is already estimated for the existing GSAR clause at 552.238-74, Industrial Funding Fee and Sales Reporting by a previous information collection (see OMB Control Number 3090-0121; Industrial Funding Fee and Sales Reporting).

B. Requests for Comments Regarding Paperwork Burden

When two or more offerors (e.g., dealers/resellers) offer the identical product, award may be made competitively to only one offeror on the basis of the lowest price. (Discounts for early payment will not be considered as an evaluation factor in determining the low offeror). During initial open season for an option period, any offers that are equal to or lower than the current contract price received for identical items will be considered. Current Contractors will also be allowed to submit offers for identical items during this initial open season. The current Contractor which has the identical item on contract will be included in the evaluation process. The Government will evaluate all offers and may award only one contract for each specified product or aggregate group.

(b) These representatives will be used to advise on specific technical, management, and price matters and shall not, under any circumstances, be used as voting evaluators. However, the Government may consider the advice provided in its evaluation process. In addition, Contractor personnel may be used in specific contract administration tasks (e.g., administrative filing, review of deliverables, etc.).

(b) Discounts will not be considered to determine the low Offeror in the situation described in the “Offers on Identical Products” provision of this solicitation.

(c) Uneconomical discounts will not be considered as meeting the criteria for award established by the Government. In this connection, a discount will be considered uneconomical if the annualized rate of return for earning the discount is lower than the “value of funds” rate established by the Department of the Treasury and published quarterly in the **Federal Register**. The “value of funds” rate applied will be the rate in effect on the date specified for the receipt of offers.

(d) Discounts for early payment may be offered either in the original offer or on individual invoices submitted under the resulting contract. Discounts offered will be taken by the ordering activity if payment is made within the discount period specified.

(e) Discounts that are included in offers become a part of the resulting contracts and are binding on the Contractor for all orders placed under the contract. Discounts offered only on individual invoices will be binding on the Contractor only for the particular invoice on which the discount is offered.

(f) In connection with any discount offered for prompt payment, time shall be computed from the date of the invoice. For the purpose of computing the discount earned, payment shall be considered to have been made on the date which appears on the payment check or the date on which an electronic funds transfer was made.

Such costs will, in all cases, be based upon the lowest regularly established rates on file with the Interstate Commerce Commission, the U.S. Maritime Commission (if shipped by water), or any State regulatory body, or those published by the U.S. Postal Service; and must be supported by paid freight or express receipt or by a statement of parcel post charges including weight of shipment.

(2) The right is reserved to ordering agencies to furnish Government bills of lading.

(End of clause)

552.238-119 Federal Excise Tax.

As prescribed in 538.1203(d)(30), insert the following clause:

Federal Excise Tax (Date)

As prescribed in 538.273(d)(31), insert the following clause:

Guarantee (Date)

The Contractor guarantees the equipment furnished will be free from defects in material and workmanship for a period of not less than 1 year from date of delivery. All parts found defective within that period shall be replaced, with the cost of replacement, including shipping charges, to be borne by the Contractor. Under no circumstances will any equipment covered by this guarantee be returned without:

(a) Advance written notice to the Contractor; or

(b) Obtaining shipping instructions from the Contractor.

(End of clause)

552.238-121 Electronic Commerce.

As prescribed in 538.273(d)(32), insert the following clause:

Electronic Commerce (Date)

(a) *General Background.* The Federal Acquisition Streamlining Act (FASA) of 1994 requires the Government to evolve its acquisition process from one driven by paper to an expedited process based on electronic commerce/electronic data interchange (EC/EDI). EC/EDI encompasses more than merely automating manual processes and eliminating paper transactions. EC/EDI improves business processes (e.g. procurement, finance, logistics) into a fully electronic environment and fundamentally changes the way organizations operate.

(b) *Trading Partners and Value-Added Networks/Services (VANs/VASs).*

(1) Within the electronic commerce architecture, electronic documents (e.g., orders, invoices, etc.) are carried between the Federal Government's procuring office and Contractors (now known as "trading partners"). These transactions are carried by 3rd party commercial telecommunications companies called Value-Added Networks/Services (VANs/VASs).

(2) EC/EDI can be performed using commercially available hardware, software, and telecommunications. The selection of a VAN/VAS is a business decision Contractors

must make. There are many different providers which provide a variety of electronic services and different pricing strategies. If the provider only provides communications services, you may also need a software translation package.

(c) *Registration Instructions.* To perform EC/EDI with the Government, Contractors shall register as a trading partner. Contractors will provide regular business information, banking information, and EC/EDI capabilities to all agencies in this single registration. A central repository of all trading partners is the Systems for Award Management (SAM) <http://www.sam.gov>. Contractors shall follow the instructions on the SAM Web site regarding how to register for EC/EDI.

(d) *Implementation Conventions.* All EDI transactions must comply with the Federal Implementation Conventions (ICs). The ICs are available on a registry maintained by the National Institute of Standards and Technology (NIST). It is accessible via the Internet at <http://www.nist.gov/itl>. ICs are available for common business documents such as Purchase Order, Price Sales Catalog, Invoice, Request for Quotes, etc.

(e) *Additional Information.* GSA has additional information available for Contractors who are interested in using EC/EDI on its Web site, www.gsa.gov.

(f) *GSA Advantage!®.* (1) GSA Advantage!® uses electronic commerce to receive catalogs and text messages; and to send purchase orders, application advice, and functional acknowledgments. GSA Advantage!® enables customers to:

(i) Perform database searches across all contracts by manufacturer; manufacturer's model/part number; Contractor; and generic supply categories;

(ii) Generate EDI/XML delivery orders to Contractors, generate EDI/XML delivery orders from the Federal Acquisition Service to Contractors, or download files to receive delivery orders; and

(iii) Use the credit card.

(2) GSA Advantage!® may be accessed via the GSA Home Page. The INTERNET address is: <http://www.gsa.gov>.

(End of clause)

552.238-122 Imprest Funds (Petty Cash).

As prescribed in 538.273(d)(33), insert the following clause:

Imprest Funds (Petty Cash) (Date)

The Contractor agrees to accept cash payment for purchases made under the terms of the contract in conformance with Federal Acquisition Regulation (FAR) 13.305.

(End of clause)

552.238-123 Dissemination of Information by Contractor.

As prescribed in 538.273(d)(34), insert the following clause:

Dissemination of Information by Contractor (Date)

The Government will provide the Contractor with a single copy of the resulting Federal Supply Schedule contract award documents. However, it is the responsibility

of the Contractor to furnish all sales outlets authorized to participate in the performance of the contract with the terms, conditions, pricing schedule, and other appropriate information.

(End of clause)

552.238–124 Deliveries Beyond the Contractual Period—Placing of Orders.

As prescribed in 538.273(d)(35), insert the following clause:

Deliveries Beyond the Contractual Period—Placing of Orders (Date)

In accordance with clause 552.238–78, Scope of Contract (Eligible Ordering Activities), this contract covers all requirements that may be ordered, as distinguished from delivered during the contract term. This is for the purpose of providing continuity of supply or operations by permitting ordering activities to place orders as requirements arise in the normal course of operations. Accordingly, any order mailed (or received, if forwarded by other means than through the mail) to the Contractor on or before the expiration date of the contract, and providing for delivery within the number of days specified in the contract, shall constitute a valid order.

(End of clause)

552.238–125 Interpretation of Contract Requirements.

As prescribed in 538.273(d)(36), insert the following clause:

Interpretation of Contract Requirements (Date)

No interpretation of any provision of this contract, including applicable specifications, shall be binding on the Government unless furnished or agreed to in writing by the Contracting Officer or his designated representative.

(End of clause)

552.238–126 Export Traffic Release (Supplies).

As prescribed in 538.273(d)(37), insert the following clause:

Export Traffic Release (Supplies) (Date)

Supplies ordered by GSA for export will not be shipped by the Contractor until shipping instructions are received from GSA. To obtain shipping instructions, the Contractor shall forward completed copies of GSA Form 1611, Application for Shipping Instructions and Notice of Availability, to the GSA office designated on the purchase order at least 15 days prior to the anticipated shipping date. Copies of GSA Form 1611 will be furnished to the Contractor with the purchase order. Failure to comply with this requirement could result in nonacceptance of the material by authorities at the port of exportation. When supplies for export are ordered by other Government agencies the Contractor shall obtain shipping instructions from the ordering agency.

(End of clause)

552.238–127 Export Traffic Release (Vehicles).

As prescribed in 538.273(d)(38), insert the following clause:

Export Traffic Release (Vehicles) (Date)

Shipment of vehicles for export will not be accepted without a release (clearance). To obtain this clearance, the contractor shall complete GSA Form 1611, "Application for Shipping Instructions and Notice of Availability," which can be obtained at the following Web site: <http://www.gsa.gov/portal/forms/type/GSA>.

Thirty (30) days in advance of the anticipated date of availability for shipment, the Contractor is to submit a completed GSA Form 1611, including vehicle identification (VIN) number(s) for each export destination, to the Transportation Office designated on the delivery order. Shipment is not to be made until instructions are received from the above transportation office. Failure to adhere to this requirement shall result in refusal of shipment until proper release is obtained. Distribution instructions are provided with the form.

(End of clause)

552.238–128 Carload Shipments.

As prescribed in 538.273(d)(39), insert the following clause:

Carload Shipments (Date)

When shipment is to be made by rail, to one destination, of a carload quantity which includes an item or items the overall length of which when packed and/or palletized, is 60 inches or over, the Contractor shall, when ordering cars, specify that, if available, double-door rail cars be furnished. This provision is intended solely to facilitate unloading by forklift truck at destination. Under no circumstances shall scheduled shipment be delayed due to nonavailability of double-door cars.

(End of clause)

(c) The Contractor will be required to furnish a complete description of spare parts kit offered, a list of parts included, and the price of the kit delivered f.o.b. destination to any point within the conterminous United States within 15 days after receipt of a request from the Contracting Officer. If the kit offered is acceptable to the Government,

awards covering requirements will be made by supplemental agreement to this contract.

(End of clause)

552.238–130 Authentication Supplies and Services.

As prescribed in 538.273(d)(41), insert the following clause:

Authentication Supplies and Services (Date)

(a) *General Background.* (1) The General Services Administration (GSA) originally established the Access Certificates for Electronic Services (ACES) Program to provide digital certificates and PKI services for enabling e-Government applications that require logical access control, digital signature and/or electronic authentication. This category of supplies and services has been expanded beyond the original scope of ACES and is now described as "Identity and Access Management" (IAM) to clearly define the kinds of services that meet the requirements for service providers and supplies that support FISMA-compliant IAM systems deployed by Federal agencies.

(2) Homeland Security Presidential Directive 12 (HSPD-12), "Policy for a Common Identification Standard for Federal Employees and Contractors" establishes the requirement for a mandatory Government-wide standard for secure and reliable forms of identification issued by the Federal Government to its employees and Contractor employees assigned to Government contracts in order to enhance security, increase Government efficiency, reduce identity fraud, and protect personal privacy. Further, the Directive requires the Department of Commerce to promulgate a Federal standard for secure and reliable forms of identification within six months of the date of the Directive. As a result, the National Institute of Standards and Technology (NIST) released Federal Information Processing Standard (FIPS) 201: Personal Identity Verification of Federal Employees and Contractors on February 25, 2005. FIPS 201 requires that the digital certificates incorporated into the Personal Identity Verification (PIV) identity credentials comply with the X.509 Certificate Policy for the U.S. Federal PKI Common Policy Framework. In addition, FIPS 201 requires that Federal identity badges referred to as PIV credentials, issued to Federal employees and Contractors comply with the Standard and associated NIST Special Publications 800–73, 800–76, 800–78, and 800–79.

(b) *Special Item Numbers.* GSA has established the e-Authentication Initiative (see URL: <http://www.idmanagement.gov>) to provide common infrastructure for the authentication of the public and internal federal users for logical access to Federal e-Government applications and electronic services. To support the government-wide implementation of HSPD-12 and the Federal e-Authentication Initiative, GSA has established Special Item Numbers (SINs) pertaining to Authentication Products and Services, including Electronic Credentials, Digital Certificates, eAuthentication, Identity and Access Management, PKI Shared Service Providers, and HSPD-12 Product and Service Components.

(c) *Qualification Information.* (1) All Authentication supplies and services must be qualified as being compliant with Government-wide requirements before they will be included on a GSA Information Technology (IT) Schedule contract. The Qualification Requirements and associated evaluation procedures against the Qualification Requirements for each SIN and the specific Qualification Requirements for HSPD-12 implementation components are presented at the following URL: <http://www.idmanagement.gov>.

(2) In addition, the National Institute of Standards and Technology (NIST) has established the NIST Personal Identity Verification Program (NPIVP) to evaluate integrated circuit chip cards and supplies against conformance requirements contained in FIPS 201. GSA has established the FIPS 201 Evaluation Program to evaluate other supplies needed for agency implementation of HSPD-12 requirements where normative requirements are specified in FIPS 201 and to perform card and reader interface testing for interoperability. Products that are approved as FIPS-201 compliant through these evaluation and testing programs may be offered directly through HSPD-12 Supplies and Services Components SIN under the category "Approved FIPS 201-Compliant Products and services".

(d) *Qualification Requirements.* Offerors proposing Authentication supplies and services under the established SINs are required to provide the following:

(1) Proposed items must be determined to be compliant with Federal requirements for that SIN. Qualification Requirements and procedures for the evaluation of supplies and services are posted at the URL: <http://www.idmanagement.gov>. GSA will follow these procedures in qualifying offeror's supplies and services against the Qualification Requirements for applicable to SIN. Offerors must submit all documentation certification letter(s) for Authentication Supplies and Services offerings at the same time as submission of proposal. Award will be dependent upon receipt of official documentation from the Acquisition Program Management Office (APMO) listed below verifying satisfactory qualification against the Qualification Requirements of the proposed SIN(s).

(2) After award, Contractor agrees that certified supplies and services will not be offered under any other SIN on any Federal Supply Schedule.

(3)(i) If the Contractor changes the supplies or services previously qualified, GSA may require the Contractor to resubmit the supplies or services for re-qualification.

(ii) If the Federal Government changes the qualification requirements or standards, Contractor must resubmit the supplies and services for re-qualification.

(4) Immediately prior to making an award, Contracting Officers MUST consult the following Web site to ensure that the supplies and/or services recommended for award under any Authentication Supplies and Services SINs are in compliance with the latest APL qualification standards: www.idmanagement.gov. A dated copy of the applicable page shall be made and included with the award documents.

(e) *Demonstrating Conformance.* The Federal Government has established Qualification Requirements for demonstrating conformance with the Standards. The following Web sites provide additional information regarding the evaluation and qualification processes:

(1) For Access Certificates for Electronic Services (ACES) and PKI Shared Service Provider (SSP) Qualification Requirements and evaluation procedures: <http://www.idmanagement.gov>.

(2) For HSPD-12 Product and Service Components Qualification Requirements and evaluation procedures: <http://www.idmanagement.gov>.

(3) For FIPS 201 compliant products and services qualification and approval procedures: <http://www.csac.nist.gov/piv-project> and <http://www.smart.gov>.

(f) *Acquisition Program Management Office (APMO).* GSA has established the APMO to provide centralized technical oversight and management regarding the qualification process to industry partners and Federal agencies. Contact the following APMO for information on the eAuthentication Qualification process. Technical, APMO, FIPS 201, and HSPD-12 Points of Contact can be found below, or in an additional attachment to the solicitation. [The contracting officer shall insert the points of contact information below, unless otherwise included elsewhere in the solicitation.] * _____ *

As prescribed in 538.273(d)(42) insert the following clause:

Commercial Satellite Communication (COMSATCOM) Services (Date)

(a) *General Background.* Special Item Numbers (SINs) have been established for Commercial Satellite Communications (COMSATCOM) services, focused on transponded capacity (SIN 132-54) and fixed and mobile subscription services (SIN 132-55), to make available common COMSATCOM services to all Ordering Activities.

(b) *Information Assurance.* (1) The Contractor shall demonstrate, to the maximum extent practicable, the ability to meet:

(i) The Committee on National Security Systems Policy (CNSSP) 12, "National Information Assurance Policy for Space Systems used to Support National Security Missions"; or

(ii) Department of Defense Directive (DoDD) 8581.1, "Information Assurance (IA) Policy for Space Systems Used by the Department of Defense."

(2) The Contractor shall demonstrate the ability to comply with the Federal Information Security Management Act of 2002 as implemented by Federal Information Processing Standards Publication 200 (FIPS 200), "Minimum Security Requirements for Federal Information and Information Systems." In response to ordering activity requirements, at a minimum, all services shall meet the requirements assigned against:

(i) A low-impact information system (per FIPS 200) that is described in the current revision of National Institute of Standards and Technology (NIST) Special Publication (SP) 800-53, "Recommended Security Controls for Federal Information Systems and Organizations;" or

(ii) A Mission Assurance Category (MAC) III system that is described in the current revision of DoD Instruction (DoDI) 8500.2, "Information Assurance Implementation."

(3) The Contractor's information assurance boundary is where the Contractor's services connect to the user terminals/equipment (*i.e.*, includes satellite command encryption (ground and space); systems used in the Satellite Operations Centers (SOCs), Network Operations Centers (NOCs) and teleport; and terrestrial infrastructure required for service delivery).

(c) *Delivery Schedule.* The Contractor shall deliver COMSATCOM services in accordance with 552.238-78.

(d) *Portability.* The Contractor shall have the capability to redeploy COMSATCOM services, subject to availability. Portability shall be provided within the COMSATCOM Contractor's resources at any time as requested by the ordering activity. When portability is exercised, evidence of equivalent net present value (NPV) shall be provided by the Contractor.

(e) *Flexibility/Optimization.* The Contractor shall have the capability to re-groom resources for spectral, operational, or price efficiencies. Flexibility/optimization shall be provided within the COMSATCOM Contractor's resources at any time as requested by the ordering activity. When flexibility/optimization is exercised, evidence of equivalent net present value (NPV) shall be provided by the Contractor. The Contractor is encouraged to submit re-grooming approaches for ordering activity consideration that may increase efficiencies for existing COMSATCOM services.

(f) *Net Ready (Interoperability).* COMSATCOM services shall be consistent with commercial standards and practices. Services shall have the capability to access and/or interoperate with Government or other Commercial teleports/gateways and provide enterprise service access to or among networks or enclaves. Interfaces may be identified as interoperable on the basis of participation in a sponsored interoperability program.

(g) *Network Monitoring (Net OPS).* The Contractor shall have the capability to electronically collect and deliver near real-time monitoring, fault/incident/outage reporting, and information access to ensure effective and efficient operations, performance, and availability, consistent with commercial practices. Consistent with the Contractor's standard management practices, the Net Ops information will be provided on a frequency (example: every 6 hours, daily) and format (example: SNMP, XML) as defined in a requirement to a location/entity/electronic interface defined by the ordering activity. Specific reporting requirements will be defined by the Ordering Activity.

(h) *EMI/RFI Identification, Characterization, and Geo-location.* The

Contractor shall have the capability to collect and electronically report in near real-time Electro Magnetic Interference (EMI)/Radio Frequency Interference (RFI) identification, characterization, and geo-location, including the ability to identify and characterize sub-carrier EMI/RFI being transmitted underneath an authorized carrier, and the ability to geo-locate the source of any and all EMI/RFI. The Contractor shall establish and use with the ordering activity a mutually agreed upon media and voice communications capability capable of protecting "Sensitive, but Unclassified" data.

(i) *Security.* (1) The Contractor may be required to obtain/possess varying levels of personnel and facility security clearances up to U.S. Government TOP SECRET/Sensitive Compartmented Information (TS/SCI) or equivalent clearances assigned by the National Security Authority of a NATO Member State or Major Non-NATO Ally.

(2) For incident resolution involving classified matters, the Contractor shall provide appropriately cleared staff who can affect COMSATCOM services operations (example: satellite payload operations, network operations). The Contractor shall provide a minimum of one operations staff member AND a minimum of one person with the authority to commit the company if resolution requires business impacting decisions (example: Chief Executive Officer, Chief Operations Officer, etc.).

(3) When Communications Security or Transmission Security equipment or keying material is placed in the equipment/terminal shelter, the Contractor shall ensure compliance with applicable physical security directives/guidelines and that all deployed equipment/terminal operations and maintenance personnel shall possess the appropriate clearances, equal to or higher than the classification level of the data being transmitted. Where local regulations require

use of foreign personnel for terminal operations and maintenance, then the Contractor shall ensure compliance with applicable security directives/guidelines and document to the U.S. Government's satisfaction that protective measures are in place and such individuals have equivalent clearances granted by the local host nation.

(4) For classified operations security (OPSEC), the Contractor shall ensure that all personnel in direct contact with classified OPSEC indicators (example: the unit, location, and time of operations) have U.S. SECRET or higher personnel security clearances, or, as appropriate, equivalent clearances assigned by the National Security Authority of a NATO Member State or Major Non-NATO Ally, in accordance with applicable security directives and guidelines.

(5) For classified requirements, cleared satellite operator staff must have access to secure voice communications for emergency purposes. Communications security equipment certified by the National Security Agency (NSA) to secure unclassified and up to and including SECRET communication transmissions at all operations centers is preferred. If a Contractor is unable to have access to NSA-approved communications security equipment at its operations centers, then a combination of a "Sensitive but Unclassified" (SBU) cryptographic module approved by the U.S. National Institute for Standards and Technology and pre-arranged access to National Security Agency-approved communications security equipment at an agreed alternate facility is acceptable.

(6) The Contractor shall have the capability to "mask" or "protect" users against unauthorized release of identifying information to any entity that could compromise operations security. Identifying information includes but is not limited to personal user and/or unit information including tail numbers, unit names, unit

numbers, individual names, individual contact numbers, street addresses, etc.
(j) Third party billing for COMSATCOM subscription services. The Contractor shall identify authorized network infrastructure for the ordering activity. In some cases, the user of the terminal may access network infrastructure owned or operated by a third party. In the event a terminal is used on a third party's network infrastructure, the Contractor shall provide to the ordering activity, invoices and documentation reflecting actual usage amount and third party charges incurred. The ordering activity shall be billed the actual third party charges incurred, or the contract third party billing price, whichever is less.
