SUPPLEMENTARY INFORMATION:

I. Background

DoD is proposing to revise DFARS 225.7010 to implement the domestic source restrictions in 10 U.S.C. 2534 on gyrocompasses, electronic navigation chart systems, steering controls, pumps, propulsion and machinery control systems, and totally enclosed lifeboats, to the extent they are unique to marine applications.

These restrictions are currently implemented in the acquisition regulations of the Defense Logistics Agency and the Department of the Navy, the two DoD components that acquire such naval vessel components. The restrictions are now being incorporated into the DFARS because they impact more than one DoD component.

10 U.S.C. 2534 prohibits acquisition of these naval vessel components, unless they are manufactured in the United States or Canada, except for acquisitions that do not exceed the simplified acquisition threshold or acquisitions of spare or repair parts needed to support components for naval vessels manufactured outside the United States.

The waiver criteria at DFARS 225.7008(a) apply to this restriction. The Under Secretary of Defense

(Acquisition, Technology, and Logistics) has waived this restriction for certain defense items manufactured in the United Kingdom, including these naval vessel components (see 79 FR 11770, dated March 3, 2014).

10 U.S.C. 2534(h) prohibits the use of a contract clause or certification to implement this restriction.

II. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

III. Regulatory Flexibility Act

DoD does not expect this rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because this law has been implemented in the Defense Logistics Agency and Department of Navy regulations for many years, and moving the regulations to the DFARS will have no impact on the public. Therefore, an initial regulatory flexibility analysis has not been performed. DoD invites comments from small business concerns and other interested parties on the expected impact of this rule on small entities.

DoD will also consider comments from small entities concerning the existing regulations in subparts affected by this rule in accordance with 5 U.S.C. 610. Interested parties must submit such

comments separately and should cite 5 U.S.C 610 (DFARS Case 2014–D022), in correspondence.

IV. Paperwork Reduction Act

The rule does not contain any information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35).

225.7010–4 Implementation.

(a) 10 U.S.C. 2534(h) prohibits the use of contract clauses or certifications to implement this restriction.

(b) Agencies shall accomplish implementation of this restriction through use of management and oversight techniques that achieve the objectives of this section without imposing a significant management burden on the Government or the contractor involved.
