EPA's current administrative record for the draft and re-proposed Geotechnical General Permit is available for review at the EPA Region 10 Office, Park Place Building, 1200 6th Avenue, Suite 900, Seattle, WA 98101, between 9:00 a.m. and 4:00 p.m., Monday through Friday. Oil Spill Requirements. Section 311 of the Act, 33 U.S.C. 1321, prohibits the discharge of oil and hazardous materials in harmful quantities. Discharges authorized under the Geotechnical General Permit are excluded from the provisions of CWA Section 311, 33 U.S.C. 1321. However, the Geotechnical General Permit will not preclude the institution of legal action, or relieve the permittees from any responsibilities, liabilities, or penalties for other unauthorized discharges of oil and hazardous materials, which are covered by Section 311.

Executive Order 12866. The Office of Management and Budget (OMB) exempts this action from the review requirements of Executive Order 12866 pursuant to Section 6 of that order.

Paperwork Reduction Act. EPA has reviewed the requirements imposed on regulated facilities in the Geotechnical General Permit and finds them consistent with the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 et seq.

Regulatory Flexibility Act. Under the Regulatory Flexibility Act (RFA), 5 U.S.C. 601 et seq., a federal agency must prepare an initial regulatory flexibility analysis "for any proposed rule" for which the agency "is required by section 553 of the Administrative Procedure Act (APA), or any other law, to publish general notice of proposed rulemaking." The RFA exempts from this requirement any rule that the issuing agency certifies "will not, if promulgated, have a significant economic impact on a substantial number of small entities." EPA has

concluded that NPDES general permits are permits, not rulemakings, under the APA and thus not subject to APA rulemaking requirements or the RFA. Notwithstanding that general permits are not subject to the RFA, EPA has determined that the Geotechnical General Permit will not have a significant impact on a substantial number of small entities. This determination is based on the fact that the regulated companies are not classified as small businesses under the Small Business Administration regulations established at 49 FR 5023 et seq. (February 9, 1984). These facilities are classified as Major Group 13—Oil and Gas Extraction SIC 1311 Crude Petroleum and Natural Gas.

Authority: This action is taken under the authority of Section 402 of the Clean Water Act as amended, 42 U.S.C. 1342. I hereby provide notice that the public comment period for the Geotechnical General Permit re-proposal is reopened until September 30, 2014, in accordance with 40 CFR 124.10 and 124.13.

Dated: September 12, 2014.

Associate Director, Office of Water and Watersheds, Region 10.

ACTION: Notice and request for comments.

SUMMARY: The Federal Communications Commission (FCC), as part of its continuing effort to reduce paperwork burden, invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995. Comments are requested concerning: Whether the proposed collection(s) of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection(s) of information on the respondents, including the use of automated collection techniques or

other forms of information technology; and ways to further reduce the information burden for small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) Control Number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid OMB Control Number.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before October 22, 2014. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the FCC contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Leslie F. Smith, Federal Communications Commission (FCC), via email PRA@fcc.gov or to Leslie.Smith@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information on the information collection, contact Leslie F. Smith at (202) 418-0217.

SUPPLEMENTARY INFORMATION: The Commission is requesting that OMB approve this new information collection under the emergency processing provisions of the PRA, 5 CFR 1320.5, 1320.8(d), and 1320.13 by November 3, 2014.

Nature and Extent of Confidentiality: There is no assurance of confidentiality provided to respondents concerning this information collection. However, respondents may request materials or information submitted to the Commission or to the Administrator be withheld from public inspection under 47 CFR 0.459 of the FCC's rules.

Needs and Uses: The Commission seeks to revise OMB 3060-0806 to conform this information collection with changes implemented in the *E-Rate Modernization Order* (WC Docket No. 13-184, FCC 14-99; 79 FR 49160, August 19, 2014) which seeks to promote the Act's universal service goals for schools and libraries. This submission proposes revisions to the FCC Form 470 and instructions and FCC Form 471 and instructions. Collection of the information on FCC Forms 470 and 471 is necessary so that the Commission and USAC have sufficient information to determine if entities are eligible for funding pursuant to the schools and libraries support mechanism, to determine if entities are complying with the Commission's rules, and to prevent waste, fraud, and abuse.

The changes to the collection required by the *E-rate Modernization Order* simplify the application process by moving FCC Forms 470 and 471 to a new electronic filing platform; enabling streamlined review of funding requests that involve multi-year contracts for eligible services; implementing exemptions in the competitive bidding rules for applicants seeking E-rate support to purchase certain commercially available, business-class Internet access services, and/or applicants that take services on a preferred master contract designated by the Bureau; and, implementing a simplified "district-wide" discount calculation mechanism. In addition, the revised collection is necessary in order to allow the Commission to evaluate the extent to which the E-rate program is meeting the statutory objectives specified in section 254(h) of the 1996 Act, and the Commission's own performance goals established in the *E-rate Modernization Order*. The revisions will enable the Commission to collect data to facilitate measurement of progress towards the adopted program goals and to establish budgets for schools and libraries, including more detailed data on the nature of the services requested.

The supporting documents for this submission, including revised forms and instructions, may be accessed via this Web site by searching under "OMB
