

Foundation announces the following meeting:

*Name:* Review of the Partnership for Research and Education in Materials (PREM) at Howard University, Washington, DC (#1203) 1205608—Site Visit.

*Dates & Times:* October 20, 2014; 7:45 a.m.–9:00 p.m. October 21, 2014; 8:00 a.m.–3:30 p.m.

*Place:* Howard University, Washington, DC.

*Type of Meeting:* Part-open.

*Contact Person:* Dr. Charles Bouldin, Program Director, Partnerships for Research and Education in Materials Program, Division of Materials Research, Room 1065, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230, Telephone (703) 292-4914.

*Purpose of Meeting:* NSF site visit to provide advice and recommendations concerning further support of the PREM at Howard University, Washington, DC.

*Agenda:*

#### October 20, 2014

7:45 a.m.–9:00 a.m. Closed—Executive Session  
9:00 a.m.–4:00 p.m. Open—Review of the Howard PREM  
4:00 p.m.–6:00 p.m. Closed—Executive Session  
6:00 p.m.–9:00 p.m. Open—Poster Session and Dinner

#### October 21, 2014

8:00 a.m.–9:00 a.m. Closed—Executive Session  
9:00 a.m.–10:00 a.m. Open—Review of the Howard PREM  
10:00 a.m.–3:30 p.m. Closed—Executive Session, Draft and Review Report

*Reason for Closing:* The work being reviewed during the site visit may include information of a proprietary or confidential nature, including technical information; financial data, such as salaries and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C. 552b(c), (4) and (6) of the Government in the Sunshine Act.

Dated: September 16, 2014.

**Crystal Robinson,**

*Acting, Committee Management Officer.*

[FR Doc. 2014-22471 Filed 9-19-14; 8:45 am]

**BILLING CODE 7555-01-M**

## NEIGHBORHOOD REINVESTMENT CORPORATION

### Sunshine Act Meeting; Regular Board of Directors Meeting

**TIME AND DATE:** 2:00 p.m., Monday, September 29, 2014.

**PLACE:** NeighborWorks America—Gramlich Boardroom, 999 North Capitol Street NE., Washington, DC 20002.

**STATUS:** Open (with the exception of Executive Session).

**CONTACT PERSON:** Jeffrey Bryson, General Counsel/Secretary (202) 760-4101; [jbryson@nw.org](mailto:jbryson@nw.org).

#### AGENDA:

- I. CALL TO ORDER
- II. Executive Session: CEO Search Committee Update
- III. Executive Session: Executive Compensation Study
- IV. Executive Session: Transition Update
- V. Approval of Minutes
- VI. Corporate Administration Committee—Board Assessment Update
- VII. FY15 Preliminary Corporate & Capital Budget Approval
- VIII. Board Policy on Settlements Amendment
- IX. FY15 LIFT Continuation
- X. Committee Assignments
- XI. Board Update—Network Board Governance
- XII. Settlements
- XIII. MHA Wind Down
- XIV. Management Updates
- XV. Adjournment

**Jeffrey T. Bryson,**

*EVP & General Counsel/Corporate Secretary.*

**BILLING CODE 7570-02-P**

## NUCLEAR REGULATORY COMMISSION

**[Docket No. 50-293; NRC-2014-0202]**

### Entergy Nuclear Operations, Inc.; Pilgrim Nuclear Power Station

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** License amendment application; opportunity to comment, request a hearing, and petition for leave to intervene.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of an amendment to Facility Operating License No. DPR-35, issued to Entergy Nuclear Operations, Inc., for operation of the Pilgrim Nuclear Power Station. The proposed amendment

would revise Technical Specification (TS) 4.3.4.b to reflect the removal of the energy absorbing pad from the spent fuel pool and the installation of a leveling platform.

**DATES:** Submit comments by October 22, 2014. Requests for a hearing or petition for leave to intervene must be filed by November 21, 2014.

**ADDRESSES:** You may submit comments by any of the following methods (unless this document describes a different method for submitting comments on a specific subject):

- *Federal Rulemaking Web site:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2014-0202. Address questions about NRC dockets to Carol Gallagher; telephone: 301-287-3422; email: [Carol.Gallagher@nrc.gov](mailto:Carol.Gallagher@nrc.gov).

- *Mail comments to:* Cindy Bladley, Office of Administration, Mail Stop: 3WFN-06-A44M, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

For additional direction on obtaining information and submitting comments, see “Obtaining Information and Submitting Comments” in the **SUPPLEMENTARY INFORMATION** section of this document.

#### FOR FURTHER INFORMATION CONTACT:

Nadiyah S. Morgan, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington DC 20555-0001; telephone: 301-415-1016, email: [Nadiyah.Morgan@nrc.gov](mailto:Nadiyah.Morgan@nrc.gov).

#### SUPPLEMENTARY INFORMATION:

##### I. Obtaining Information and Submitting Comments

###### A. Obtaining Information.

Please refer to Docket ID NRC-2014-0202 when contacting the NRC about the availability of information for this action. You may obtain publicly available information related to this action by any of the following methods:

- *Federal rulemaking Web site:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2014-0202.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select “ADAMS Public Documents” and then select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to [pdr.resource@nrc.gov](mailto:pdr.resource@nrc.gov). The Proposed License Amendment Request to Modify Technical Specification 4.3.4,

“Heavy Loads” to Facilitate Dry Storage Handling Operations dated November 26, 2013, and supplements dated July 11, 2014, and September 11, 2014, are available in ADAMS under Accession Nos. ML13346A026, ML14237A328, and ML14258A179, respectively.

- *NRC’s PDR*: You may examine and purchase copies of public documents at the NRC’s PDR, Room O1–F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

### B. Submitting Comments.

Please include Docket ID NRC–2014–0202 in the subject line of your comment submission, in order to ensure that the NRC is able to make your comment submission available to the public in this docket.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <http://www.regulations.gov> as well as enter the comment submissions into ADAMS, and the NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

## II. Introduction

The NRC is considering issuance of an amendment to Facility Operating License No. DPR–35, issued to Entergy Nuclear Operations, Inc., for operation of the Pilgrim Nuclear Power Station, located in Plymouth County, Massachusetts.

The proposed amendment would revise TS 4.3.4.b to reflect the removal of the energy absorbing pad and installation of a leveling platform.

Before any issuance of the proposed license amendment, the NRC will need to make the findings required by the Atomic Energy Act of 1954, as amended (the Act), and NRC’s regulations.

The NRC has made a proposed determination that the license amendment request involves no significant hazards consideration. Under the NRC’s regulations in § 50.92 of Title 10 of the *Code of Federal Regulations*

(10 CFR), this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

1. Does the proposed change involve a significant increase in the probability or consequences of an accident previously evaluated?

Response: No.

The Reactor Building crane is being upgraded to meet the applicable single-failure-proof criteria of NUREG–0554 and NUREG–0612 for the modification of the existing non single-failure-proof crane.

The proposed change does not affect the consequences of any accidents previously evaluated in the PNPS [Pilgrim Nuclear Power Station] UFSAR [Updated Final Safety Analysis Report]. The proposed change replaces the energy absorbing pad point of reference with a leveling platform point of reference. In addition, the requirement is being clarified to apply only when cask handling operations are in progress in the spent fuel pool or a cask is in the spent fuel pool. The requirement to limit placement of spent fuel that has decayed for less than 200 days in racks within an arc described by the height of the cask around the periphery of the point of reference is being maintained. Under these circumstances, no new load drop accidents are postulated and no changes to the probabilities or consequences of accidents previously evaluated are involved.

The single-failure proof handling system used for handling operations precludes the need to postulate a transfer cask load drop.

2. Does the proposed change create the possibility of a new or different kind of accident from any accident previously evaluated?

Response: No.

Section 10.3 of the PNPS UFSAR evaluates fuel storage and cask handling operations. Consequences of a dropped fuel cask are described in Section 10.3.6. The proposed change replaces the energy absorbing pad point of reference with a leveling platform point of reference. Under these circumstances, no new or different load drop accidents are postulated to occur and there are no changes in any of the load drop accidents previously evaluated.

3. Does the proposed change involve a significant reduction in a margin of safety?

Response: No.

The revised Technical Specification change does not involve a reduction in any margin of safety. The proposed change replaces the energy absorbing pad point of reference with a leveling platform point of reference. In addition, the requirement is being clarified to apply only when cask

handling operations are in progress in the spent fuel pool. The requirement to limit placement of spent fuel that has decayed for less than 200 days in racks within an arc described by the height of the cask around the periphery of the point of reference is being maintained. Due to the reliability of the upgraded handling system that complies with the guidance of NUREG–0800 Section 9.1.5 for a single-failure-proof handling system, a load drop accident with a transfer cask is not considered a credible event. Under these circumstances, no new load drop accidents are postulated and no reductions in margins of safety are involved.

Therefore, the proposed changes do not involve a significant reduction in a margin of safety.

The NRC staff has reviewed the licensee’s analysis and, based on this review, it appears that the three standards of 10 CFR 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the license amendment request involves a No Significant Hazards Consideration.

The NRC is seeking public comments on this proposed determination that the license amendment request involves no significant hazards consideration. Any comments received within 30 days after the date of publication of this notice will be considered in making any final determination.

Normally, the Commission will not issue the amendment until the expiration of 60 days after the date of publication of this notice. The Commission may issue the license amendment before expiration of the 60-day notice period if the Commission concludes the amendment involves no significant hazards consideration. In addition, the Commission may issue the amendment prior to the expiration of the 30-day comment period should circumstances change during the 30-day comment period such that failure to act in a timely way would result, for example, in derating or shutdown of the facility. Should the Commission take action prior to the expiration of either the comment period or the notice period, it will publish in the **Federal Register** a notice of issuance. Should the Commission make a final No Significant Hazards Consideration Determination, any hearing will take place after issuance. The Commission expects that the need to take this action will occur very infrequently.

## III. Opportunity To Request a Hearing and Petition for Leave To Intervene

Within 60 days after the date of publication of this **Federal Register** notice, any person whose interest may be affected by this proceeding and who desires to participate as a party in the proceeding must file a written request

for hearing or a petition for leave to intervene specifying the contentions which the person seeks to have litigated in the hearing with respect to the license amendment request. Requests for hearing and petitions for leave to intervene shall be filed in accordance with the NRC's "Agency Rules of Practice and Procedure" in 10 CFR Part 2. Interested person(s) should consult a current copy of 10 CFR 2.309, which is available at the NRC's PDR. The NRC's regulations are accessible electronically from the NRC Library on the NRC's Web site at <http://www.nrc.gov/reading-rm/doc-collections/cfr/>.

As required by 10 CFR 2.309, a request for hearing or petition for leave to intervene must set forth with particularity the interest of the petitioner in the proceeding and how that interest may be affected by the results of the proceeding. The hearing request or petition must specifically explain the reasons why intervention should be permitted, with particular reference to the following general requirements: (1) The name, address, and telephone number of the requestor or petitioner; (2) the nature of the requestor's/petitioner's right under the Act to be made a party to the proceeding; (3) the nature and extent of the requestor's/petitioner's property, financial, or other interest in the proceeding; and (4) the possible effect of any decision or order which may be entered in the proceeding on the requestor's/petitioner's interest. The hearing request or petition must also include the specific contentions that the requestor/petitioner seeks to have litigated at the proceeding.

For each contention, the requestor/petitioner must provide a specific statement of the issue of law or fact to be raised or controverted, as well as a brief explanation of the basis for the contention. Additionally, the requestor/petitioner must demonstrate that the issue raised by each contention is within the scope of the proceeding and is material to the findings that the NRC must make to support the granting of a license amendment in response to the application. The hearing request or petition must also include a concise statement of the alleged facts or expert opinion that support the contention and on which the requestor/petitioner intends to rely at the hearing, together with references to those specific sources and documents. The hearing request or petition must provide sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact, including references to specific portions of the application for amendment that the

petitioner disputes and the supporting reasons for each dispute. If the requestor/petitioner believes that the application for amendment fails to contain information on a relevant matter as required by law, the requestor/petitioner must identify each failure and the supporting reasons for the requestor's/petitioner's belief. Each contention must be one which, if proven, would entitle the requestor/petitioner to relief. A requestor/petitioner who does not satisfy these requirements for at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing with respect to resolution of that person's admitted contentions, including the opportunity to present evidence and to submit a cross-examination plan for cross-examination of witnesses, consistent with NRC regulations, policies, and procedures. The Atomic Safety and Licensing Board will set the time and place for any prehearing conferences and evidentiary hearings, and the appropriate notices will be provided.

Hearing requests or petitions for leave to intervene must be filed no later than 60 days from the date of publication of this notice. Requests for hearing, petitions for leave to intervene, and motions for leave to file new or amended contentions that are filed after the 60-day deadline will not be entertained absent a determination by the presiding officer that the filing demonstrates good cause by satisfying the three factors in 10 CFR 2.309(c)(1)(i)-(iii).

If a hearing is requested, the Commission will make a final determination on the issue of no significant hazards consideration. The final determination will serve to decide when the hearing is held. If the final determination is that the amendment request involves no significant hazards consideration, the Commission may issue the amendment and make it immediately effective, notwithstanding the request for a hearing. Any hearing held would take place after issuance of the amendment. If the final determination is that the amendment request involves a significant hazards consideration, then any hearing held would take place before the issuance of any amendment.

#### IV. Electronic Submissions (E-Filing)

All documents filed in NRC adjudicatory proceedings, including a

request for hearing, a petition for leave to intervene, any motion or other document filed in the proceeding prior to the submission of a request for hearing or petition to intervene, and documents filed by interested governmental entities participating under 10 CFR 2.315(c), must be filed in accordance with the NRC's E-Filing rule (72 FR 49139; August 28, 2007). The E-Filing process requires participants to submit and serve all adjudicatory documents over the internet, or in some cases to mail copies on electronic storage media. Participants may not submit paper copies of their filings unless they seek an exemption in accordance with the procedures described below.

To comply with the procedural requirements of E-Filing, at least ten 10 days prior to the filing deadline, the participant should contact the Office of the Secretary by email at [hearing.docket@nrc.gov](mailto:hearing.docket@nrc.gov), or by telephone at 301-415-1677, to request (1) a digital identification (ID) certificate, which allows the participant (or its counsel or representative) to digitally sign documents and access the E-Submittal server for any proceeding in which it is participating; and (2) advise the Secretary that the participant will be submitting a request or petition for hearing (even in instances in which the participant, or its counsel or representative, already holds an NRC-issued digital ID certificate). Based upon this information, the Secretary will establish an electronic docket for the hearing in this proceeding if the Secretary has not already established an electronic docket.

Information about applying for a digital ID certificate is available on the NRC's public Web site at <http://www.nrc.gov/site-help/e-submittals/getting-started.html>. System requirements for accessing the E-Submittal server are detailed in the NRC's "Guidance for Electronic Submission," which is available on the agency's public Web site at <http://www.nrc.gov/site-help/e-submittals.html>. Participants may attempt to use other software not listed on the Web site, but should note that the NRC's E-Filing system does not support unlisted software, and the NRC Meta System Help Desk will not be able to offer assistance in using unlisted software.

If a participant is electronically submitting a document to the NRC in accordance with the E-Filing rule, the participant must file the document using the NRC's online, Web-based submission form. In order to serve documents through the Electronic

Information Exchange System, users will be required to install a Web browser plug-in from the NRC's Web site. Further information on the Web-based submission form, including the installation of the Web browser plug-in, is available on the NRC's public Web site at <http://www.nrc.gov/site-help/e-submittals.html>.

Once a participant has obtained a digital ID certificate and a docket has been created, the participant can then submit a request for hearing or petition for leave to intervene. Submissions should be in Portable Document Format (PDF) in accordance with NRC guidance available on the NRC's public Web site at <http://www.nrc.gov/site-help/e-submittals.html>. A filing is considered complete at the time the documents are submitted through the NRC's E-Filing system. To be timely, an electronic filing must be submitted to the E-Filing system no later than 11:59 p.m. Eastern Time on the due date. Upon receipt of a transmission, the E-Filing system time-stamps the document and sends the submitter an email notice confirming receipt of the document. The E-Filing system also distributes an email notice that provides access to the document to the NRC's Office of the General Counsel and any others who have advised the Office of the Secretary that they wish to participate in the proceeding, so that the filer need not serve the documents on those participants separately. Therefore, applicants and other participants (or their counsel or representative) must apply for and receive a digital ID certificate before a hearing request/petition to intervene is filed so that they can obtain access to the document via the E-Filing system.

A person filing electronically using the NRC's adjudicatory E-Filing system may seek assistance by contacting the NRC Meta System Help Desk through the "Contact Us" link located on the NRC's public Web site at <http://www.nrc.gov/site-help/e-submittals.html>, by email to [MSHD.Resource@nrc.gov](mailto:MSHD.Resource@nrc.gov), or by a toll-free call at 1-866-672-7640. The NRC Meta System Help Desk is available between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday, excluding government holidays.

Participants who believe that they have a good cause for not submitting documents electronically must file an exemption request, in accordance with 10 CFR 2.302(g), with their initial paper filing requesting authorization to continue to submit documents in paper format. Such filings must be submitted by: (1) First class mail addressed to the Office of the Secretary of the

Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemaking and Adjudications Staff; or (2) courier, express mail, or expedited delivery service to the Office of the Secretary, Sixteenth Floor, One White Flint North, 11555 Rockville Pike, Rockville, Maryland, 20852, Attention: Rulemaking and Adjudications Staff. Participants filing a document in this manner are responsible for serving the document on all other participants. Filing is considered complete by first-class mail as of the time of deposit in the mail, or by courier, express mail, or expedited delivery service upon depositing the document with the provider of the service. A presiding officer, having granted an exemption request from using E-Filing, may require a participant or party to use E-Filing if the presiding officer subsequently determines that the reason for granting the exemption from use of E-Filing no longer exists.

Documents submitted in adjudicatory proceedings will appear in the NRC's electronic hearing docket which is available to the public at <http://ehd1.nrc.gov/ehd/>, unless excluded pursuant to an order of the Commission, or the presiding officer. Participants are requested not to include personal privacy information, such as social security numbers, home addresses, or home phone numbers in their filings, unless an NRC regulation or other law requires submission of such information. However, a request to intervene will require including information on local residence in order to demonstrate a proximity assertion of interest in the proceeding. With respect to copyrighted works, except for limited excerpts that serve the purpose of the adjudicatory filings and would constitute a Fair Use application, participants are requested not to include copyrighted materials in their submission.

For further details with respect to this action, see the application for license amendment dated November 26, 2013 (ADAMS Accession No. ML13346A026), as supplemented on July 11, 2014 (ADAMS Accession No. ML14237A328) and September 11, 2014 (ADAMS Accession No. ML14258A179).

*Attorney for licensee:* Ms. Jeanne Cho, Assistant General Counsel, Entergy Nuclear Operations, Inc., 440 Hamilton Avenue, White Plains, NY 10601.

*NRC Branch Chief:* Benjamin G. Beasley.

Dated at Rockville, Maryland, this 15th day of September 2014.

For the Nuclear Regulatory Commission.

**Douglas V. Pickett,**

*Senior Project Manager, Plant Licensing Branch I-1, Division of Operating Reactor Licensing, Office of Nuclear Reactor Regulation.*

BILLING CODE 7590-01-P

## NUCLEAR REGULATORY COMMISSION

[Docket No. 40-9091-MLA; ASLBP No. 12-915-01-MLA-BD01]

### Atomic Safety and Licensing Board Panel: Weapons at Atomic Safety and Licensing Board Proceeding; Strata Energy, Inc.

#### Atomic Safety and Licensing Board Panel

Before the Licensing Board: G. Paul Bollwerk, III, Chairman, Dr. Richard F. Cole, Dr. Craig M. White.

In the Matter of Strata Energy, Inc. (Ross In Situ Recovery Uranium Project).

*Notice* (Regarding Weapons at Atomic Safety and Licensing Board Proceeding September 16, 2014).

Notice is hereby given that the rules and policies regarding the possession of weapons in United States Courthouses and United States Federal Buildings in the State of Wyoming shall apply to all proceedings conducted in governmental or private facilities in Wyoming by the Atomic Safety and Licensing Board of the U.S. Nuclear Regulatory Commission.

Accordingly, no person other than federal law enforcement personnel or law enforcement personnel from the Campbell or Crook County Sheriff's Departments, the Gillette or Sundance Police Departments, or any other authorized Wyoming state or local law enforcement organization, while performing official duties, shall wear or otherwise carry a firearm, edged weapon, impact weapon, electronic control device, chemical weapon, ammunition, or other dangerous weapon into the limited appearance session scheduled at the Crook County Courthouse in Sundance, Wyoming, on Sunday, September 28, 2014, or the evidentiary hearing scheduled to begin on Tuesday, September 30, 2014, at the CAM-PLEX Multi-Event Facilities in Gillette, Wyoming.

This notice does not apply to state or local law enforcement officers responding to a call for assistance from within the Crook County Courthouse or the CAM-PLEX Multi-Event Facilities.

For The Atomic Safety and Licensing Board.
