

safely in interstate commerce. Therefore, FMCSA concludes that extending the exemption for each renewal applicant for a period of two years is likely to achieve a level of safety equal to that existing without the exemption.

IV. Public Participation and Request for Comments

FMCSA encourages you to participate by submitting comments and related materials.

Submitting Comments

If you submit a comment, please include the docket number for this notice (FMCSA–2010–0201), indicate the specific section of this document to which each comment applies, and provide a reason for each suggestion or recommendation. You may submit your comments and material online or by fax, mail, or hand delivery, but please use only one of these means. FMCSA recommends that you include your name and a mailing address, an email address, or a phone number in the body of your document so the Agency can contact you if it has questions regarding your submission.

To submit your comment online, go to <http://www.regulations.gov> and put the docket number, “FMCSA–2010–0201” in the “Keyword” box, and click “Search.” When the new screen appears, click on “Comment Now!” button and type your comment into the text box in the following screen. Choose whether you are submitting your comment as an individual or on behalf of a third party and then submit. If you submit your comments by mail or hand delivery, submit them in an unbound format, no larger than 8½ by 11 inches, suitable for copying and electronic filing. If you submit comments by mail and would like to know that they reached the facility, please enclose a stamped, self-addressed postcard or envelope. FMCSA will consider all comments and material received during the comment period and may change this notice based on your comments.

Viewing Comments and Documents

To view comments, as well as any documents mentioned in this preamble as being available in the docket, go to <http://www.regulations.gov> and in the search box insert the docket number, “FMCSA–2010–0201” in the “Keyword” box and click “Search.” Next, click “Open Docket Folder” button choose the document listed to review. If you do not have access to the Internet, you may view the docket online by visiting the Docket Management Facility in Room W12–140

on the ground floor of the DOT West Building, 1200 New Jersey Avenue SE, Washington, DC 20590, between 9 a.m. and 5 p.m., e.t., Monday through Friday, except Federal holidays.

Issued on: September 25, 2014.

Federal Motor Carrier Safety Administration

[Docket No. FMCSA–2013–0442; FMCSA–2013–0443; FMCSA–2013–0444; FMCSA–2013–0445; FMCSA–2014–0212]

Denial of Exemption Applications; Epilepsy and Seizure Disorders

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of denial of applications for seizure exemptions.

SUMMARY: FMCSA announces the denial of 19 individuals’ applications for exemptions from the rule prohibiting persons with a clinical diagnosis of epilepsy or any other condition that is likely to cause a loss of consciousness or any loss of ability to operate a commercial motor vehicle (CMV) from operating CMVs in interstate commerce. The reason for each of the denials is listed after the individual’s name.

FOR FURTHER INFORMATION CONTACT: Elaine M. Papp, R.N., Chief of the Medical Programs Division, (202) 366–4001, fmcsamedical@dot.gov, FMCSA, Room W64–224, Department of Transportation, 1200 New Jersey Avenue SE., Washington, DC 20590–0001. Office hours are from 8:30 a.m. to 5 p.m., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 31315 and 31136(e), FMCSA may grant an exemption for a 2-year period if it finds “such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption.” The statutes allow the Agency to renew exemptions at the end of the 2-year period. The 19 individuals listed in this notice have requested an exemption from the epilepsy and seizure disorder standard in 49 CFR 391.41(b)(8), which applies to drivers who operate CMVs as defined in 49 CFR 390.5, in interstate commerce. Section 391.41(b)(8) states that a person is

qualified physically to drive a CMV if that person has no established medical history or clinical diagnosis of epilepsy or any other condition which is likely to cause the loss of consciousness or any loss of ability to control a CMV.

In order to make an evidence-based decision, FMCSA conducted a comprehensive review of scientific literature and convened a panel of medical experts in the field of neurology to evaluate key questions regarding seizure and anti-seizure medication related to the safe operation of a CMV. Previously, the Agency gathered evidence for decision making concerning potential changes to the regulation by conducting a comprehensive review of scientific literature that was compiled into a report entitled, “*Evidence Report on Seizure Disorders and Commercial Vehicle Driving*” (Evidence Report) [CD-ROM HD TL230.3 .E95 2007]. The Agency then convened a MEP in the field of neurology on May 14–15, 2007, to review 49 CFR 391.41(b)(8) and the advisory criteria regarding individuals who have experienced a seizure and the 2007 Evidence Report. The Evidence Report and the MEP recommendations are published on-line at <http://www.fmcsa.dot.gov/rules-regulations/topics/mep/mep-reports.htm> under Seizure Disorders and are in the docket for this notice. In reaching the determination to grant or deny exemption requests for individuals who have experienced a seizure, the Agency considered both current medical literature and information and the 2007 recommendations of the Agency’s Medical Expert Panel (MEP).

MEP Criteria for Evaluation

On October 15, 2007, the MEP issued the following recommended criteria for evaluating whether an individual with epilepsy or a seizure disorder should be allowed to operate a CMV.¹ The MEP recommendations are included in an appendix at the end of this notice and in each of the previously published dockets.

Epilepsy diagnosis. If there is an epilepsy diagnosis, the applicant should be seizure-free for 8 years, on or off medication. If the individual is taking anti-seizure medication(s), the plan for medication should be stable for 2 years. Stable means no changes in medication, dosage, or frequency of medication administration. Recertification for

¹ Engel, J., Fisher, R.S., Krauss, G.L., Krumholz, A., and Quigg, M.S., “Expert Panel Recommendations: Seizure Disorders and Commercial Motor Vehicle Driver Safety,” FMCSA, October 15, 2007.

drivers with an epilepsy diagnosis should be performed every year.

Single unprovoked seizure. If there is a single unprovoked seizure (i.e., there is no known trigger for the seizure), the individual should be seizure-free for 4 years, on or off medication. If the individual is taking anti-seizure medication(s), the plan for medication should be stable for 2 years. Stable means no changes in medication, dosage, or frequency of medication administration. Recertification for drivers with a single unprovoked seizure should be performed every 2 years.

Single provoked seizure. If there is a single provoked seizure (i.e., there is a known reason for the seizure), the Agency should consider specific criteria that fall into the following two categories: low-risk factors for recurrence and moderate-to-high risk factors for recurrence.

- *Examples of low-risk factors for recurrence* include seizures that were caused by a medication; by non-penetrating head injury with loss of consciousness less than or equal to 30 minutes; by a brief loss of consciousness not likely to recur while driving; by metabolic derangement not likely to recur; or by alcohol or illicit drug withdrawal.

- *Examples of moderate-to-high-risk factors for recurrence* include seizures caused by non-penetrating head injury with loss of consciousness or amnesia greater than 30 minutes or penetrating head injury; intracerebral hemorrhage associated with a stroke or trauma; infections; intracranial hemorrhage; post-operative complications from brain surgery with significant brain hemorrhage; brain tumor; or stroke. The MEP report indicates that individuals with moderate to high-risk conditions should not be certified. Drivers with a history of a single provoked seizure with low risk factors for recurrence should be recertified every year.

Medical Review Board Recommendations and Agency Decision

FMCSA presented the MEP's findings and the Evidence Report to the Medical Review Board (MRB) for consideration. The MRB reviewed and considered the 2007 "Seizure Disorders and Commercial Driver Safety" evidence report and the 2007 MEP recommendations. The MRB recommended maintaining the current advisory criteria, which provide that "drivers with a history of epilepsy/seizures off anti-seizure medication and seizure-free for 10 years may be qualified to drive a CMV in interstate

commerce. Interstate drivers with a history of a single unprovoked seizure may be qualified to drive a CMV in interstate commerce if seizure-free and off anti-seizure medication for a 5 year period or more" [Advisory criteria to 49 CFR 391.43(f)].

The Agency acknowledges the MRB's position on the issue but believes current relevant medical evidence supports a less conservative approach. The medical advisory criteria for epilepsy and other seizure or loss of consciousness episodes was based on the 1988 "Conference of Neurological Disorders and Commercial Driving" (NITS Accession No. PB89-158950/AS). A copy of the report can be found in the docket referenced in this notice.

The MRB's recommendation treats all drivers who have experienced a seizure the same, regardless of individual medical conditions and circumstances. In addition, the recommendation to continue prohibiting drivers who are taking anti-seizure medication from operating a CMV in interstate commerce does not consider a driver's actual seizure history and time since the last seizure. The Agency has decided to use the 2007 MEP recommendations as the basis for evaluating applications for an exemption from the seizure regulation on an individual, case-by-case basis. The disposition of applications announced in this notice applies the 2007 MEP recommendations.

Denials and Reasons

- The following drivers were listed previously in **Federal Register** Notice FMCSA-2013-0442 published February 25, 2014:

Barry Cultice—Mr. Cultice has a history of a seizure disorder. His last seizure was in 2006. He did not provide sufficient information to make a determination.

Arnold Gatison—Mr. Gatison has a history of seizure disorder. His last seizure was in 2009. He does not meet the MEP guidelines at this time.

Michael Hines—Mr. Hines has a history of epilepsy. His last seizure was in 2008, however, his physician states that he fell asleep while driving in 2013, and the cause is indeterminate. He does not meet the MEP guidelines at this time.

Shawn Mion—Mr. Mion has no history of seizure. He was taking an anti-seizure medication for a medical condition other than seizures. Mr. Mion withdrew his request for a seizure exemption because he was placed on a new medication.

Douglas Norland—Mr. Norland has a history of seizure disorder. His last seizure was in 1989. His last change in

anti-seizure medication was in January 2013. He does not meet the MEP guidelines at this time.

- The following drivers were listed previously in **Federal Register** Notice FMCSA-2013-0443 published March 21, 2014:

Christopher Fitch—Mr. Fitch has a history of a single seizure in 2013. He takes anti-seizure medication. He does not meet the exemption criteria at this time.

Earnest Lansberry—Mr. Lansberry has a history of epilepsy. His last seizure was in 2007. He does not meet the MEP guidelines at this time.

Jason Yowell—Mr. Yowell has a history of a single seizure. His seizure was in 2011. He takes anti-seizure medication. He does not meet the MEP guidelines at this time.

- The following drivers were listed previously in **Federal Register** Notice FMCSA-2013-0444 published on May 13, 2014:

Mark Dodson—Mr. Dodson has a history of a single seizure. His seizure was in 2011. He takes anti-seizure medication. He does not meet the MEP guidelines at this time.

Paul Seekins—Mr. Seekins has a history of seizure disorder. This last seizure was in 2013. He takes anti-seizure medication. He does not meet the MEP guidelines at this time.

- The following drivers were listed previously in **Federal Register** Notice FMCSA-2013-0445 published on June 3, 2014:

Raymond Berns—Mr. Berns has a history of epilepsy. His last seizure was July 2007. He takes anti-seizure medication. He does not meet the MEP guidelines at this time.

Christopher Dodson—Mr. Dodson has a history of seizure disorder. His last seizure was in 2010. He takes anti-seizure medication. He does not meet the MEP guidelines at this time.

Wayne Guthrie—Mr. Guthrie has a history of epilepsy. His last seizure was in 2011. He takes anti-seizure medication. He does not meet the MEP guidelines at this time.

Patricia Morgan—Mr. Morgan does not intend to operate in interstate commerce.

Jerrod Rust—Mr. Rust has a history of epilepsy. His last seizure was in 2012. He takes anti-seizure medication. He does not meet the MEP guidelines at this time.

Walter Siwula—Mr. Siwula has a history of seizure disorder. His last seizure was in 2009. He takes anti-seizure medication. He does not meet the MEP guidelines at this time.

- The following drivers were listed previously in **Federal Register** Notice

FMCSA–2014–0212 published on July 8, 2014:

Charles Barnett—Mr. Barnett has a history of seizures. His last seizure was in 2011. He takes anti-seizure medication. He does not meet the MEP guidelines at this time.

James Boyd—Mr. Boyd has a history of a single seizure. His seizure was in 2011. He takes anti-seizure medication. He does not meet the MEP guidelines at this time.

Joaquin Polin—Mr. Polin has a history of epilepsy. His last seizure was in 2010. He takes anti-seizure medication. He does not meet the MEP guidelines at this time.

Issued on: September 26, 2014.

BILLING CODE 4910–EX–P

DEPARTMENT OF TRANSPORTATION

Federal Transit Administration

Limitation on Claims Against Proposed Public Transportation Projects; Correction

AGENCY: Federal Transit Administration (FTA), DOT.

ACTION: Notice; correction.

SUMMARY: The Federal Transit Administration (FTA) published a notice in the **Federal Register** on September 16, 2014, concerning a limitation on claims for certain specified public transportation projects. The prior notice contained an error regarding one of the project descriptions. This notice serves to correct the error.

FOR FURTHER INFORMATION CONTACT: Nancy-Ellen Zusman, Assistant Chief Counsel, Office of Chief Counsel, (312) 353–2577 or Terence Plaskon, Environmental Protection Specialist, Office of Planning and Environment, (202) 366–0442. FTA is located at 1200 New Jersey Avenue SE., Washington, DC 20590. Office hours are from 9:00 a.m. to 5:30 p.m., Monday through Friday, except Federal holidays.

Correction: In the **Federal Register** notice dated September 16, 2014, FR Doc. 2014–22065, on page 55528, in the third column, the Vasona Corridor Light Rail Transit Extension Project was incorrectly described as extending the existing line 11.6 miles from the existing Winchester Station to a new Vasona Junction Station. A corrected description should read:

Project description: The FTA issued a Record of Decision (ROD) for the Vasona Corridor Light Rail Transit (LRT) project in June 2000. Construction between downtown San Jose and Winchester Station in Campbell began in 2001. Passenger service started in 2005. The southernmost portion of the project between the Winchester Station and the Vasona Junction Station in Los Gatos was not constructed due to insufficient funding. The Vasona Corridor LRT Extension Project would complete the line as originally planned by extending the existing line 1.6 miles from the existing Winchester Station to a new Vasona Junction Station. The extension includes constructing a double set of LRT tracks; lengthening the six existing station platforms along the Vasona Corridor to accommodate longer train sets; increasing parking capacity and improving pedestrian access at Winchester Station; constructing a new Hacienda Station with an optional park-and-ride lot; a new Vasona Junction Station with a park-and-ride lot, as well as end-of-the-line facilities.

This notice serves to revise the prior project description. This notice does not affect the FTA's previous decisions for this project. The correction does not alter the statute of limitations (SOL) for modifications to the Vasona Corridor Light Rail Transit Extension Project previously noticed on September 16, 2014, and described above. The SOL on claims will still expire on February 13, 2015.

Issued on: September 24, 2014.

Lucy Garliauskas,

Associate Administrator for Planning and Environment.

DEPARTMENT OF TRANSPORTATION

Pipeline and Hazardous Materials Safety Administration

List of Delayed Special Permit Applications

AGENCY: Office of Hazardous Materials Safety, Pipeline and Hazardous Materials Safety Administration (PHMSA), DOT.

ACTION: List of applications delayed more than 180 days.

SUMMARY: In accordance with the requirements of 49 U.S.C. 5117(c), PHMSA is publishing the following list of special permit applications that have been in process for 180 days or more. The reason(s) for delay and the expected completion date for action on each application is provided in association with each identified application.

FOR FURTHER INFORMATION CONTACT: Ryan Paquet, Director, Office of Hazardous Materials Special Permits and Approvals, Pipeline and Hazardous Materials Safety Administration, U.S. Department of Transportation, East Building, PHH–30, 1200 New Jersey Avenue Southeast, Washington, DC 20590–0001, (202) 366–4535.

Key to “Reason for Delay”

1. Awaiting additional information from applicant
2. Extensive public comment under review
3. Application is technically complex and is of significant impact or precedent-setting and requires extensive analysis
4. Staff review delayed by other priority issues or volume of special permit applications

Meaning of Application Number Suffixes

N—New application
M—Modification request
R—Renewal Request
P—Party To Exemption Request

Issued in Washington, DC, on September 5, 2014.

Donald Burger,

Chief, General Approvals and Permits.
