### Federal Railroad Administration

[Docket No. FRA–2014–0011–N–19]

#### Proposed Agency Information Collection Activities; Comment Request

**AGENCY:** Federal Railroad Administration (FRA), DOT.

**ACTION:** Notice.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995 and its implementing regulations, the Federal Railroad Administration (FRA) hereby announces that it is seeking renewal of the following currently approved information collection activities. Before submitting the information collection requests (ICRs) below for clearance by the Office of Management and Budget (OMB), FRA is soliciting public comment on specific aspects of the activities identified below.

**DATES:** Comments must be received no later than December 16, 2014.

**ADDRESSES:** Submit written comments on any or all of the following proposed activities by mail to either: Mr. Robert Brogan, Office of Safety, Planning and Evaluation Division, RRS–21, Federal Railroad Administration, 1200 New Jersey Ave. SE., Mail Stop 25, Washington, DC 20590, or Ms. Kimberly Toone, Office of Information Technology, RAD–20, Federal Railroad Administration, 1200 New Jersey Ave. SE., Mail Stop 35, Washington, DC 20590. Commenters requesting FRA to acknowledge receipt of their respective comments must include a self-addressed stamped postcard stating, “Comments on OMB control number 2130–\_\_.” Alternatively, comments may be transmitted via facsimile to (202) 493–6216 or (202) 493–6479, or via email to Mr. Brogan at [Robert.Brogan@dot.gov](mailto:Robert.Brogan@dot.gov), or to Ms. Toone at [Kimberly.Toone@dot.gov](mailto:Kimberly.Toone@dot.gov). Please refer to the assigned OMB control number in any

correspondence submitted. FRA will summarize comments received in response to this notice in a subsequent notice and include them in its information collection submission to OMB for approval.

**FOR FURTHER INFORMATION CONTACT:** Mr. Robert Brogan, Office of Planning and Evaluation Division, RRS-21, Federal Railroad Administration, 1200 New Jersey Ave. SE., Mail Stop 17, Washington, DC 20590 (telephone: (202) 493-6292) or Ms. Kimberly Toone, Office of Information Technology, RAD-20, Federal Railroad Administration, 1200 New Jersey Ave. SE., Mail Stop 35, Washington, DC 20590 (telephone: (202) 493-6132). (These telephone numbers are not toll-free.)

**SUPPLEMENTARY INFORMATION:** The Paperwork Reduction Act of 1995 (PRA), Public Law 104-13, sec. 2, 109 Stat. 163 (1995) (codified as revised at 44 U.S.C. 3501-3520), and its implementing regulations, 5 CFR part 1320, require Federal agencies to provide 60-days notice to the public for comment on information collection activities before seeking approval for reinstatement or renewal by OMB. 44 U.S.C. 3506(c)(2)(A); 5 CFR 1320.8(d)(1), 1320.10(e)(1), 1320.12(a). Specifically, FRA invites interested respondents to comment on the following summary of proposed information collection activities regarding (i) whether the information collection activities are necessary for FRA to properly execute its functions, including whether the activities will have practical utility; (ii) the accuracy of FRA's estimates of the burden of the information collection activities, including the validity of the methodology and assumptions used to

determine the estimates; (iii) ways for FRA to enhance the quality, utility, and clarity of the information being collected; and (iv) ways for FRA to minimize the burden of information collection activities on the public by automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submission of responses). *See* 44 U.S.C. 3506(c)(2)(A)(i)-(iv); 5 CFR 1320.8(d)(1)(i)-(iv). FRA believes that soliciting public comment will promote its efforts to reduce the administrative and paperwork burdens associated with the collection of information mandated by Federal regulations. In summary, FRA reasons that comments received will advance three objectives: (i) Reduce reporting burdens; (ii) ensure that it organizes information collection requirements in a "user friendly" format to improve the use of such information; and (iii) accurately assess the resources expended to retrieve and produce information requested. *See* 44 U.S.C. 3501.

Below is a brief summary of currently approved information collection activities that FRA will submit for clearance by OMB as required under the PRA:

*Title:* Inspection Brake System Safety Standards for Freight and Other Non-Passenger Trains and Equipment (Power Brakes and Drawbars).

*OMB Control Number:* 2130-0008.

*Abstract:* Section 7 of the Rail Safety Enforcement and Review Act of 1992, Public Law 102-365, amended Section 202 of the Federal Railroad Safety Act of 1970 (45 U.S.C. 421, 431 et seq.), empowered the Secretary of

Transportation to conduct a review of the Department's rules with respect to railroad power brakes and, where applicable, prescribe standards regarding dynamic brake equipment. In keeping with the Secretary's mandate and the authority delegated from him to the FRA Administrator, FRA issued revisions to the regulations governing freight power brakes and equipment in October 2008 by adding a new subpart addressing electronically controlled pneumatic (ECP) brake systems. The revisions are designed to provide for and encourage the safe implementation and use of ECT brake system technologies. These revisions contain specific requirements relating to design, interoperability, training, inspection, testing, handling defective equipment and periodic maintenance related to ECP brake systems. The final rule also identifies provisions of the existing regulations and statutes where FRA is proposing to provide flexibility to facilitate the voluntary adoption of this advanced brake system technology. The collection of information is used by FRA to monitor and enforce current regulatory requirements related to power brakes on freight cars as well as the recently added requirements related to ECP brake systems. The collection of information is also used by locomotive engineers and road crews to verify that the terminal air brake test has been performed in a satisfactory manner.

### Federal Transit Administration

[Docket No. FTA–2014–0006]

#### Notice of Request for Comments on Updates to National Transit Database Information Collection

**AGENCY:** Federal Transit Administration (FTA), DOT.

**ACTION:** Notice of request for comments, extension of comment period.

**SUMMARY:** FTA is extending the comment period for the notice of request for comments, which was published on August 19, 2014. The original comment period closed on September 18, 2014. The extension is based on concerns expressed to FTA that the September 18 closing date did not provide sufficient time to review and provide comprehensive comments on two of the proposed changes. FTA agrees that the comment period for these two proposed changes should be extended. Therefore, FTA has extended the comment period by 30 days from the original deadline to October 20, 2014. Additionally, FTA will continue to accept and review comments arriving after the extended deadline to the fullest extent practicable. This extension will provide those interested in commenting additional time to discuss, evaluate, and submit responses to the docket.

**DATES:** The comment period for the proposed rule published on August 19, 2014 (79 FR 49146), is extended. Comments must be received on or before October 20, 2014. Any comments filed after this deadline will be considered to the extent practicable.
