

All affected IFQ shareholders will receive decreases in their tilefish 2015 IFQ allocations in comparison to their respective tilefish 2014 IFQ allocations. However, the magnitude of the decrease varies depending on the shareholder's relative percent in the total IFQ quota.

Small Entity Compliance Guide

Section 212 of the Small Business Regulatory Enforcement Fairness Act of 1996 states that, for each rule or group of related rules for which an agency is required to prepare a FRFA, the agency shall publish one or more guides to assist small entities in complying with the rule, and shall designate such publications as "small entity compliance guides." The agency shall explain the actions a small entity is required to take to comply with a rule or group of rules. As part of this rulemaking process, a small entity compliance guide will be sent to all holders of Federal permits issued for the tilefish fishery. In addition, copies of this final rule and guide (i.e., permit holder letter) are available from NMFS (see **ADDRESSES**) and at the following Web site:

List of Subjects in 50 CFR Part 648

Fisheries, Fishing, Reporting and recordkeeping requirements.

Dated: October 24, 2014.

Samuel D. Rauch III,

Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service.

For the reasons set out in the preamble, 50 CFR part 648 is amended as follows:

PART 648—FISHERIES OF THE NORTHEASTERN UNITED STATES

- 1. The authority citation for part 648 continues to read as follows:

Authority: 16 U.S.C. 1801 *et seq.*

- 2. In § 648.292, revise paragraph (b) to read as follows:

§ 648.292 Tilefish specifications.

* * * * *

(b) *TAL*. (1) The *TAL* for each fishing year will be specified pursuant to paragraph (a) of this section.

(2) The sum of the *TAL* and the estimated discards shall be less than or equal to the *ACT*.

Fisheries of the Exclusive Economic Zone Off Alaska; Reallocation of Pacific Cod in the Western Regulatory Area of the Gulf of Alaska Management Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; reallocation.

SUMMARY: NMFS is reallocating the projected unused amount of Pacific cod from catcher vessels using trawl gear to catcher vessels using hook-and-line gear, vessels using pot gear, and vessels using jig gear in the Western Regulatory Area of the Gulf of Alaska management area (GOA). This action is necessary to allow the 2014 total allowable catch of Pacific cod in the Western Regulatory Area of the GOA to be harvested.

DATES: Effective October 24, 2014, through 2400 hours, Alaska local time (A.l.t.), December 31, 2014.

FOR FURTHER INFORMATION CONTACT: Obren Davis, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the Gulf of Alaska exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679. Regulations governing sideboard protections for GOA groundfish fisheries appear at subpart B of 50 CFR part 680.

The 2014 Pacific cod total allowable catch (TAC) specified for catcher vessels using trawl gear in the Western Regulatory Area of the GOA is 8,582 metric tons (mt), as established by the final 2014 and 2015 harvest specifications for groundfish in the GOA (79 FR 12890, March 6, 2014). The Administrator, Alaska Region (Regional Administrator) has determined that catcher vessels using trawl gear will not be able to harvest 900 mt of the 2014 Pacific cod TAC allocated to those vessels under § 679.20(a)(12)(i)(A).

Therefore, in accordance with § 679.20(a)(12)(ii)(B), the Regional Administrator has also determined that catcher vessels using hook-and-line gear, vessels using pot gear, and vessels using jig gear currently have the capacity to harvest this excess allocation and reallocates 50 mt to catcher vessels using hook-and-line gear, 550 mt to vessels using pot gear, and 300 mt to vessels using jig gear.

The harvest specifications for Pacific cod in the Western Regulatory Area of the GOA included in the final 2014 harvest specifications for groundfish in the GOA (79 FR 12890, March 6, 2014) are revised as follows: 7,682 mt for catcher vessels using trawl gear, 363 mt for vessels using hook-and-line gear, 9,042 mt for vessels using pot gear, and 873 mt for vessels using jig gear.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the reallocation of Pacific cod specified from catcher vessels using trawl gear to catcher vessels using hook-and-line gear, vessels using pot gear, and vessels using jig gear. Since the fishery is currently ongoing, it is important to immediately inform the industry as to the revised allocations. Immediate notification is necessary to allow for the orderly conduct and efficient operation of this fishery, to allow the industry to plan for the fishing season, and to avoid potential disruption to the fishing fleet as well as processors. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of October 23, 2014.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: October 24, 2014.

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Regulations governing sideboard protections for GOA groundfish fisheries appear at subpart B of 50 CFR part 680.

The 2014 Pacific cod total allowable catch (TAC) specified for vessels using jig gear in the Central Regulatory Area of the GOA is 797 metric tons (mt), as established by the final 2014 and 2015 harvest specifications for groundfish in the GOA (79 FR 12890, March 6, 2014). The Administrator, Alaska Region (Regional Administrator) has determined that vessels using jig gear will not be able to harvest 500 mt of the 2014 Pacific cod TAC allocated to those vessels under § 679.20(a)(12)(i)(A).

In accordance with § 679.20(a)(12)(ii)(B), the Regional Administrator has also determined that vessels using pot gear currently have the capacity to harvest this excess allocation and reallocates 500 mt to vessels using pot gear.

The harvest specifications for Pacific cod in the Central Regulatory Area of the GOA included in the final 2014 harvest specifications for groundfish in the GOA (79 FR 12890, March 6, 2014) are revised as follows: 297 mt for vessels using jig gear and 11,352 mt for vessels using pot gear.
