

National Intelligence, Washington, DC 20511; 703-874-8085

SUPPLEMENTARY INFORMATION: Pursuant to the Paperwork Reduction Act of 1995 (Pub. L. 104-13), ODNI is requesting extension in effect of SF 714, proposing no changes to the Form and its instructions at this time. ODNI invites the general public and other Federal agencies to comment on Standard Form 714. The comments and suggestions should address one or more of the following points: (a) Whether the proposed information collection reflected in the Standard Form 714 meets the intent of section 1.3 (“Financial Disclosure”) of Executive Order 12968, as amended (“Access to Classified Information”); (b) the accuracy of the estimated burden of the proposed information collection for Standard Form 714; (c) ways to enhance the quality, utility, and clarity of the information to be collected in the Standard Form 714; (d) ways, including the use of information technology, to minimize the burden of the collection of information on all respondents to the Standard Form 714; and (e) whether small businesses are affected by this collection. The comments that are submitted will be summarized and included in the ODNI request for Office of Management and Budget (OMB) approval. All comments will become a matter of public record.

Abstract: The National Security Act of 1947, as amended; section 3001 of the Intelligence Reform and Terrorism Prevention Act of 2004; and Executive Order 13467, “Reforming Processes Related to Suitability for Government Employment, Fitness for Contractor Employees, and Eligibility for Access to Classified National Security Information,” authorize the DNI, as the Security Executive Agent, to develop standard forms, including a standard financial disclosure form, that promotes uniformity and consistency in the implementation of the Government’s security programs.

The Financial Disclosure Report contains information that is used to assist in making eligibility determinations for access to specifically designated classified information pursuant to Executive Order 12968, as amended, “Access to Classified Information.” The data may later be used as part of a review process to evaluate continued eligibility for access to such specifically designated classified information or as evidence in legal proceedings. In addition, law enforcement entities may use this data where pertinent to appropriate investigatory activity.

Respondent burden data follows below:

Title: Financial Disclosure Report.

OMB number: 3440-0001.

Agency form number: Standard Form 714.

Type of review: Regular.

Affected public: Business or other for-profit.

Estimated number of respondents: 86,000.

Estimated time per response: 2 hours.

Frequency of response: Annually.

Estimated total annual burden hours: 172,000 hours.

Dated: October 16, 2014.

Mark W. Ewing,

Chief Management Officer.

BILLING CODE 9500-01-P-P

NATIONAL SCIENCE FOUNDATION

Notice of Permit Applications Received Under the Antarctic Conservation Act of 1978

AGENCY: National Science Foundation.

ACTION: Notice of Permit Applications Received under the Antarctic Conservation Act of 1978, Public Law 95-541.

SUMMARY: The National Science Foundation (NSF) is required to publish a notice of permit applications received to conduct activities regulated under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act at Title 45 part 670 of the Code of Federal Regulations. This is the required notice of permit applications received.

DATES: Interested parties are invited to submit written data, comments, or views with respect to this permit application by December 1, 2014. This application may be inspected by interested parties at the Permit Office, address below.

ADDRESSES: Comments should be addressed to Permit Office, Room 755, Division of Polar Programs, National Science Foundation, 4201 Wilson Boulevard, Arlington, Virginia 22230.

FOR FURTHER INFORMATION CONTACT: Li Ling Hamady, ACA Permit Officer, at the above address or ACApermits@nsf.gov or (703) 292-7149.

SUPPLEMENTARY INFORMATION: The National Science Foundation, as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95-541), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for

various activities in Antarctica and designation of certain animals and certain geographic areas requiring special protection. The regulations establish such a permit system to designate Antarctic Specially Protected Areas.

Application Details

1. Applicant, Permit Application: 2015-012

Dr. Diana H. Wall, Natural Resource Ecology Lab, Dept. 1499, Colorado State University, Fort Collins, CO 80526-1499

Activity for Which Permit Is

Requested: ASPA entry, Import.

Applicant wishes to enter Cape Royds ASPA 121 to collect soil samples and associated invertebrates as well as benthic algal mats and underlying soil. This project follows up on several past surveys of orthinogenic soils conducted in this ASPA which examined invertebrate genetic distribution, and also explores the influence of climate change on soil invertebrate populations. The algae sampling is to also follow up on previous surveys, to examine the temporal stability of lake algal communities in the region. Soil samples of approximately 600 grams each would be collected at up to 30 sites within the ASPA using sterile collecting techniques. For benthic algae, at 6 sites along the shore of Poly Lake, the applicant and team would use a sanitized 2cm copper coring apparatus to collect, by hand, 4 replicates of surface algal mats and 1-2 cm of underlying sediment. Samples would be transported back to the US for further study.

Location: ASPA 121 Cape Royds.

Dates: January 1, 2015-February 15, 2015.

Nadene G. Kennedy,

Polar Coordination Specialist, Division of Polar Programs.

NATIONAL SCIENCE FOUNDATION

Notice of Permits Issued Under the Antarctic Conservation Act of 1978

AGENCY: National Science Foundation.

ACTION: Notice of permits issued under the Antarctic Conservation of 1978, Public Law 95-541.

SUMMARY: The National Science Foundation (NSF) is required to publish notice of permits issued under the Antarctic Conservation Act of 1978. This is the required notice.

FOR FURTHER INFORMATION CONTACT: Li Ling Hamady, ACA Permit Officer, Division of Polar Programs, Rm. 755, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230. Or by email: ACApermits@nsf.gov

SUPPLEMENTARY INFORMATION: On August 18, 2014 the National Science Foundation published a notice in the **Federal Register** of a permit application received. After considering all comments received, the permit modification was issued on October 24, 2014 to: Dan McGrath and Dwayne Stevens, Permit No. 2014-007.

Nadene G. Kennedy,
Polar Coordination Specialist, Division of Polar Programs.

NATIONAL SCIENCE FOUNDATION

Sunshine Act Meetings

The National Science Board's *ad hoc* Working Group on Administrative Burdens (AB), pursuant to NSF regulations (45 CFR Part 614), the National Science Foundation Act, as amended (42 U.S.C. 1862n-5), and the Government in the Sunshine Act (5 U.S.C. 552b), hereby gives notice of the scheduling of a teleconference for the transaction of National Science Board business, as follows:

DATE AND TIME: Wednesday, November 5, 10:00-11:00 a.m., EST.

SUBJECT MATTER: Chairman's updates on implementation of previous Board recommendations; and discussion of the scope of work for the *ad hoc* Working Group on Administrative Burdens.

STATUS: Open.

This meeting will be held by teleconference. A public listening line will be available. Members of the public must contact the Board Office (call 703-292-7000 or send an email message to nationalsciencebrd@nsf.gov) at least 24 hours prior to the teleconference for the public listening number. Please refer to the National Science Board Web site www.nsf.gov/nsb for additional information and schedule updates (time, place, subject matter or status of meeting) which may be found at <http://www.nsf.gov/nsb/notices/>. Point of contact for this meeting is Jacqueline Meszaros at jmeszaro@nsf.gov.

Ann Bushmiller,
Senior Counsel to the National Science Board.

BILLING CODE 7555-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 040-8943; NRC-2008-0208]

License Renewal of Crow Butte ISR, Uranium In Situ Recovery Project

AGENCY: Nuclear Regulatory Commission.

ACTION: Environmental assessment and finding of no significant impact; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is considering renewal of Crow Butte Resources, Inc. (CBR or the applicant), Source Materials License SUA-1534 for continued uranium production operations and in situ recovery (ISR) of uranium at the Crow Butte Project in Crawford, Nebraska.

DATES: The environmental assessment and finding of no significant impact are available as of October 30, 2014.

ADDRESSES: Please refer to Docket ID NRC-2008-0208 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

- *Federal Rulemaking Web site:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2008-0208. Address questions about NRC dockets to Carol Gallagher; telephone: 301-287-3422; email: Carol.Gallagher@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly-available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "ADAMS Public Documents" and then select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. The ADAMS accession number for each document referenced in this document (if that document is available in ADAMS) is provided the first time that a document is referenced. For the convenience of the reader, the ADAMS accession numbers are provided in a table in the "Availability of Documents" section of this document.

- *NRC's PDR:* You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One

White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

FOR FURTHER INFORMATION CONTACT: Nathan Goodman, Office of Nuclear Material Safety and Safeguards, telephone: 301-415-2703, email: Nathan.Goodman@nrc.gov; U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC is considering renewal of CBR's Source Materials License SUA-1534 for continued uranium production operations and ISR of uranium at the Crow Butte Project in Crawford, Nebraska. The applicant is proposing continued ISR operations and processing materials into yellowcake to be shipped for conversion. The NRC staff has prepared an Environmental Assessment (EA) in support of this proposed license renewal, in accordance with the requirements in Part 51 of Title 10 of the *Code of Federal Regulations* (10 CFR). The NRC staff has also completed a safety evaluation of the proposed license renewal, pursuant to 10 CFR Part 40, and the results of the safety evaluation are documented in a separate Safety Evaluation Report (SER), ADAMS Accession No. ML14149A433. If approved, the NRC will issue the renewed license following the publication of this notice. The new license will also be made publicly available in ADAMS.

II. Environmental Assessment Summary

On November 27, 2007, CBR submitted an application to the NRC to extend the current NRC License SUA-1534 for an additional 10 years of operation (ADAMS Accession Nos. ML073480266, ML073480272, ML073480274, and ML073480267). The proposed action would permit CBR to continue ISR operations and yellowcake production at the CBR facility. The ISR operations require an extraction step and a uranium recovery step. Extraction is accomplished by installing a series of injection wells through which barren lixiviant (a mixture of groundwater charged with oxygen and bicarbonate) is pumped into an underground geological formation containing uranium deposits (the ore body). Corresponding production wells and pumps promote flow through the ore body and allow for the collection of uranium-rich pregnant lixiviant. Uranium is removed from the pregnant lixiviant by ion exchange, and then from the ion exchange resin by elution. After the uranium is removed, the lixiviant can then be recharged and
