SUPPLEMENTARY INFORMATION:

Background

RUS provides long term financing to rural communities for the development of water and waste disposal infrastructure under the Water and Waste Disposal (WWD) program. The WWD program is authorized under Section 306 of the Consolidated Farm and Rural Development Act 7 U.S.C. 1926 et seq. (CONACT), to provide financing in the form of loans, grants, and loan guarantees to eligible applicants, including cities, towns, and unincorporated areas with no more than 10,000 inhabitants. This financial assistance is intended to reach communities in greatest need and to provide reasonable user costs for rural residents, businesses and other rural users.

Section 6019 of the 2014 Farm Bill (Pub. L. 113–79) amended Section 333 of the CONACT to require RUS to encourage, to the maximum extent practicable, private or cooperative lenders to finance rural water and waste disposal facilities. The section directs the agency to achieve this requirement through the following five provisions: (A) Maximizing the use of loan guarantees to finance eligible projects in rural communities in which the population exceeds 5,500; (B) maximizing the use of direct loans to finance eligible projects if there is a material impact on the rate payers when compared to a loan guarantee; (C) establishing and applying a "materiality standard" to determine when to maximize direct loans as directed in (B); (D) requiring projects that require interim financing in excess of \$500,000 to initially seek financing from private or cooperative lenders; and (E) determining if an existing direct loan borrower can refinance with a private or cooperative lender prior to RUS providing a new direct loan.

RUS regulations for Water and Waste Disposal Programs guaranteed loans, direct loans and loan servicing are found in 7 CFR Parts 1779, 1780, and
