

transmission-level voltage at 138 or 230kV, an operations and maintenance building, and other related facilities. A short single overhead 138 or 230 kV generation-tie transmission line would connect the solar project to the adjacent Northwest Substation.

Construction of the Project is expected to take approximately 12 to 15 months. First Solar is expected to operate the energy facility for 30 years, with two options to renew the lease for an additional 10 years, if mutually acceptable to the Tribe and First Solar. The Project is expected to be built in one phase of up to 100 MW, per the demand of potential off-takers or utilities. During construction, the PV panels will be placed on top of fixed-tilt and/or single-axis tracking mounting systems that are set on steel posts embedded in the ground. Other foundation design techniques may be used depending on the site topography and conditions. No water will be used to generate electricity during operations. Water will be needed during construction for dust control and a minimal amount will be needed during operations for administrative and sanitary water use on-site. The water supply required for the Project would be leased from the Tribe and the EIS will consider the impacts of alternative sources and delivery methods.

The purposes of the proposed actions are to: (1) Help to provide long-term, diverse, and viable economic revenue base and job opportunities for the Tribe; (2) help Nevada and neighboring States to meet their State renewable energy needs; and (3) allow the Tribe, in partnership with First Solar, to optimize the use of the lease site while maximizing the potential economic benefit to the Tribe.

The BIA will prepare the EIS in cooperation with the Tribe, BLM, and possibly the U.S. Army Corps of Engineers (USACE), U.S. Environmental Protection Agency (EPA), and the Department of Defense (DOD). In addition, the U.S. Fish and Wildlife Service (USFWS) will provide input on the analysis. The resulting EIS will aim to: (1) Provide agency decision makers, the Tribe, and the general public with a comprehensive understanding of the impacts of the proposed Project and alternatives on the Reservation; (2) describe the cumulative impacts of increased development on the Reservation; and (3) identify and propose mitigation measures that would minimize or prevent significant adverse impacts. Consistent with these objectives, the EIS will analyze the proposed Project and appurtenant features, viable alternatives including

other interconnection options, modified footprint alternatives, alternate routing for Project ROWs, and the No Action alternative. Other alternatives may be identified in response to issues raised during the scoping process.

The EIS will provide a framework for BIA and BLM to make determinations and to decide whether to take the aforementioned Federal actions. In addition, BIA will use and coordinate the NEPA commenting process to satisfy its obligations under Section 106 of the National Historic Preservation Act (NHPA) (16 U.S.C. 470f) as provided for in 36 CFR 800.2(d)(3). Tribal consultations will be conducted in accordance with policy and tribal concerns will be given due consideration, including impacts on Indian trust assets. Other Federal agencies may rely on the EIS to make decisions under their authority and the Tribe may also use the EIS to make decisions. The USFWS will review the EIS for consistency with the Endangered Species Act, as amended, and other implementing acts, and may rely on the EIS to support its decisions and opinions regarding the Project's impact on federally listed species.

Issues to be covered during the scoping process may include, but would not be limited to, Project impacts on air quality, geology and soils, surface and groundwater resources, biological resources, threatened and endangered species, cultural resources, socioeconomic conditions, land use, aesthetics, environmental justice, and Indian trust resources. In addition to those already identified above, other Federal, State, and local agencies, along with other stakeholders that may be interested or affected by the BIA's decision on the proposed Project, are invited to participate in the scoping process.

Submission of Public Comments

Please include your name, return address, and the caption "EIS, Snow Mountain Solar Project," on the first page of any written comments. You may also submit comments at the public scoping meeting.

A public scoping meeting will be held on the Reservation to further describe the Project and identify potential issues and alternatives to be considered in the EIS. The date of the public scoping meeting will be included in notices to be posted in the *Las Vegas Sun* and *Las Vegas Review-Journal* at least 15 days before the meeting.

Public Comment Availability

Comments, including names and addresses of respondents, will be

available for public review at the mailing address shown in the **ADDRESSES** section during regular business hours, 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time.

Authority

This notice is published in accordance with 40 CFR 1501.7 of the Council of Environmental Quality regulations and 43 CFR 46.235 of the Department of the Interior Regulations implementing the procedural requirements of the NEPA (42 U.S.C. 4321 *et seq.*), and in accordance with the exercise of authority delegated to the Assistant Secretary—Indian Affairs by part 209 of the Department Manual.

Indian Gaming

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice of Tribal-State Class III Gaming Compact taking effect.

SUMMARY: This notice publishes the Class III Gaming Compact between the Karuk Tribe and the State of California taking effect.

DATES: *Effective Date:* November 19, 2014.

FOR FURTHER INFORMATION CONTACT:

Paula L. Hart, Director, Office of Indian Gaming, Office of the Deputy Assistant Secretary—Policy and Economic Development, Washington, DC 20240, (202) 219–4066.

SUPPLEMENTARY INFORMATION: Under section 11 of the Indian Gaming Regulatory Act (IGRA), Public Law 100–497, 25 U.S.C. 2701 *et seq.*, the Secretary of the Interior shall publish in the **Federal Register** notice of approved Tribal-State compacts for the purpose of engaging in Class III gaming activities on Indian lands. The Compact between the State of California and the Karuk Tribe allows for one gaming facility and authorizes the Tribe to operate up to

1500 gaming devices, any banking or percentage card games, and any devices or games authorized under State law to the State lottery. The Tribe will make revenue sharing payments for operating more than 350 gaming devices. Finally, the term of the compact is until December 31, 2034. The Secretary took no action on the Compact within 45 days of its submission by the Tribe and the State. Therefore, the compact is considered to have been approved, but only to the extent that the Compact is consistent with IGRA. *See* 25 U.S.C. 2710(d)(8)(C).

Dated: November 12, 2014.
