

According to article 9(a) of the Contract, Western calculates the annual installment to be paid by the customer for the power generated at the Falcon and Amistad power plants. The annual installment is adjusted on or before August 31 of the year preceding the fiscal year to which it pertains and Western identifies this amount in a revised Exhibit A to the Contract. Each annual installment pays the annual amortized portion of the United States' investment in the Falcon and Amistad hydroelectric facilities with interest and the associated operation, maintenance, and administrative costs. This repayment schedule is not dependent upon the power and energy made available for sale or the rate of generation each year.

Thirty days after this notice is published, Western will take further action on the proposed formula rate extension for the Falcon and Amistad Projects, pursuant to the Delegation Order and DOE rate extension procedures at 10 CFR 903.23(a).

Dated: February 4, 2014.

Mark A. Gabriel,
Administrator.
