I. Funding Opportunity Description

Description

Background

Awards under this FVPSA funding opportunity announcement are administered through the Administration on Children, Youth and Families (ACYF) Family and Youth Services Bureau (FYSB). They are designed to assist Tribes in their efforts to support the establishment, maintenance, and expansion of programs and projects: (1) To prevent incidents of family violence, domestic violence, and dating violence; (2) to provide immediate shelter, supportive services, and access to community-based programs for victims of family violence, domestic violence, or dating violence, and their dependents; and (3) to provide specialized services for children exposed to family violence, domestic violence, or dating violence, underserved populations, and victims who are members of racial and ethnic minority populations (§ 10406(a) as applied pursuant to § 10409(c)).

Funding under this announcement will assist Tribes in safeguarding lives of victims of intimate partner violence and in addressing the unique circumstances and obstacles that may affect responses to intimate partner violence in Tribal communities.

In FY 2014, the Department of Health and Human Services (HHS) agencies, including the Administration for Children and Families (ACF), consulted with Tribal governments on all of the grant programs administered by ACF. FVPSA-related issues such as grant award dates, extending project periods, and the recent shift in award amounts were addressed during each of the consultations.

During FY 2014, ACF awarded FVPSA formula grants to 120 Tribes or Tribal organizations in support of 243 Tribes; 53 states and territories; and 56 nonprofit State Domestic Violence Coalitions. In addition, ACF supplied additional funding for multi-year FVPSA discretionary grants to one National Indian Resource Center Addressing Domestic Violence and Safety for Indian Women; other national, special issue, and culturally specific resource centers; and the National Domestic Violence Hotline.

Ensuring the Well-Being of Vulnerable Children and Families/Adults

ACYF is committed to facilitating healing and recovery and promoting the social and emotional well-being of children, youth, and families/adults who have experienced maltreatment,

exposure to violence, and/or trauma. Awards governed by this funding opportunity announcement and other current fiscal year expenditures are designed to ensure that effective interventions are in place to build skills and capacities that contribute to the healthy, positive, and productive functioning of families.

Experiencing trauma can have a profound effect on the overall functioning of individuals and families. Thus, efforts to address the impact of trauma are essential in cultivating social and emotional well-being. ACYF therefore promotes a trauma-informed approach, which involves understanding and responding to the symptoms of chronic interpersonal trauma and traumatic stress, as well as the behavioral and mental health consequences of trauma.

ACYF expects to maintain a continued focus on social and emotional well-being as a critical component of its overall mission to ensure positive outcomes for all individuals and families. Tribal grantees have a critical role in incorporating ACYF priorities by helping to ensure trauma-informed interventions are embedded within the service provision framework of all services funded by FVPSA. Tribes and Tribal organizations are strongly encouraged to leverage the expertise of the FVPSA-funded National Indigenous Women's Resource Center, Inc. (NIWRC). NIWRC is a Native nonprofit organization created specifically to serve as the National Indian Resource Center Addressing Domestic Violence and Safety for Indian Women (see <http://www.niwrc.org/about-us/mission-work-and-philosophy> for more information) and the National Center on Domestic Violence, Trauma and Mental Health to infuse programs with best and promising practices on trauma-informed interventions as they seek to promote the social and emotional well-being of families seeking shelter and supportive services.

Use of Funds

Grantees should ensure that not less than 70 percent of the funds distributed are used for the primary purpose of providing immediate shelter and supportive services to adult and youth victims of family violence, domestic violence, or dating violence, and their dependents. Not less than 25 percent of the funds must be used for the purpose of providing supportive services and prevention services (§ 10408(b)(2) as applied pursuant to § 10409(e)).

FVPSA funds awarded to grantees should be used for activities described
