SUPPLEMENTARY INFORMATION:

I. Abstract

The Office of Management and Budget regulation at 5 CFR 1320, which implement provisions of the Paperwork Reduction Act of 1995 (Public Law 104-13), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities [see 5 CFR 1320.8(d)]. The Office of Strategic Employee and Organization Development, Federal Consulting Group has submitted a request to the Office of

Management and Budget to renew its approval of this collection of information for three years.

The proposed renewal of this information collection activity provides a means to consistently assess, benchmark, and improve customer satisfaction with Federal government agency programs and/or services within the Executive Branch. The Federal Consulting Group of the Department of the Interior serves as the executive agent for this methodology and has partnered with the Claes Fornell International Group (CFI Group) and the American Customer Satisfaction Index (ACSI) to offer the ACSI to Federal government agencies.

The CFI Group, a leader in customer satisfaction and customer experience management, offers a comprehensive model that quantifies the effects of quality improvements on citizen satisfaction. The CFI Group has developed the methodology and licenses it to the American Customer Satisfaction Index, an independent organization which produces the American Customer Satisfaction Index (ACSI). This national indicator is developed for different economic sectors each quarter, which are then published in *The Wall Street Journal*. The ACSI was introduced in 1994 by Professor Claes Fornell under the auspices of the University of Michigan, the American Society for Quality (ASQ), and the CFI Group. The ACSI monitors and benchmarks customer satisfaction across more than 200 companies and many U.S. Federal agencies.

The ACSI is the only cross-agency methodology for obtaining comparable measures of customer satisfaction with Federal government programs and/or services. Along with other economic objectives—such as employment and growth—the quality of outputs (goods and services) is a part of measuring living standards. The ACSI's ultimate purpose is to help improve the quality of goods and services available to American citizens.

ACSI surveys conducted by the Federal Consulting Group are subject to the Privacy Act of 1974, Public Law 93-579, December 31, 1974 (5 U.S.C. 552a). The agency information collection is an integral part of conducting an ACSI survey. The contractor will not be authorized to release any agency information upon completion of the survey without first obtaining permission from the Federal Consulting Group and the participating agency. In no case shall any new system of records containing privacy information be developed by the Federal Consulting Group, participating agencies, or the

contractor collecting the data. In addition, participating Federal agencies may only provide information used to randomly select respondents from among established systems of records provided for such routine uses.

There is no other agency or organization able to provide the information accessible through the surveying approach used in this information collection. Further, the information will enable Federal agencies to determine customer satisfaction metrics with discrimination capability across variables. Thus, this information collection will assist Federal agencies in making the best use of resources in a targeted manner to improve service to the public.

This survey asks no questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, or other matters that are commonly considered private.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it is operating under a currently valid OMB control number. The Office of Management and Budget control number for this collection is 1090-0007. The control number will be displayed on the surveys used. Response to the surveys is voluntary.

II. Data

(1) *Title:* American Customer Satisfaction Index (ACSI) Government Customer Satisfaction Surveys.

OMB Control Number: 1090-0007.

Current Expiration Date: March 31, 2015.

Frequency of Collection: Once per survey.

Description of Respondents: Individuals, Business, and State, Local, or Tribal Governments who have utilized Federal Government services.

Type of Review: Renewal.

(2) *Annual reporting and record keeping burden.*

Total Annual Burden Hours: 16,000.

Estimated Number of Respondents:

Participation by Federal agencies in the ACSI is expected to vary as new customer segment measures are added or deleted. However, based on historical records, projected average estimates for the next three years are as follows:

Average Expected Annual Number of Customer Satisfaction Surveys: 100.

Respondents: 800 per survey.

Annual responses: 80,000.

Frequency of Response: Once per survey.

Average minutes per response: 12.0.

Burden hours: 16,000 hours.

(3) *Description of the need and use of the information:* The proposed renewal

of this information collection activity provides a means to consistently assess, benchmark, and improve customer satisfaction with Federal government agency programs and/or services within the Executive Branch.

(4) As required under 5 CFR 1320.8(d), a **Federal Register** notice soliciting comments on the collection of information was published on November 18, 2014 (79 FR 68689–90). No comments were received. This notice provides the public with an additional 30 days in which to comment on the proposed information collection activity.

Request for Comments: Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval. Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information; and to transmit or otherwise disclose the information.

All written comments will be available for public inspection by appointment with the Federal Consulting Group at the contact information given in the **ADDRESSES** section. The comments, with names and addresses, will be available for public view during regular business hours. If you wish us to withhold your personal information, you must prominently state at the beginning of your comment what personal information you want us to

withhold. We will honor your request to the extent allowable by law.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid Office of Management and Budget control number.
