

appropriate response actions under CERCLA, other than operation, maintenance and five-year reviews of the Site, have been completed. However, this deletion does not preclude future actions under Superfund.

DATES: This action is effective April 8, 2015.

ADDRESSES:

Docket: EPA has established a docket for this action under Docket ID No. EPA-HQ-SFUND-1991-0006. All documents in the docket are listed on the <http://www.regulations.gov> Web site. Although listed in the index, some information is not publicly available, *i.e.*, Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, will be publicly available only in hard copy. Publicly available docket materials are available electronically at <http://www.regulations.gov> or in hard copy at Ruth Tyler Branch Library, 8041 South Wood, Midvale, UT 84047; Phone: (801-944-7641); Hours: M–Th: 9 a.m.–9 p.m.; Fri–Sat: 9:00 a.m.–5:30 p.m.

FOR FURTHER INFORMATION CONTACT: Erna Waterman, Remedial Project Manager, U.S. EPA Region 8, Mail code: 8EPR-SR, 1595 Wynkoop Street, Denver, CO 80202-1129; Phone: (303) 312-6762; Email: waterman.erna@epa.gov. You may contact Erna to request a hard copy of publicly available docket materials.

SUPPLEMENTARY INFORMATION: The site to be deleted from the NPL is: Midvale Slag Superfund Site (Site), located in Salt Lake County, Utah. A Notice of Intent to Delete for this Site was published in the **Federal Register** (80 FR 6496) on February 5, 2015.

The closing date for comments on the Notice of Intent to Delete was March 9, 2015. One public comment was received. The comment requested that the Site not be deleted over concerns that water quality in the Jordan River would not be protected from the potential release of hazardous substances from the Kennecott North and Kennecott South Sites. The EPA believes the deletion action is appropriate as the remediation goals for this Site have been met and the water monitoring data shows that the Jordan River is not being adversely affected by this Site. A responsiveness summary was prepared and placed in both the docket, EPA-HQ-SFUND EPA-HQ-SFUND-1991-0006, on www.regulations.gov, and in the local repository listed above.

EPA maintains the NPL as the list of sites that appear to present a significant

risk to public health, welfare, or the environment. Deletion from the NPL does not preclude further remedial action. Whenever there is a significant release from a site deleted from the NPL, the deleted site may be restored to the NPL without application of the hazard ranking system. Deletion of a site from the NPL does not affect responsible party liability in the unlikely event that future conditions warrant further actions.

List of Subjects in 40 CFR Part 300

Environmental protection, Air pollution control, Chemicals, Hazardous waste, Hazardous substances, Intergovernmental relations, Penalties, Reporting and recordkeeping requirements, Superfund, Water pollution control, Water supply.

Dated: March 26, 2015.

Shaun L. McGrath,

Regional Administrator, Region 8.

For the reasons set out in this document, 40 CFR part 300 is amended as follows:

PART 300—NATIONAL OIL AND HAZARDOUS SUBSTANCES POLLUTION CONTINGENCY PLAN

■ 1. The authority citation for part 300 continues to read as follows:

Authority: 33 U.S.C. 1321(c)(2); 42 U.S.C. 9601-9657; E.O. 13626, 77 FR 56749, 3 CFR 2013 Comp., p. 306; E.O. 12777, 56 FR 54757; 3 CFR, 1991 Comp., p. 351; E.O. 12580, 52 FR 2923, 3 CFR 1987 Comp., p. 193.

Appendix B to Part 300—[Amended]

■ 2. Table 1 of Appendix B to part 300 is amended by removing the entry “UT Midvale Slag, Midvale.”

50 CFR Part 660

[Docket No. 140107014-4014-01]

RIN 0648-XD868

Fisheries Off West Coast States; Modifications of the West Coast Commercial Salmon Fisheries; Inseason Actions #1 and #2

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Modification of fishing seasons; request for comments.

SUMMARY: NMFS announces two inseason actions in the ocean salmon fisheries. These inseason actions modified the commercial salmon fisheries in the area from the Cape Falcon, OR, to Point Arena, CA.

DATES: The effective dates for the inseason actions are set out in this document under the heading Inseason Actions. Comments will be accepted through April 23, 2015.

ADDRESSES: You may submit comments, identified by NOAA-NMFS-2014-0005, by any one of the following methods:

- *Electronic Submissions:* Submit all electronic public comments via the Federal eRulemaking Portal. Go to www.regulations.gov

#/docketDetail;D=NOAA-NMFS-2014-0005, click the “Comment Now!” icon, complete the required fields, and enter or attach your comments.

- *Mail:* William W. Stelle, Jr., Regional Administrator, West Coast Region, NMFS, 7600 Sand Point Way NE., Seattle, WA 98115-6349

Instructions: Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (*e.g.*, name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter “N/A” in the required fields if you wish to remain anonymous).

FOR FURTHER INFORMATION CONTACT: Peggy Mundy at 206-526-4323.

SUPPLEMENTARY INFORMATION:

Background

In the 2014 annual management measures for ocean salmon fisheries (79 FR 24580, May 1, 2014), NMFS announced the commercial and recreational fisheries in the area from the U.S./Canada border to the U.S./Mexico border, beginning May 1, 2014, and 2015 salmon seasons opening earlier than May 1, 2015. NMFS is authorized to implement inseason management actions to modify fishing seasons and quotas as necessary to provide fishing opportunity while meeting management objectives for the affected species (50 CFR 660.409). Inseason actions in the salmon fishery may be taken directly by NMFS (50 CFR

660.409(a)—Fixed inseason management provisions) or upon consultation with the Pacific Fishery Management Council (Council) and the appropriate State Directors (50 CFR 660.409(b)—Flexible inseason management provisions). The state management agencies that participate in these consultations are: California Department of Fish and Wildlife (CDFW), Oregon Department of Fish and Wildlife (ODFW), and Washington Department of Fish and Wildlife (WDFW).

Management of the salmon fisheries is generally divided into two geographic areas: North of Cape Falcon (U.S./Canada border to Cape Falcon, OR) and south of Cape Falcon (Cape Falcon, OR, to the U.S./Mexico border). The inseason actions reported in this document affect fisheries south of Cape Falcon. Within the south of Cape Falcon area, the Klamath Management Zone (KMZ) extends from Humbug Mountain, OR, to Humboldt South Jetty, CA, and is divided at the Oregon/California border into the Oregon KMZ to the north and California KMZ to the south. All times mentioned refer to Pacific daylight time.

Inseason Actions

Inseason Action #1

Description of action: Inseason action #1 modified the dates for the pre-May 2015 commercial salmon fishery from Cape Falcon, OR, to Humbug Mountain, OR (Newport/Tillamook and Coos Bay subareas) and from Humbug Mountain, OR, to the Oregon/California border (Oregon KMZ). These fisheries opened on April 1, 2015 rather than March 15, 2015, as previously scheduled (79 FR 24580).

Effective dates: Inseason action #1 took effect on March 15, 2015, and remains in effect through April 30, 2015.

Reason and authorization for the action: This action was taken to limit fishery impacts on age-4 Klamath River fall Chinook salmon (KRFC), the surrogate for managing impacts on California coastal Chinook salmon, which are listed as threatened under the Endangered Species Act (ESA). Inseason action to modify quotas and/or fishing seasons is authorized by 50 CFR 660.409(b)(1)(i).

Consultation date and participants: Consultation on inseason action #1 occurred at the Council meeting on March 11, 2015. The state of Oregon recommended the Council adopt this action for recommendation to NMFS.

Inseason Action #2

Description of action: Inseason action #2 cancelled the pre-May 2015 commercial salmon fishery from Horse Mountain, CA, to Point Arena, CA (Fort Bragg subarea), previously scheduled to open on April 16, 2015 (79 FR 24580).

Effective dates: Inseason action #2 takes effect on April 16, 2015, and remains in effect until April 30, 2015.

Reason and authorization for the action: This action was taken to limit fishery impacts on age-4 Klamath River fall Chinook salmon (KRFC), the surrogate for managing impacts on California coastal Chinook salmon, which are listed as threatened under the Endangered Species Act (ESA). Inseason action to modify quotas and/or fishing seasons is authorized by 50 CFR 660.409(b)(1)(i).

Consultation date and participants: Consultation on inseason action #2 occurred at the Council meeting on March 11, 2015. The state of California recommended the Council adopt this action for recommendation to NMFS.

All other restrictions and regulations remain in effect as announced for the 2014 ocean salmon fisheries and 2015 fisheries opening prior to May 1, 2015 (79 FR 24580, May 1, 2014).

The RA determined that the best available information indicated that Chinook salmon abundance forecasts and estimates of fishery impacts supported the above inseason actions recommended by the states of Oregon and California. The states manage the fisheries in state waters adjacent to the areas of the U.S. exclusive economic zone in accordance with these Federal actions. As provided by the inseason notice procedures of 50 CFR 660.411, actual notice of the described regulatory actions was given, prior to the time the action was effective, by telephone hotline numbers 206-526-6667 and 800-662-9825, and by U.S. Coast Guard Notice to Mariners broadcasts on Channel 16 VHF-FM and 2182 kHz.

Classification

The Assistant Administrator for Fisheries, NOAA (AA), finds that good cause exists for this notification to be issued without affording prior notice and opportunity for public comment under 5 U.S.C. 553(b)(B) because such notification would be impracticable. As previously noted, actual notice of the regulatory actions was provided to fishers through telephone hotline and radio notification. These actions comply with the requirements of the annual management measures for ocean salmon fisheries (79 FR 24580, May 1, 2014), the West Coast Salmon Fishery

Management Plan (Salmon FMP), and regulations implementing the Salmon FMP, 50 CFR 660.409 and 660.411. Prior notice and opportunity for public comment was impracticable because NMFS and the state agencies had insufficient time to provide for prior notice and the opportunity for public comment between the time Chinook salmon abundance forecasts and catch and effort projections were developed and fisheries impacts were calculated, and the time the fishery modifications had to be implemented in order to ensure that fisheries are managed based on the best available scientific information, ensuring that conservation objectives and ESA consultation standards are not exceeded. The AA also finds good cause to waive the 30-day delay in effectiveness required under 5 U.S.C. 553(d)(3), as a delay in effectiveness of these actions would allow fishing at levels inconsistent with the goals of the Salmon FMP and the current management measures.

These actions are authorized by 50 CFR 660.409 and 660.411 and are exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: April 3, 2015.

Emily H. Menashes,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

RIN 0648-XD886

Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Cod by Catcher Vessels Less Than 60 Feet (18.3 meters) Length Overall Using Jig or Hook-and-Line Gear in the Bogoslof Pacific Cod Exemption Area in the Bering Sea and Aleutian Islands Management Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS is prohibiting directed fishing for Pacific cod by catcher vessels less than 60 feet (18.3 meters (m)) length overall (LOA) using jig or hook-and-line gear in the Bogoslof Pacific cod
