SUPPLEMENTARY INFORMATION:

Title: Voluntary Recalls of Meat and Poultry Products.

OMB Control Number: 0583–0135.

Expiration Date: 8/31/2015.

Type of Request: Extension of an approved information collection.

Abstract: FSIS, by delegation (7 CFR 2.18, 2.53), exercises the functions of the Secretary as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, *et seq.*) and the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, *et seq.*). These statutes mandate that FSIS protect the public by verifying that meat and poultry products are safe, wholesome, unadulterated, and properly labeled and packaged.

FSIS is requesting an extension of an approved information collection addressing paperwork requirements regarding the Agency's voluntary recalls from commerce of meat and poultry products. The approval for this information collection will expire August 31, 2015. Although FSIS is responsible for the inspection of egg products under the Egg Products Inspection Act (EPIA) (21 U.S.C. 1031, *et seq.*), the Food and Drug Administration typically handles the recalls of egg products.

A firm that has produced or imported meat or poultry product that is adulterated or misbranded and has distributed it in commerce, may voluntarily recall the product in

question. When there is a recall, FSIS asks that the recalling firm (*e.g.*, a manufacturer, distributor, or importer of record) provide the Agency with some basic information, including the identity of the recalled product, the reason for the recall, and information about the distributors and retail consignees to whom the product was actually shipped. Under the FMIA, firms are required to keep such records that fully and correctly disclose all transactions in their business (21 U.S.C. 642). Under the PPIA, firms are required to keep such records as are properly necessary for the effective enforcement of the PPIA (21 U.S.C. 460(b)).

When a firm voluntarily recalls a product, FSIS conducts recall effectiveness checks. In conducting recall effectiveness checks, if the recall is to the retail or consumer level, the Agency contacts the distributors and actual retail consignees to ensure that they were notified of the recall, to verify the amount of product they received, and to confirm that they are removing the product from commerce and returning it to the recalling firm or otherwise disposing of the product.

FSIS has made the following estimates based upon an information collection assessment.

Estimate of Burden: FSIS estimates that it will take respondents an average of approximately 1.1 hours to collect and make this information available to FSIS.

Respondents: Official establishments, importers of record, and retail consignees.

Estimated Number of Respondents: 6,087.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 6,740 hours.

Copies of this information collection assessment can be obtained from Gina Kouba, Paperwork Reduction Act Coordinator, Food Safety and Inspection Service, USDA, 1400 Independence SW., Room 6077, South Building, Washington, DC 20250, (202) 690–6510.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of FSIS's functions, including whether the information will have practical utility; (b) the accuracy of FSIS's estimate of the burden of the proposed collection of information, including the

validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques, or other forms of information technology. Comments may be sent to both FSIS, at the addresses provided above, and the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20253.

Responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, FSIS will announce this **Federal Register** publication on-line through the FSIS Web page located at: <http://www.fsis.usda.gov/federal-register>.

FSIS also will make copies of this publication available through the FSIS Constituent Update, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, and other types of information that could affect or would be of interest to our constituents and stakeholders. The Update is available on the FSIS Web page. Through the Web page, FSIS is able to provide information to a much broader, more diverse audience. In addition, FSIS offers an email subscription service which provides automatic and customized access to selected food safety news and information. This service is available at: <http://www.fsis.usda.gov/subscribe>. Options range from recalls to export information, regulations, directives, and notices. Customers can add or delete subscriptions themselves, and have the option to password protect their accounts.

DEPARTMENT OF AGRICULTURE

Forest Service

Santa Fe National Forest; New Mexico; Geothermal Leasing

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: The Santa Fe National Forest will prepare an environmental impact statement to analyze the potential effects of geothermal development on 194,910 acres. The decision will be whether to proceed with geothermal leasing and, if so, under what stipulations.

DATES: Comments concerning the scope of the analysis must be received by June 12, 2015. The draft environmental impact statement is expected in January, 2016 and the final environmental impact statement is expected in October, 2016.

ADDRESSES: Send written comments to Geothermal EIS Project, Santa Fe National Forest, 11 Forest Lane, Santa Fe, NM 87508. Comments may also be sent via email to comments-southwestern-santafe@fs.fed.us, or via facsimile to 505-438-5390.

FOR FURTHER INFORMATION CONTACT: Larry Gore, Forest Geologist, via email at ldgore@fs.fed.us.

Individuals who use telecommunication devices for the deaf

(TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday.

SUPPLEMENTARY INFORMATION:

Purpose and Need for Action

The Bureau of Land Management (BLM) has received expressions of interest in leasing approximately 46,000 acres of Santa Fe National Forest (SFNF) lands for exploration and development for geothermal energy production. The SFNF must decide whether these lands are available for leasing by the BLM and, if so, under what stipulations for protection of surface resources. The U.S. Geological Survey has identified approximately 194,000 acres of SFNF lands with significant geothermal potential. While the current expressed interest is for only a portion of this area, the entire area plus an additional approximately 900 acres for power transmission will be considered in the analysis in the event of future similar interest.

Proposed Action

Approximately 139,329 acres of the SFNF lands within the project area would be allocated as open to geothermal leasing subject to existing laws, regulations, formal orders and stipulations attached to the lease form, and the terms and conditions of the standard lease form. Stipulations proposed include: no surface occupancy; controlled surface use; and timing limitations.

Lead and Cooperating Agencies

The Forest Service, Santa Fe National Forest, is the lead agency and the Bureau of Land Management, New Mexico State Office, is a cooperating agency in this analysis.

Responsible Official

The responsible official is the Forest Supervisor of the Santa Fe National Forest.

Nature of Decision To Be Made

The decision will be whether to implement the action as proposed, implement an alternative which allows leasing under different stipulations or conditions, or not to implement the action. If the decision is to authorize leasing, that decision with associated stipulations and conditions will become an amendment to the Santa Fe National Forest Plan or will become a part of the Revised Forest Plan.

Scoping Process

This notice of intent initiates the scoping process, which guides the
