

Note that, for any party the Department was unable to locate in prior segments, the Department will not accept a request for an administrative review of that party absent new information as to the party's location. Moreover, if the interested party who files a request for review is unable to locate the producer or exporter for which it requested the review, the interested party must provide an explanation of the attempts it made to locate the producer or exporter at the same time it files its request for review, in order for the Secretary to determine if the interested party's attempts were reasonable, pursuant to 19 CFR 351.303(f)(3)(ii).

As explained in *Antidumping and Countervailing Duty Proceedings: Assessment of Antidumping Duties*, 68 FR 23954 (May 6, 2003), and *Non-Market Economy Antidumping Proceedings: Assessment of Antidumping Duties*, 76 FR 65694 (October 24, 2011) the Department clarified its practice with respect to the collection of final antidumping duties on imports of merchandise where intermediate firms are involved. The public should be aware of this clarification in determining whether to request an administrative review of merchandise subject to antidumping findings and orders.²

Further, as explained in *Antidumping Proceedings: Announcement of Change in Department Practice for Respondent Selection in Antidumping Duty Proceedings and Conditional Review of the Nonmarket Economy Entity in NME Antidumping Duty Proceedings*, 78 FR 65963 (November 4, 2013), the Department clarified its practice with regard to the conditional review of the non-market economy (NME) entity in administrative reviews of antidumping duty orders. The Department will no longer consider the NME entity as an exporter conditionally subject to administrative reviews. Accordingly, the NME entity will not be under review unless the Department specifically receives a request for, or self-initiates, a review of the NME entity.³ In administrative reviews of antidumping duty orders on merchandise from NME countries where a review of the NME entity has not been initiated, but where an individual exporter for which a review was initiated does not qualify for a separate rate, the Department will

issue a final decision indicating that the company in question is part of the NME entity. However, in that situation, because no review of the NME entity was conducted, the NME entity's entries were not subject to the review and the rate for the NME entity is not subject to change as a result of that review (although the rate for the individual exporter may change as a function of the finding that the exporter is part of the NME entity).

Following initiation of an antidumping administrative review when there is no review requested of the NME entity, the Department will instruct CBP to liquidate entries for all exporters not named in the initiation notice, including those that were suspended at the NME entity rate.

All requests must be filed electronically in Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System ("IA ACCESS") on the IA ACCESS Web site at <http://iaaccess.trade.gov>.⁴ Further, in accordance with 19 CFR 351.303(f)(1)(i), a copy of each request must be served on the petitioner and each exporter or producer specified in the request.

The Department will publish in the **Federal Register** a notice of "Initiation of Administrative Review of Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation" for requests received by the last day of January 2015. If the Department does not receive, by the last day of January 2015, a request for review of entries covered by an order, finding, or suspended investigation listed in this notice and for the period identified above, the Department will instruct CBP to assess antidumping or countervailing duties on those entries at a rate equal to the cash deposit of (or bond for) estimated antidumping or countervailing duties required on those entries at the time of entry, or withdrawal from warehouse, for consumption and to continue to collect the cash deposit previously ordered.

For the first administrative review of any order, there will be no assessment of antidumping or countervailing duties on entries of subject merchandise entered, or withdrawn from warehouse, for consumption during the relevant provisional-measures "gap" period of the order, if such a gap period is applicable to the period of review.

This notice is not required by statute but is published as a service to the international trading community.

Dated: December 23, 2014.

Christian Marsh,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

National Oceanic and Atmospheric Administration

RIN 0648-XD625

Fisheries Off West Coast States; Pacific Coast Groundfish Fishery; Application for an Exempted Fishing Permit

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of EFP applications; request for comments.

SUMMARY: NMFS announces the receipt of exempted fishing permit (EFP) applications, and is considering issuance of EFPs for vessels participating in the EFP fisheries. The EFPs are necessary to allow activities that are otherwise prohibited by Federal regulations. The EFPs will be effective no earlier than April 1, 2015, and will be for a minimum duration of two years unless there is a need to extend the EFP to collect more information or the need for the EFP no longer exists because appropriate regulations have been implemented. These EFPs can be terminated earlier under terms and conditions of the EFPs and other applicable laws.

DATES: Comments must be received no later than 5 p.m., local time on January 17, 2014.

ADDRESSES: You may submit comments, identified by 0648-XD625, by any one of the following methods:

- *Email:* GroundfishEMEFP@noaa.gov.
- *FAX:* 206-526-6736, Attn: Steve Freese.
- *Mail:* William W. Stelle, Regional Administrator, West Coast Region, NMFS, 7600 Sand Point Way NE., Seattle, WA 98115-0070, Attn: Steve Freese.

FOR FURTHER INFORMATION CONTACT: To view copies of the Electronic Monitoring EFP applications, visit the Pacific Council Web site at www.pcouncil.org and browse the "June 2014 Briefing Book" and the "Trawl

Catch Share Program Electronic Monitoring"; or contact Steve Freese (West Coast Region, NMFS), phone 206-526-6113, fax: 206-526-6736.

SUPPLEMENTARY INFORMATION: This action is authorized by the Pacific Coast Groundfish Fishery Management Plan (FMP) and the Magnuson-Stevens Fishery Conservation and Management Act provisions at 50 CFR 600.745, which states that EFPs may be used to authorize fishing activities that would otherwise be prohibited. At the June 2014 Pacific Fishery Management Council (Council) meeting in Garden Grove, California, the Council considered applications for four revised EFPs from: (1) The California Risk Pool; (2) Michele Longo Eder; (3) Peter Leipzig; and (4) Heather Mann and Brent Paine. An opportunity for public testimony was provided during the June 2014 Council meeting. For more details on these EFP applications and to view copies of the applications, see the Pacific Council's Web site at www.pcouncil.org and browse the "June 2014 Briefing Book". The Council recommended that NMFS consider issuing the following EFPs, and that those EFPs be used to test EM in the fisheries in a limited capacity with some additional permit conditions for possible use in 2015 and beyond.

California Risk Pool EFP

The California Risk Pool (which includes the Fort Bragg Groundfish Association, the Half Moon Bay Groundfish Marketing Association, and the Central California Seafood Marketing Association) submitted an application for an EFP, along with their collaborators: The Environmental Defense Fund (EDF); and The Nature Conservancy. Seven vessels will participate in this EFP: Three from the fixed gear sector and four from the trawl sector. Sarah McTee of the Environmental Defense Fund and Lisa Damrosch of the Half Moon Bay Groundfish Marketing Association are the points of contact for this EFP.

Fixed Gear EFP

The applicants participating in this EFP are trawl-permitted, fixed gear fishermen (Bob Eder, John Corbin and Burton C. Parker, Sr.) using pots or longlines. The primary purpose of the EFP is to test monitoring catch and discard via an EM system without 100 percent observers coverage as currently required by law. Michele Longo Eder is the point of contact for this EFP.

Peter Leipzig EFP

The fishermen that would participate in this EFP are bottom trawl fishermen.
