SUPPLEMENTARY INFORMATION: This package is a revision to the collection originally approved as the State Preparedness Report, OMB Control Number: 1660-0131. FEMA is updating the name of this collection from “State Preparedness Report” to the “Threat and Hazard Identification and Risk Assessment (THIRA)—State Preparedness Report (SPR) Unified Reporting Tool” to reflect more accurately the information and method of collection. The *Post-Katrina Emergency Management Reform Act of 2006 (PKEMRA)*, as amended by the *Implementing Recommendations of the 9/11 Commission Act of 2007*, established an annual requirement for the 56 States and territories to submit a State Preparedness Report (SPR).

PKEMRA requires a report on current capability levels and a description of targeted capability levels from all States and territories receiving non-disaster preparedness grant funds administered by the Department of Homeland Security. Each report must also include a discussion of the extent to which target capabilities identified in the applicable State homeland security plan and other applicable plans are unmet, and an assessment of resources needed to meet the preparedness priorities established under *PKEMRA* Section 646(e), including: (i) An estimate of the amount of expenditures required to attain the preparedness priorities; and (ii) the extent to which the use of Federal assistance during the preceding

fiscal year achieved the preparedness priorities. To meet this requirement, States and territories first identify capability targets through the Threat and Hazard Identification and Risk Assessment (THIRA) and then assess against these targets in the SPR. It is also important to note that the only allowable expenses under the grant awards are for completing the THIRA/SPR and THIRA.

FEMA holds annual after-action calls every January. All state and local jurisdictions that complete the THIRA/SPR are invited to participate and provide feedback on the collection process. FEMA uses this after-action process to gather feedback on the utility of the information and on how the burden can be further reduced. Participation in these calls is voluntary. FEMA estimates that the time it takes to participate in and respond to the THIRA/SPR After Action Conference Calls is one hour per respondent for a total of 123 hours.
