Therefore, FMCSA concludes that extending the exemption for each renewal applicant for a period of two years is likely to achieve a level of safety equal to that existing without the exemption.

**SUPPLEMENTARY INFORMATION:**

#### I. Background

MCSAC was established to provide FMCSA with advice and recommendations on motor carrier safety programs and motor carrier safety regulations. MCSAC is composed of up to 20 voting representatives from safety advocacy, safety enforcement, labor, and industry stakeholders of motor carrier safety. The diversity of the Committee ensures the requisite range of views and expertise necessary to discharge its responsibilities. The Committee operates as a discretionary committee under the authority of the U.S. Department of Transportation (DOT), established in accordance with the provisions of the Federal Advisory Committee Act (FACA), as amended, 5 U.S.C. App. 2. See FMCSA's MCSAC Web site for additional information about the committee's activities at <http://mcsac.fmcsa.dot.gov/>.

##### *Voluntary Compliance Task*

The truck and motorcoach industries and the DOT have invested significant resources to research, develop, and test strategies and technologies to reduce truck and bus crashes. In September 2014, the Commercial Vehicle Safety Alliance submitted a request to FMCSA to consider initiating a pilot program to investigate the benefits and feasibility of voluntary compliance. Citing research that has been underway for several years, the Agency established an Alternative Compliance initiative the goal of which is to analyze the concept and gather data to support how this concept might be developed and implemented. During its March 2015 meeting, the Agency tasked the MCSAC, with its collective expertise on transportation safety, with identifying options for the motor carrier safety community to promote programs that could improve safety beyond the standards established in FMCSA regulations.

##### *Strategic Plan Discussion*

FMCSA is updating its Strategic Plan to align with the new FY2014–FY2018 DOT Strategic Plan that was released in November 2014. The new FMCSA Plan would extend to FY2018; the current Plan ends in FY2016. The revised Plan would include the status on strategies FMCSA employed in the FY2012–FY2016 plan as well as new programs and strategies FMCSA plans to implement by FY2018. FMCSA is presenting an overview of the draft Strategic Plan to the MCSAC to obtain stakeholder feedback. FMCSA plans to publish the updated Strategic Plan by September 30, 2015.

### Research and Technology Conversation

FMCSA maintains an active research program to promote the Agency's understanding of factors impacting safe driver behavior and carrier operations. The Agency also examines new technologies for their potential to improve motor carrier safety and the enforcement of commercial motor vehicle safety regulations. At the June 2015 MCSAC meeting, FMCSA plans to present its portfolio of current and planned research activities for committee members' information and comment. FMCSA will also use the opportunity to solicit Committee input on additional areas of safety research.

### II. Meeting Participation

Oral comments from the public will be heard during the last half-hour of the meetings each day. Should all public comments be exhausted prior to the end of the specified period, the comment period will close. Members of the public may submit written comments on the topics to be considered during the meeting by Wednesday, June 10, 2015, to Federal Docket Management System (FDMC) Docket Number FMCSA-2006-26367 using any of the following methods:

### Surface Transportation Board

[Docket No. FD 35929]

### Peninsula Corridor Joint Powers Board—Petition for Declaratory Order

By petition filed on May 19, 2015, the Peninsula Corridor Joint Powers Board (Caltrain), operator of the Caltrain commuter rail service between San Jose and San Francisco, Cal., seeks a declaratory order confirming that the

requirements of the California Environmental Quality Act (CEQA), as applied to Caltrain, are fully preempted by virtue of 49 U.S.C. 10501(b). Caltrain states that it is a rail carrier subject to the Board's jurisdiction<sup>1</sup> and seeks to install electrical lines over its rail line, a project known as the Peninsula Corridor Electrification Project. Caltrain states that a local city and two interest groups have filed lawsuits against Caltrain in state court, challenging Caltrain's compliance with CEQA. Caltrain argues that the improvements to its rail line and facilities are under the Board's exclusive jurisdiction and that 49 U.S.C. 10501(b) preempts the application of CEQA.

Caltrain has requested that the Board issue an expedited declaratory order by June 30, 2015. Caltrain states that a Board order regarding preemption of CEQA issued prior to that date would eliminate controversy in advance of its initial state court appearance. To facilitate expedited consideration, Caltrain states that it has served a copy of its petition on all counsel of record in the state court lawsuits.

The Board has discretionary authority under 5 U.S.C. 554(e) and 49 U.S.C. 721 to issue a declaratory order to eliminate a controversy or remove uncertainty. Here, it is appropriate to institute a declaratory order proceeding so that the Board can consider the issue raised in Caltrain's petition regarding whether 10501(b) would preempt CEQA, as applied to Caltrain and its electrification project. The Board will therefore institute a proceeding to consider the matter. Interested persons may file substantive replies to Caltrain's petition by June 8, 2015.

#### *It is ordered:*

1. A declaratory order proceeding is instituted.
2. Interested persons may file substantive replies to Caltrain's petition by June 8, 2015.
3. Notice of the Board's action will be published in the **Federal Register**.
4. This decision is effective on its service date.

Decided: May 29, 2015.

By the Board, Rachel D. Campbell,  
Director, Office of Proceedings.

[Docket No. FD 35926]

### San Joaquin Valley Railroad Co.— Amended Lease and Operation Exemption—Sunset Railway Company

San Joaquin Valley Railroad Co. (SJVR), a Class III rail carrier, has filed a verified notice of exemption under 49 CFR 1150.41 to continue to lease and operate approximately 19.75 miles of rail line from Sunset Railway Company (Sunset) between milepost 0.05 at Gosford, Cal., and milepost 19.8 at Levee, Cal.

In 1997, SJVR entered into a lease with Sunset under which SJVR leased the line between milepost 0.05 at Gosford and milepost 36.3 at Taft, Cal.<sup>1</sup> The portion of the line between the current endpoint in Levee at milepost 19.8 (previously reported as milepost 20.0) and milepost 36.3 was abandoned by Sunset and discontinued by SJVR.<sup>2</sup> SJVR and Sunset have now reached agreement on an amended and restated lease that would extend the term of the lease through December 21, 2019,<sup>3</sup> and would make other changes to the original lease.

SJVR certifies that neither the amended lease nor the original lease from 1997 include an interchange commitment. Additionally, SJVR certifies that the projected annual revenues as a result of this transaction will not result in the creation of a Class II or Class I rail carrier, but that its projected annual revenues will exceed \$5 million. Accordingly, SJVR is required, at least 60 days before this exemption is to become effective, to send notice of the transaction to the national offices of the labor unions with employees on the affected lines, post a copy of the notice at the workplace of the employees on the affected lines, and certify to the Board that it has done so. 49 CFR 1150.42(e).

SJVR, concurrently with its notice of exemption, filed a petition for waiver of the 60-day advance labor notice requirement under 1150.42(e), asserting that: (1) There will be no changes for
