

year after receipt of its annual appropriation to ensure that the appropriated funds will be adequate for assistance to entering refugees. The estimating methodology prescribed in the ORR regulations requires the use of actual past costs by program component. In the event that the

methodology indicates that appropriated funds are inadequate, ORR must take steps to reduce federal expenses, such as by limiting the number of months of eligibility for Refugee Cash Assistance and Refugee Medical Assistance. This proposed single-page report on expenditures and

obligations will allow ORR to collect the necessary data to ensure that funds are adequate for the projected need and thereby meet the requirements of both the Refugee Act and ORR regulations.

A. Overview of Information Collection

Title of Information Collection: Manufactured Home Construction and Safety Standards Act Reporting.

OMB Approval Number: 2502-0253.

Type of Request: Revision.

Form Number: None.

Description of the need for the information and proposed use: The Federal Standards and Procedural Regulations require manufactured home producers to place labels and notices in and on manufactured homes and mandate State and Private agencies participating in the Federal program to issue reports. Under revisions to the current reporting requirements and Regulations, a streamlined procedure is being added that will allow manufacturers, under certain circumstances, to complete construction of their homes on-site rather than in the factory without first having to obtain advance approval from HUD. In addition, some information collected assists both HUD and State Agency's in locating manufactured homes with defects, which then would create the need for notification and/or correction by the manufacturer.

Respondents: (i.e. affected public) Business or other for-profit.

Estimated Number of Respondents: 181.

Estimated Number of Responses: 86,354.

Frequency of Response: Monthly.

Average Hours per Response: 4.

Total Estimated Burdens: 120,618.
