Submission for OMB Review; Comment Request

June 15, 2015.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), *OIRA_Submission@omb.eop.gov* or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if they are received within 30 days of this notification. Copies of the submission(s)

may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Food and Nutrition Service

Title: National Universal Product Code (NUPC) Database.

OMB Control Number: 0584-0552.

Summary of Collection: The Healthy, Hunger-Free Kids Act of 2010 directed the Secretary of Agriculture to establish a National Universal Product Code (NUPC) database to be used by all Women, Infants, and Children (WIC) State agencies as they implement Electronic Benefit Transfer (EBT) statewide, which is a requirement of the law. The NUPC database, which serves as an electronic repository of information about foods eligible under the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC).

Need and Use of the Information: The NUPC database will provide all State agencies with access to a central repository containing product information about authorized WIC foods which is necessary to support State agency EBT for the WIC Program. State agencies are expected to use the NUPC database to create an initial list of authorized foods eligible for redemption by WIC Program participants. State agencies may use the NUPC database to maintain their list of authorized foods and to create an Authorized Product List for distribution to Authorized Vendors operating in the EBT environment.

Description of Respondents: State, Local, or Tribal Government; Business or other for-profit.

Number of Respondents: 360.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 10,320.

SUPPLEMENTARY INFORMATION:

Title: Importation of Hass Avocados From Peru.

OMB Control Number: 0579–0355.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. Regulations authorized by the PPA concerning the importation of fruits and vegetables into the United States from certain parts of the world are contained in “Subpart—Fruits and Vegetables” (7 CFR 319.56–1 through 319.56–72).

Section 319.56–50 of the regulations provides the requirements for the importation of Hass avocados from Peru into the continental United States. The regulations require the use of information collection activities, including phytosanitary certificates, trust funds, workplans, recordkeeping, production site registration, monitoring and oversight of registered production sites, packinghouse registration, survey protocols, box markings, and shipping documents with the official registration number of the place of production and identification of packing shed.

When comparing the regulations to the information collection activities that were previously approved, we found that production site and packinghouse registration, box markings, and the time it takes for businesses to escort inspectors for the required monitoring were omitted from the previous collection. We also adjusted the burden hours for the trust fund and workplan activities to more accurately capture the time needed for these activities. Lastly, we increased the estimated annual number of respondents from two to eight to reflect an increase in trade and additional companies participating in the export of Hass avocados from Peru into the continental United States.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection

of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.0026 hours per response.

Respondents: National plant protection organization officials of Peru and growers, shippers, and importers of Hass avocados from Peru.

Estimated annual number of respondents: 8.

Estimated annual number of responses per respondent: 50,127.

Estimated annual number of responses: 401,019.

Estimated total annual burden on respondents: 1,048 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 12th day of June 2015.

Kevin Shea,

Administrator, Animal and Plant Health Inspection Service.
