Although the HTS numbers are provided for convenience and customs purposes, the written product description remains dispositive.⁶

Ministerial Errors

Section 751(h) of the Tariff Act of 1930, as amended (“the Act”), and 19 CFR 351.224(f) define a “ministerial error” as an error “in addition, subtraction, or other arithmetic function, clerical error resulting from inaccurate copying, duplication, or the like, and any similar type of unintentional error which the Secretary considers ministerial.” We analyzed Petitioners’ and Deacero’s ministerial error comments and determined, in accordance with section 751(h) of the Act and 19 CFR 351.224(e), that there were three ministerial errors in our calculation of Deacero’s margin for the *Final Results*. For a complete discussion of these allegations, see the Department’s Ministerial Errors Memorandum.⁷

In accordance with section 751(h) of the Act and 19 CFR 351.224(e), we are amending the *Final Results*.⁸ The revised weighted-average dumping margin is detailed below.

Amended Final Results

As a result of correcting for these ministerial errors, we determine the following margin exists for the period October 1, 2012, through September 30, 2013.
