BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. PF15-18-000 and PF15-19-000]

Port Arthur LNG, LLC and Port Arthur Pipeline, LLC; Notice of Intent To Prepare an Environmental Impact Statement for the Planned Port Arthur Liquefaction Project and Port Arthur Pipeline Project, Request for Comments on Environmental Issues, and Notice of Public Scoping Meetings

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental impact statement (EIS) that will discuss the environmental impacts of the Port Arthur Liquefaction Project and Port Arthur Pipeline Project (projects) involving construction and operation of facilities by Port Arthur LNG, LLC (PALNG) and Port Arthur Pipeline, LLC (PAPL), respectively, in Jefferson and Orange Counties, Texas, and Cameron Parish, Louisiana. The Commission will use this EIS in its decision-making process to determine whether the projects are in the public interest and public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies on the projects. You can make a difference by providing us with your specific comments or concerns about the projects. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. Your input will help the Commission staff determine what issues they need to evaluate in the EIS. To ensure that your comments are timely and properly recorded, please send your comments so that the Commission receives them in Washington, DC on or before July 24, 2015.

If you sent comments on these projects to the Commission before the opening of these dockets on March 31, 2015, you will need to file those comments in Docket Nos. PF15-18-000 and PF15-19-000 to ensure they are considered as part of this proceeding.

This notice is being sent to the Commission's current environmental

mailing list for these projects. State and local government representatives should notify their constituents of these planned projects and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, a pipeline company representative may contact you about the acquisition of an easement to construct, operate, and maintain the planned facilities. The company would seek to negotiate a mutually acceptable agreement. However, if the Commission approves the Port Arthur Pipeline Project, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings where compensation would be determined in accordance with state law.

A fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" is available for viewing on the FERC Web site (www.ferc.gov). This fact sheet addresses a number of typically asked questions, including the use of eminent domain and how to participate in the Commission's proceedings.

Public Participation

For your convenience, there are four methods you can use to submit your comments to the Commission. The Commission will provide equal consideration to all comments received, whether filed in written form or provided verbally. The Commission encourages electronic filing of comments and has expert staff available to assist you at (202) 502-8258 or efiling@ferc.gov. Please carefully follow these instructions so that your comments are properly recorded.

(1) You can file your comments electronically using the *eComment* feature on the Commission's Web site (www.ferc.gov) under the link to *Documents and Filings*. This is an easy method for submitting brief, text-only comments on a project;

(2) You can file your comments electronically by using the *eFiling* feature on the Commission's Web site (www.ferc.gov) under the link to *Documents and Filings*. With eFiling, you can provide comments in a variety of formats by attaching them as a file with your submission. New eFiling users must first create an account by clicking on "eRegister." If you are filing a comment on a particular project, please select "Comment on a Filing" as the filing type; or

(3) You can file a paper copy of your comments by mailing them to the

following address. Be sure to reference the projects' docket numbers (PF15-18-000 for the Port Arthur Liquefaction Project; PF15-19-000 for the Port Arthur Pipeline Project) with your submission: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Room 1A, Washington, DC 20426.

(4) In lieu of sending written or electronic comments, the Commission invites you to attend one of the public scoping meetings its staff will conduct in the projects' area, scheduled as follows.

FERC Public Scoping Meetings—Port Arthur Liquefaction Project and Port Arthur Pipeline Project

*Holiday Inn Port Arthur-Park Central,
2929 Jimmy Johnson Blvd., Port Arthur,
Texas 77642*

Monday, July 13, 2015

Midday Meeting—11:00 a.m. to 2:00 p.m.

Evening Meeting—5:00 p.m. to 8:00 p.m.

You may attend *at any time* during either session, as the primary goal of a scoping meeting is for us to have your environmental concerns documented. There will not be a formal presentation, but you will have the opportunity to learn, in an open-house setting, about the FERC Process in addition to presenting your comments. Representatives of PAPL and PALNG will also be present to answer questions about their projects.

A court reporter will be available to take verbal comments. Those comments will be transcribed and then placed into the dockets for the projects and be available for public viewing on FERC's eLibrary system in the respective dockets. We believe it is important to note that verbal comments hold the same weight as written or electronically submitted comments. If a significant number of people are interested in providing verbal comments, a time limit of 3 to 5 minutes may be implemented for each commenter to ensure all those wishing to comment have the opportunity to do so within the designated meeting times. Time limits will be strictly enforced if they are implemented.

Please note this is not your only public input opportunity; please refer to the review process flow chart in appendix 1.¹

¹ The appendices referenced in this notice will not appear in the **Federal Register**. Copies of the appendices were sent to all those receiving this notice in the mail and are available at www.ferc.gov
