Titles: Former Prisoner of War Medical History.

OMB Control Number: 2900–0427.

Type of Review: Revision.

Abstract: VA Form 10–0048, Former POW Medical History, is used to collect data in response to Public Law 97–37, the “Former Prisoner of War Benefits Act of 1981,” that liberalizes eligibility requirements and extends the existing benefits. Additionally, the National Advisory Committee on Former Prisoners Of War requires this

information for their annual submission to Congress.

VA physician will obtain the information on the VA Form 10–0048 during a medical examination. If these questions were not asked, the physician would be unable to assess the health care, disability compensation or rehabilitation needs of the Former Prisoner Of War (FPOW). The importance of collecting this very detailed information when the veteran is first seen is critical, not only with the physician evaluating the veteran but also by the rating specialist who will rate this claim. The rater also reviews the statements given by the veteran on this form not only at the first claim submission but in future years when other disabilities are claimed. Feedback from POW physicians in the field indicates their appreciation of the well thought out content and structure of the form. It is useful not only for Compensation and Pension examinations but also as a guide and reference for treatment planning for the FPOW patient. The questions in the form make it relevant for FPOWS of current as well as prior conflicts.

Affected Public: Individuals or Households.

Estimated Annual Burden: 113 burden hours.

Estimated Average Burden per Respondent: 90 minutes.

Frequency of Response: Annually.

Estimated Number of Respondents: 75.

By direction of the Secretary.
