

40 CFR part 272. EPA is not codifying the authorization of North Carolina's changes at this time. However, EPA reserves the amendment of 40 CFR part 272, subpart II, for the authorization of North Carolina's program changes at a later date.

L. Administrative Requirements

The Office of Management and Budget (OMB) has exempted this action from the requirements of Executive Order 12866 (58 FR 51735, October 4, 1993), and therefore this action is not subject to review by OMB. This action authorizes State requirements for the purpose of RCRA 3006 and imposes no additional requirements beyond those imposed by State law. Accordingly, I certify that this action will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). Because this action authorizes pre-existing requirements under State law and does not impose any additional enforceable duty beyond that required by State law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4). For the same reason, this action also does not significantly or uniquely affect the communities of Tribal governments, as specified by Executive Order 13175 (65 FR 67249, November 9, 2000). This action will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999), because it merely authorizes State requirements as part of the State RCRA hazardous waste program without altering the relationship or the distribution of power and responsibilities established by RCRA. This action also is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997), because it is not economically significant and it does not make decisions based on environmental health or safety risks. This rule is not subject to Executive Order 13211, "Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use" (66 FR 28355, May 22, 2001) because it is not a significant regulatory action under Executive Order 12866.

Under RCRA section 3006(b), EPA grants a State's application for authorization as long as the State meets the criteria required by RCRA. It would thus be inconsistent with applicable law

for EPA, when it reviews a State authorization application, to require the use of any particular voluntary consensus standard in place of another standard that otherwise satisfies the requirements of RCRA. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. As required by section 3 of Executive Order 12988 (61 FR 4729, February 7, 1996), in issuing this rule, EPA has taken the necessary steps to eliminate drafting errors and ambiguity, minimize potential litigation, and provide a clear legal standard for affected conduct. EPA has complied with Executive Order 12630 (53 FR 8859, March 15, 1988) by examining the takings implications of the rule in accordance with the "Attorney General's Supplemental Guidelines for the Evaluation of Risk and Avoidance of Unanticipated Takings" issued under the executive order. This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995, 44 U.S.C. 3501 *et seq.*

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this document and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2). This action will be effective October 23, 2015, unless objections to this authorization are received.

List of Subjects in 40 CFR Part 271

Environmental protection, Administrative practice and procedure, Confidential business information, Hazardous waste, Hazardous waste transportation, Indian lands, Intergovernmental relations, Penalties, Reporting and recordkeeping requirements.

Authority: This action is issued under the authority of sections 2002(a), 3006, and 7004(b) of the Solid Waste Disposal Act, as amended, 42 U.S.C. 6912(a), 6926, and 6974(b).

Dated: June 26, 2015.

Heather McTeer Toney,

Regional Administrator, Region 4.

50 CFR Part 648

[Docket No. 120109034-2171-01]

RIN 0648-XE120

Fisheries of the Northeastern United States; Small-Mesh Multispecies Fishery; Adjustment to the Northern Red Hake Inseason Possession Limit

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; inseason adjustment.

SUMMARY: We announce the reduction of the commercial possession limit for northern red hake for the remainder of the 2015 fishing year. This action is required to prevent the northern red hake total allowable landing limit from being exceeded. This announcement informs the public that the northern red hake possession limit is reduced.

DATES: Effective August 24, 2015, through April 30, 2016.

FOR FURTHER INFORMATION CONTACT: Reid Lichwell, Fishery Management Specialist, 978-675-9112.

SUPPLEMENTARY INFORMATION: The small-mesh multispecies fishery is managed primarily through a series of exemptions from the Northeast Multispecies Fisheries Management Plan. Regulations governing the red hake fishery are found at 50 CFR part 648. The regulations describing the process to adjust inseason commercial possession limits of northern red hake are described in § 648.86(d)(4) and (5). These regulations require the Regional Administrator to reduce the northern red hake possession limit from 3,000 lb (1,361 kg) to 1,500 lb (680 kg) when landings have been projected to reach or exceed 45 percent of the total allowable landings (TAL). The northern red hake possession limit is required to be further reduced to 400 lb (181 kg) if landings are projected to reach or exceed 62.5 percent of the TAL, unless such a reduction would be expected to prevent the TAL from being reached. The final rule implementing the small-mesh multispecies

specifications for 2015–2017, which published in the **Federal Register** on May 28, 2015 (80 FR 30379), set these inseason adjustment thresholds. These measures were imposed because the annual catch limits (ACL) for northern red hake were exceeded for the 2012 and 2013 fishing years, and northern red hake was experiencing overfishing. We implemented this possession limit reduction trigger to reduce the risk of continued overfishing on the stock and to better constrain catch to the ACL.

On August 12, 2015, the northern red hake commercial possession limit was reduced from 3,000 lb (1,361 kg) to

1,500 lb (680 kg) because the overall commercial landings reached 45 percent of the TAL. Based on commercial landings data reported through July 30, 2015, the northern red hake fishery is projected to reach 65.2 percent of the TAL on August 22, 2015. Based on this projection, reducing the commercial northern red hake possession limit from 1,500 lb (680 kg) to 400 lb (181 kg) is required to prevent the TAL from being exceeded. Upon the effective date of this action, no person may possess on board or land more than 400 lb (181 kg) of northern red hake per trip for the

remainder of the fishing year (*i.e.*, through April 30, 2016).

Classification

This action is taken under 50 CFR part 648 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: August 19, 2015.

Emily H. Menashes,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
