NPRM Notice of Proposed Rulemaking
§ Section

A. Regulatory History and Information

The Head of the Cuyahoga (HOTC) rowing regatta has occurred annually for over a decade and the Dragon Boat Festival for the last 8 years. In response to past years' events, the Coast Guard established a temporary safety zone to protect the boating public. For example, in 2013, the Captain of the Port Buffalo initiated a rulemaking (78 FR 42736, July 17, 2013) to ensure the safety of spectators and vessels during the rowing event. The safety zone in this final rule is identical in size, location, and effect as that established by the 2013 rulemaking.

B. Basis and Purpose

As mentioned in the "Regulatory History and Information" section, the HOTC is an annual rowing regatta that has taken place for over a decade. The HOTC takes place on the Cuyahoga River along a 4800 meter course and attracts numerous rowing clubs and programs from across the U.S. Typically, the event occurs on the third Saturday of September between the hours of 7 a.m. and 4 p.m. In 2014, the HOTC occurred between 6 a.m. and 4 p.m. on September 20th.

In conjunction with the HOTC, the Seventh Annual Cleveland Dragon Boat Festival will take place from Superior/ Nautica Bend to just north of the Detroit Superior Viaduct Bridge. The Dragon Boat festival will feature three head-to-head races being held over the course of the day.

The Captain of the Port Buffalo has determined that the HOTC and the Cleveland Dragon Boat Festival rowing events present significant hazards to public spectators and participants.

C. Discussion of Comments, Changes and the Final Rule

We received one comment on the NPRM (79 FR 24656). This comment requested the time of enforcement be changed from 10 hours to 9 hours and to begin at 7 a.m. in lieu of the proposed 6 a.m. and still end at 4 p.m. as originally proposed. This change was requested for the better facilitation of trade on the Cuyahoga River. Of note, the commenter, Great Lakes Carriers Association noted that they completed a memorandum of agreement with the Cuyahoga River rowing foundation to address this very issue and to formalize the agreement between them to better allow for diverse use of the river without hampering trade and vital to the local economy. The Coast Guard, upon reviewing the comment considers the change to the proposal to be in the best interest of this rule and has amended the final rule to be effective for 9 hours, beginning at 7 a.m. and ending at 4 p.m. as requested.

The enforcement date and times for the safety zone that is listed in 33 CFR 165.T09-0082 is to occur on the 3rd Saturday of September of each year and to begin 7 a.m. and end at 4 p.m. For any given year, the Captain of the Port Sector Buffalo will provide notice to the public by publishing a Notice of Enforcement in the **Federal Register**, as well as, issuing a Broadcast Notice to Mariners.

Entry into, transiting, or anchoring within the safety zones identified in § 165.T09-0082 will be prohibited unless authorized by the Captain of the Port Buffalo or his on-scene representative. The Captain of the Port or his on-scene representative may be contacted via VHF Channel 16.

D. Regulatory Analyses

We developed this rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on these statutes or executive orders.
