

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section II.A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency's estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

HUD encourages interested parties to submit comment in response to these questions.

Authority: Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35.

Dated: August 21, 2015.

Colette Pollard,

*Department Reports Management Officer,
Office of the Chief Information Officer.*

BILLING CODE 4210-67-P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-5828-N-35]

Federal Property Suitable as Facilities To Assist the Homeless

AGENCY: Office of the Assistant Secretary for Community Planning and Development, HUD.

ACTION: Notice.

SUMMARY: This Notice identifies unutilized, underutilized, excess, and surplus Federal property reviewed by HUD for suitability for possible use to assist the homeless.

FOR FURTHER INFORMATION CONTACT:

Juanita Perry, Department of Housing and Urban Development, 451 Seventh Street SW., Room 7262, Washington, DC 20410; telephone (202) 402-3970; TTY number for the hearing- and speech-impaired (202) 708-2565, (these telephone numbers are not toll-free), or call the toll-free Title V information line at 800-927-7588.

SUPPLEMENTARY INFORMATION: In accordance with the December 12, 1988 court order in *National Coalition for the*

Homeless v. Veterans Administration, No. 88-2503-OG (D.D.C.), HUD publishes a Notice, on a weekly basis, identifying unutilized, underutilized, excess and surplus Federal buildings and real property that HUD has reviewed for suitability for use to assist the homeless. Today's Notice is for the purpose of announcing that no additional properties have been determined suitable or unsuitable this week.

Dated: August 20, 2015.

Brian P. Fitzmaurice,

*Director, Division of Community Assistance,
Office of Special Needs Assistance Programs.*

BILLING CODE 4210-67-P

DEPARTMENT OF THE INTERIOR**Geological Survey**

[GX15RB00CMFCA00]

Agency Information Collection Activities: Request for Comments

AGENCY: U.S. Geological Survey (USGS), Interior.

ACTION: Notice of a new information collection: Use of Landsat satellite imagery in water resource management in the Western United States.

SUMMARY: We (the U.S. Geological Survey) will ask the Office of Management and Budget (OMB) to approve the information collection (IC) described below. As required by the Paperwork Reduction Act (PRA) of 1995, and as part of our continuing efforts to reduce paperwork and respondent burden, we invite the general public and other Federal agencies to take this opportunity to comment on this IC.

DATES: To ensure that your comments are considered, we must receive them on or before October 27, 2015.

ADDRESSES: You may submit comments on this information collection to the Information Collection Clearance Officer, U.S. Geological Survey, 12201 Sunrise Valley Drive MS 807, Reston, VA 20192 (mail); (703) 648-7197 (fax); or *gs-info_collections@usgs.gov* (email). Please reference 'Information Collection 1028-NEW, Landsat satellite imagery use in Western United States water resource management' in all correspondence.

FOR FURTHER INFORMATION CONTACT:

Larisa Serbina, Economist, at (970) 222-9073 or *lserbina@usgs.gov*.

SUPPLEMENTARY INFORMATION:

I. Abstract

Water resources in the Western United States (U.S.) are scarce and recent droughts have only exacerbated disputes over water usage. As such, managing water resources effectively and efficiently is important for both private and public sector water users. However, monitoring water use comprehensively can be difficult using only on-the-ground techniques, due to the labor and time required for such efforts. Recent case studies initiated by the U.S. Geological Survey's (USGS) Land Remote Sensing (LRS) Program have indicated that Landsat satellite imagery plays an important role in Western U.S. water resource management. Landsat satellites are the only satellites to continuously collect the thermal imagery needed to measure evapotranspiration and provide it to the public at no cost. Evapotranspiration derived from thermal imagery can be used to objectively assess present and past water use on the landscape. For example, thermal data from Landsat satellites has been used in court cases to help settle water disputes. Landsat satellites also provide a range of other imagery which are used in water resource management. For example, the imagery can be used to identify different types of vegetation, such as agricultural crop types. There are unique considerations users must address in using Landsat imagery in water resources applications. The newest Landsat satellite, Landsat 8, launched in 2013, has two thermal spectral bands whereas the Landsat 7 satellite has one band. Thermal imagery from both Landsats 7 and 8 is also collected at a lower spatial resolution (60 meters and 100 meters, respectively) than the multispectral imagery collected by these satellites, though it is resampled to the same 30-meter resolution as the rest of the imagery.

While the handful of completed case studies have indicated the importance of Landsat imagery in water resource management, a broader picture of the use of the imagery by water resources users is not available. This makes it difficult for LRS to meet the needs of these users both now and in the future.

Given the consistency in water rights and the general scarcity of water in the Western U.S. as compared to the rest of the nation, we are proposing a survey that will focus specifically on the users who apply Landsat imagery in water resources in this region. Questions will be asked to determine the extent and type of use of Landsat imagery in water resource management projects, the preferred characteristics (*e.g.*, spatial

resolution, frequency of image collection) of Landsat imagery for use in water resource management, and the benefits and challenges of using Landsat imagery in water resource management. The results will be aggregated to provide a more holistic assessment of the use of Landsat in water resource management in the Western U.S., including characterizations of use by sector (*i.e.*, private, government, academic, non-profit) and geographic region (*i.e.*, ecoregions, states). The overall goal of the survey is to provide a more complete understanding of Landsat use in water resource management in the Western U.S. in order to assist LRS in meeting the needs of these users. The survey will be conducted entirely online. As no comprehensive list of water resources managers, researchers, and professionals who use Landsat is available, a list of email addresses will be compiled through a robust online search followed by snowball sampling during survey administration. To protect the confidentiality and privacy of survey respondents, email addresses will not be associated with the data collected on the survey and all analyses will be conducted and reported on in aggregate. All files containing email addresses will be password-protected and encrypted, housed on secure USGS servers, and only accessible to the research team. No PII will be collected on the survey itself.

II. Data

OMB Control Number: 1028—NEW.

Title: Use of Landsat satellite imagery in water resource management in the Western United States.

Type of Request: New information collection.

Affected Public: Private sector, state government, local government, non-governmental organizations.

Respondent's Obligation: Voluntary.

Frequency of Collection: One time.

Estimated Annual Number of Respondents: 1,000.

Estimated Total Number of Annual Responses: 1,000.

Estimated Time per Response: 10 minutes.

Estimated Annual Burden Hours: 167 hours.

Estimated Reporting and Recordkeeping "Non-Hour Cost" Burden: None.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB control number and current expiration date.

III. Request for Comments

We are soliciting comments as to: (a) Whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, usefulness, and clarity of the information to be collected; and (d) how to minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

Please note that the comments submitted in response to this notice are a matter of public record. Before including your personal mailing address, phone number, email address, or other personally identifiable information in your comment, you should be aware that your entire comment, including your personally identifiable information, may be made publicly available at any time. While you can ask us in your comment to withhold your personally identifiable information from public view, we cannot guarantee that we will be able to do so.

David Hamilton,

Fort Collins Science Center Director.

BILLING CODE 4311-AM-P

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[156A2100DD/AAKC001030/
A0A501010.999900 253G]

Tribal Education Department Grant Program

AGENCY: Bureau of Indian Education, Interior.

ACTION: Notice of availability and request for proposals.

SUMMARY: The Bureau of Indian Education (BIE) announces the availability of grants to tribes and their tribal education departments (TEDs) for projects defined under 25 U.S.C. 2020. This notice invites tribes with BIE-funded schools on or near Indian lands to submit grant proposals.

DATES: Grant proposals must be received by September 21, 2015, at 4:00 p.m. Eastern Time. BIE will hold pre-grant proposal training sessions. See **SUPPLEMENTARY INFORMATION** section for more information.

ADDRESSES: Complete details on requirements for proposals and the evaluation and selection process can be

found on the BIE Web site at this address: www.bie.edu. Submit grant proposals to: Bureau of Indian Education, Attn: Wendy Greyeyes, 1849 C Street NW., MS-4657-MIB, Washington, DC 20240. Email submissions will be accepted at this address: wendy.greyeyes@bie.edu. Email submissions are limited to attachments compatible with Microsoft Office Word 2007 or later and/or files with a .pdf file extension. Emailed submissions must not exceed 3MB total in size. See the **SUPPLEMENTARY INFORMATION** section of this notice for directions on email submissions.

FOR FURTHER INFORMATION CONTACT: Ms. Wendy Greyeyes, Bureau of Indian Education, Office of the BIE Director, (202) 208-5810; wendy.greyeyes@bie.edu.

SUPPLEMENTARY INFORMATION: The Secretary of the Interior, through the BIE, is soliciting grant proposals from federally recognized tribes and their TEDs for projects defined by 25 U.S.C. 2020. These funds will assist tribes in the development and operation of TEDs for the purpose of planning and coordinating all educational programs of the tribe. These funds will support the development of TEDs to improve educational outcomes for students and improve efficiencies and effectiveness in the operation of BIE-funded schools. Grant awards are subject to the availability of funds as appropriated by Congress.

Under 25 U.S.C. 2020, funds will support the program goals for the following areas that promote tribal education capacity building:

1. To provide for the development and enforcement of tribal educational codes, including tribal educational policies and tribal standards applicable to curriculum, personnel, students, facilities, and support programs;

2. To facilitate tribal control in all matters relating to the education of Indian children on reservations (and on former Indian reservations in Oklahoma);

3. To provide for the development of coordinated educational programs (including all preschool, elementary, secondary, and higher or vocational educational programs funded by tribal, Federal, or other sources) on reservations (and on former Indian reservations in Oklahoma) by encouraging tribal administrative support of all Bureau-funded educational programs as well as encouraging tribal cooperation and coordination with entities carrying out all educational programs receiving financial support from other Federal
