

recipients. Upon receipt of the electronic file, DMDC will perform a computer match using all nine digits of the SSNs in the VA file against a DMDC computer database. The DMDC database consists of pay records of active duty (including full-time National Guard and Reserve) military members. Matching records, "hits" based on the SSN, will produce the member's name, branch of service, and unit designation, and other pertinent data elements. The hits will be furnished to VA, which is responsible for verifying and determining the data on the electronic reply file are consistent with the source file and for resolving all discrepancies or inconsistencies on an individual basis. VA will also be responsible for making final determinations as to positive identification, eligibility for benefits, and verifying any other information with respect thereto.

The listing will be sorted by VA file number by Regional Office number. VA will then take necessary action to terminate compensation payments of any benefit recipient identified as being on active duty while receiving compensation pay after following the verification of procedures detailed in this agreement.

F. Inclusive Dates of the Matching Program: This computer matching program is subject to public comment and review by Congress and the Office of Management and Budget. If the mandatory 30 day period for comment has expired and no comments are received and if no objections are raised by either Congress or the Office of Management and Budget within 40 days of being notified of the proposed match, the computer matching program becomes effective and the respective agencies may begin the exchange at a mutually agreeable time and thereafter on a quarterly basis. By agreement between VA and DMDC, the matching program will be in effect for 18 months with an option to renew for 12 additional months unless one of the parties to the agreement advises the other by written request to terminate or modify the agreement.

G. Address for Receipt of Public Comments or Inquiries: Chief, Defense Privacy and Civil Liberties Division, Office of the Deputy Chief Management Officer, Office of the Secretary of Defense, 9010 Defense Pentagon, Washington, DC 20301-9010. Telephone (703)571-0070.

[Project No. 405-113]

Exelon Generation Company, LLC; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed an application submitted by Exelon Generating Company, LLC (licensee) to allow Peach Bottom Atomic Power Station (Peach Bottom), in York County, Pennsylvania, the use of Conowingo Hydroelectric (FERC No. 405) project lands and water for the increased withdrawal and discharge of water. The project is located on the Susquehanna River near Lancaster, Pennsylvania, in Hartford and Cecil counties, Maryland and in York and Lancaster counties, Pennsylvania.

An Environmental Assessment (EA) has been prepared as part of Commission staff's review of the proposal. In the application, the

licensee proposes to increase the total water withdrawn for the operation of Peach Bottom from a currently authorized 2,236.264 million gallons per day (mgd) to 2,363.620 mgd and to increase the associated consumptive use of water withdrawn from 35.5 mgd to 49.0 mgd. This EA contains Commission staff's analysis of the probable environmental impacts of the proposed, increased withdrawal and discharge of water and concludes that approval of the proposal would not constitute a major federal action significantly affecting the quality of the human environment.

The EA is available for electronic review and reproduction at the Commission's Public Reference Room, located at 888 First Street NE., Room 2A, Washington, DC 20426. The EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number (P-405) in the docket number field to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at (866) 208-3372 or for TTY, (202) 502-8659.

Any comments on the EA should be filed by October 2, 2015 and should be addressed to the Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Room 1-A, Washington, DC 20426. Please reference the project name and project number (P-405-113) on all comments. Comments may be filed electronically via the Internet in lieu of paper. The Commission strongly encourages electronic filings. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "eFiling" link.
