AGENCY: U.S. Army Corps of Engineers, DoD.

ACTION: Notice of open meeting.

SUMMARY: The annual public meeting of the Federal Interagency Steering Committee on Multimedia Environmental Modeling (ISCMEM) will convene to discuss some of the latest developments in environmental modeling applications, tools and frameworks, as well as new operational initiatives for FY 2016 among the participating agencies. The meeting this year will emphasize environmental modeling challenges in the California Bay Delta.

DATES: October 27–28, 2015, from 8 a.m. to 5 p.m.

ADDRESSES: Department of the Army, Corps of Engineers, Institute for Water Resources, 609 Second Street, Davis, CA 95616.

FOR FURTHER INFORMATION CONTACT:

Inquiries and notice of intent to attend the meeting may be emailed to: Patrick Deliman, ISCMEM Chair, U.S. Army Corps of Engineers, Engineering Research And Development Center, CEERD–EZT, 3909 Halls Ferry Road,

Vicksburg, MS 39046. TEL 601–634–3623. Patrick.N.Deliman@usace.army.mil.

SUPPLEMENTARY INFORMATION:

Background: Nine Federal agencies have been cooperating under a Memorandum of Understanding (MOU) on the research and development of multimedia environmental models. The MOU, which was revised in 2012, continues an effort that began in 2001. It establishes a framework for facilitating cooperation and coordination among the following agencies (the specific research organization within the agency is in parentheses): National Science Foundation; U.S. Army Corps of Engineers (Engineer Research and Development Center); U.S. Department of Agriculture (Natural Resources Conservation Service); U.S. Department of Energy (Office of Biological and Environmental Research); U.S. Environmental Protection Agency; U.S. Geological Survey; U.S. National Oceanographic and Atmosphere Administration; U.S. Nuclear Regulatory Commission (Office of Nuclear Regulatory Research); and U.S. Bureau of Reclamation. These agencies are cooperating and coordinating in the research and development (R&D) of multimedia environmental models, software and related databases, including development, enhancements, applications and assessments of site specific, generic, and process-oriented multimedia environmental models as they pertain to human and environmental health risk assessment. Multimedia model development and simulation supports interagency interests in risk assessment, uncertainty analyses, water supply issues and contaminant transport.

Purpose of the Public Meeting: The annual public meeting and workshop provides an opportunity for the scientific community, other Federal and State agencies, and the public to be briefed on ISCMEM activities and their initiatives for the upcoming year, and to discuss technological advancements in multimedia environmental modeling.

Proposed Agenda: The ISCMEM Chair will open the meeting with a brief overview of the goals of the MOU and an update on current activities of ISCMEM. This introduction will be followed by a series of invited presentations starting on Wednesday morning, October 28, 2015, and ending on Thursday afternoon, October 29, 2015.

Meeting Access: The meeting will be available through Web Meeting Services. To obtain web access to the

ISCMEM October 28–29 meeting and workshop, all interested attendees will need to pre-register by emailing Julie Marcy (Julie.B.Marcy@usace.army.mil) and Patrick Deliman (Patrick.N.Deliman@usace.army.mil), indicating their intent to participate in the meeting and providing their full contact information and affiliation.

Dated: September 17, 2015.

National Power Transformer Reserve

AGENCY: Office of Electricity Delivery and Energy Reliability, U.S. Department of Energy.

ACTION: Request for Information; re-opening of comment period.

SUMMARY: On July 9, 2015, the Department of Energy (DOE) published in the **Federal Register** a Request for Information (RFI) regarding the policy development related to the possible establishment of a national reserve of power transformers that support the bulk power grid and requested public comment by August 24, 2015. DOE is re-opening the original public comment period for this RFI.

DATES: The comment period for the RFI published July 9, 2015 is re-opened. Written comments must be received on or before October 7, 2015.

ADDRESSES: Comments can be submitted by any of the following methods and must be identified by “Transformer Reserve”. By the *Federal eRulemaking Portal*: www.regulations.gov. Follow the instructions for submitting comments. By email: LPT.RFI.2015@hq.doe.gov, and include “Transformer Reserve” in the subject line of the message. By mail: Alice Lippert, Office of Electricity Delivery and Energy Reliability, U.S. Department of Energy, Forrestal Building, Room 1E–078, 1000 Independence Avenue SW., Washington, DC 20585. Note: Delivery of the U.S. Postal Service mail to DOE may be delayed by several weeks due to security screening. DOE, therefore, encourages those wishing to comment to submit comments electronically by email.

FOR FURTHER INFORMATION CONTACT: Ms. Alice Lippert, Office of Electricity Delivery and Energy Reliability, U. S. Department of Energy, 1000

Independence Avenue SW., Washington, DC 20585 at Alice.Lippert@hq.doe.gov, or by email: LPT.RFI.2015@hq.doe.gov.

SUPPLEMENTARY INFORMATION: On July 9, 2015, the DOE published a request for information in the **Federal Register** (80 FR 39422). DOE is seeking comments and information from interested parties to inform its policy development related to the possible establishment of a national reserve of power transformers that support the bulk power grid. The focus of the RFI is on the design and implementation of a National Power Transformer Reserve Program.

The July 9 notice requested comments and information from interested parties to inform its policy development related to the possible establishment of a national reserve of power transformers that support the bulk power grid by August 24, 2015. DOE is re-opening the comment period to allow additional time for more substantive comment on the significant questions to which DOE is seeking response.

DOE believes that re-opening the comment period to allow additional time for interested parties to submit comments is appropriate. Therefore, DOE is re-opening the comment period to provide interested parties additional time to prepare and submit comments and will consider any comments received by the new closing date. All comments received between the original August 24 closing date and the new closing date are considered timely filed, so people who submitted late comments during the original comment period do not need to re-submit comments.
