

49 CFR part 24 regulatory revisions—
225 hours.

*Estimated Total Annual Burden
Hours:*

Regular update of manual: 52
respondents × 15 hours = 780 burden
hours.

23 CFR part 710 regulatory revisions:
52 respondents × 225 hours = 11,700
burden hours.

49 CFR part 24 regulatory revisions:
112 respondents × 225 hours = 25,200
burden hours.

Total: 780 hrs. + 11,700 hrs. + 25,200
hrs. = 37,680 total burden hours.

Public Comments Invited: You are
asked to comment on any aspect of this
information collection, including: (1)
Whether the proposed collection is
necessary for the FHWA's performance;
(2) the accuracy of the estimated
burdens; (3) ways for the FHWA to
enhance the quality, usefulness, and
clarity of the collected information; and
(4) ways that the burden could be
minimized, including the use of
electronic technology, without reducing
the quality of the collected information.
The agency will summarize and/or
include your comments in the request
for OMB's clearance of this information
collection.

Authority: The Paperwork Reduction Act
of 1995; 44 U.S.C. Chapter 35, as amended;
and 49 CFR 1.48.

Issued on: September 18, 2015.

Michael Howell,

Information Collection Coordinator.

[FR Doc. 2015-24190 Filed 9-22-15; 8:45 am]

BILLING CODE 4910-22-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket No. FRA 2015-0007-N-25]

Proposed Agency Information Collection Activities; Comment Request

AGENCY: Federal Railroad
Administration (FRA), Department of
Transportation.

ACTION: Notice and request for
comments.

SUMMARY: In accordance with the
Paperwork Reduction Act of 1995 and
its implementing regulations, the
Federal Railroad Administration (FRA)
hereby announces that it is seeking
renewal of the following currently
approved information collection
activities. Before submitting these
information collection requests (ICRs)

for clearance by the Office of
Management and Budget (OMB), FRA is
soliciting public comment on specific
aspects of the activities identified
below.

DATES: Comments must be received no
later than November 23, 2015.

ADDRESSES: Submit written comments
on any or all of the following proposed
activities by mail to either: Mr. Robert
Brogan, Office of Safety, Regulatory
Safety Analysis Division, RRS-21,
Federal Railroad Administration, 1200
New Jersey Ave. SE., Mail Stop 25,
Washington, DC 20590, or Ms. Kimberly
Toone, Office of Information
Technology, RAD-20, Federal Railroad
Administration, 1200 New Jersey Ave.
SE., Mail Stop 35, Washington, DC
20590. Commenters requesting FRA to
acknowledge receipt of their respective
comments must include a self-addressed
stamped postcard stating, "Comments
on OMB control number 2130-____." Alternatively, comments may be
transmitted via facsimile to (202) 493-
6216 or (202) 493-6497, or via email to
Mr. Brogan at Robert.Brogan@dot.gov, or
to Ms. Toone at Kim.Toone@dot.gov.
Please refer to the assigned OMB control
number in any correspondence
submitted. FRA will summarize
comments received in response to this
notice in a subsequent notice and
include them in its information
collection submission to OMB for
approval.

FOR FURTHER INFORMATION CONTACT: Mr.
Robert Brogan, Regulatory Safety
Analysis Division, RRS-21, Federal
Railroad Administration, 1200 New
Jersey Ave. SE., Mail Stop 25,
Washington, DC 20590 (telephone: (202)
493-6292) or Ms. Kimberly Toone,
Office of Information Technology, RAD-
20, Federal Railroad Administration,
1200 New Jersey Ave. SE., Mail Stop 35,
Washington, DC 20590 (telephone: (202)
493-6132). (These telephone numbers
are not toll-free.)

SUPPLEMENTARY INFORMATION: The
Paperwork Reduction Act of 1995
(PRA), Public Law 104-13, sec. 2, 109
Stat. 163 (1995) (codified as revised at
44 U.S.C. 3501-3520), and its
implementing regulations, 5 CFR part
1320, require Federal agencies to
provide 60-days notice to the public for
comment on information collection
activities before seeking approval for
reinstatement or renewal by OMB. 44
U.S.C. 3506(c)(2)(A); 5 CFR 1320.8(d)(1),
1320.10(e)(1), 1320.12(a). Specifically,
FRA invites interested respondents to
comment on the following summary of

proposed information collection
activities regarding: (i) Whether the
information collection activities are
necessary for FRA to properly execute
its functions, including whether the
activities will have practical utility; (ii)
the accuracy of FRA's estimates of the
burden of the information collection
activities, including the validity of the
methodology and assumptions used to
determine the estimates; (iii) ways for
FRA to enhance the quality, utility, and
clarity of the information being
collected; and (iv) ways for FRA to
minimize the burden of information
collection activities on the public by
automated, electronic, mechanical, or
other technological collection
techniques or other forms of information
technology (e.g., permitting electronic
submission of responses). See 44 U.S.C.
3506(c)(2)(A)(i)-(iv); 5 CFR
1320.8(d)(1)(i)-(iv). FRA believes that
soliciting public comment will promote
its efforts to reduce the administrative
and paperwork burdens associated with
the collection of information mandated
by Federal regulations. In summary,
FRA reasons that comments received
will advance three objectives: (i) Reduce
reporting burdens; (ii) ensure that it
organizes information collection
requirements in a "user friendly" format
to improve the use of such information;
and (iii) accurately assess the resources
expended to retrieve and produce
information requested. See 44 U.S.C.
3501.

Below is a brief summary of the
currently approved ICRs that FRA will
submit for clearance by OMB as
required under the PRA:

Title: State Safety Participation
Regulations and Remedial Actions.

OMB Control Number: 2130-0509.

Abstract: The collection of
information is set forth under 49 CFR
part 212, and requires qualified state
inspectors to provide various reports to
FRA for monitoring and enforcement
purposes concerning state investigative,
inspection, and surveillance activities
regarding railroad compliance with
Federal railroad safety laws and
regulations. Additionally, railroads are
required to report to FRA actions taken
to remedy certain alleged violations of
law.

Form Number(s): FRA F 6180.33/61/
67/96/96A/109/110/111/112/144.

Affected Public: Businesses.

Respondent Universe: States and
Railroads.

Frequency of Submission: On
occasion.

Reporting Burden:

Violation Report Challenge	563 Railroads	840 challenge	1 hours	840 hours.
Delayed Reports	573 Railroads	420 reports	30 minutes	210 hours.

Total Responses: 22,445.
Estimated Total Annual Burden: 9,058 hours.
Type of Request: Extension of a currently approved collection.
Title: Use of Locomotive Horns at Highway-Rail Grade Crossings.
OMB Control Number: 2130–0560.
Abstract: Under title 49 part 222 of the Code of Federal Regulations, FRA seeks to collect information from

railroads and public authorities in order to increase safety at highway-rail grade crossings nationwide by requiring that locomotive horns be sounded when trains approach and pass through these crossings or by ensuring that a safety level at least equivalent to that provided by blowing locomotive horns exists for corridors in which horns are silenced. FRA reviews applications by public

authorities intending to establish new or, in some cases, continue pre-rule quiet zones to ensure the necessary level of safety is achieved.

Total Estimated Annual Burden: 9,551 hours.

Status: Regular Review.

Title: Safety Appliance Concern Recommendation Report; Safety Appliance Standards Guidance Checklist Forms.

OMB Control Number: 2130–0565.

Type of Request: Revision of a previously approved information collection.

Abstract: Sample car/locomotive inspections are performed as a courtesy to the car manufacturers to ensure that the equipment is built in accordance with all applicable Federal regulations and requirements. Car builders that desire to have FRA review their equipment for compliance with safety standards are to submit their safety appliance arrangement drawings, prints, etc., to the FRA Office of Safety Assurance and Compliance for review at least 60 days prior to construction. The sample car inspection program is designed to provide assurance that rolling stock equipment is compliant within the Code of Federal Regulations

for use on the general railroad system. Although a sample car inspection is not required, most builders today request FRA to perform the inspection. The goal of the sample car inspection program is to reduce risk to railroad employees and improve passenger safety for the general public by ensuring rolling stock is fully compliant with all applicable regulations.

In an ongoing effort to conduct more thorough and more effective inspections of freight railroad equipment and to further enhance safe rail operations, FRA has developed a safety concern recommendation report form and a group of guidance checklist forms that facilitate railroad, rail car owner, and rail equipment manufacturer compliance with agency Railroad Safety Appliance Standards regulations. FRA will be obsoleting Forms FRA F 6180.4(a)–(q) and requesting OMB discontinue its current approval for these forms. FRA will be replacing these forms with new Forms FRA F 6180.161(a)–(k). The reason for the discontinuance of the previously approved forms and request for OMB

approval of the new forms is due to the fact that 49 CFR part 231 is being supplemented and expanded to cover new types of cars. For these new types of cars, FRA will be following the Standard established by the Association of American Railroads (AAR) Standard 2044 or S–2044.

When a request for sample car inspection incoming letter is provided by the customer, an abundant amount of information is submitted to FRA for review that may require a formal on-site inspection. The information contained in the letter includes several paragraphs to explain the cited Code of Federal Regulations that the customer believes related to the construction of the car. Since many cars today are considered a car of special construction, the type of car to be reviewed, many times the amount of details of information are supplied to support why the customer believes the car submitted is the nearest car to construction. An abundance of factors with justification to support the car type is included in the request. Some examples would be a Logo, Company Name, and signature block,

specific drawings, reflectorization, engineering information such as test or modeling of components. Also, the request may include car reporting marks, the amount of cars that would be constructed in the car series. In addition, the request would provide the location of the inspection, contact person, title, and contact information. Currently, each request is written differently, but contains most of the information to process the request to completion.

The FRA region responsible for the sample car field sample car inspection is obliged to formally inspect the car for compliance. All the information in the

customer request is forwarded to the region for review. Once the inspection is completed, the assigned inspector provides his report in a memorandum to the MP&E Specialist. The MP&E Specialist reviews the documents and provides a memo to the Regional Administrator who sends a response by memorandum to FRA Headquarters of the finding from the field inspection.

FRA Headquarters is responsible for gathering all the information from the request from the customer as well as assigning and forwarding the information to the Region. All the information is reviewed by the MP&E Specialist at Headquarters. The MP&E

Specialist prepares a grid letter response for the MP&E Staff Director who then offers the response letter to the Director, Office of Safety Assurance and Compliance. The formal response letter is then sent to the customer through the Control Correspondence Management (CCM) system.

Title: FRA Safety Advisory 2015–03, Operational and Signal Modifications for Compliance with Maximum Authorized Passenger Train Speeds and Other Restrictions.

OMB Control Number: 2130–0613.

Type of Request: Regular Clearance of a Previously Approved Emergency Clearance.

Affected Public: 28 Railroads.

Abstract: FRA issued Safety Advisory 2015–03 on June 12, 2015 (*see* 80 FR 33585) to stress to passenger railroads and railroads that host passenger service and their employees the importance of compliance with Federal regulations

and applicable railroad rules governing applicable passenger train speed limits. This safety advisory makes recommendations to these railroads to ensure that compliance with applicable passenger train speed limits is addressed by appropriate railroad operating policies and procedures and signal systems.

Reporting Burden:

Safety advisory 2015–03	Respondent universe (railroads)	Total annual responses	Average time per response	Total annual burden hours
(1) RR Review of Circumstances of the Fatal May 12, 2015, Philadelphia Derailment with their Operating Employees.	28	28 RR Bulletins	8 hours	224
(2) RR Survey of their Entire Systems or the Portions on Which Passenger Service is Operated and Identification of Main Track Locations where there is a Reduction of More than 20 mph from the Approach Speed to a Curve or Bridge and the Maximum Authorized Operating Speed for Passenger Trains at the Identified Location.	28	28 Surveys/Lists	40 hours	1,120
(3) Communications between Locomotive Engineer and a Second Qualified Crew Member in the Body of the Train at Identified Locations.	28	2,800 Messages/Communications.	2 minutes	93

Safety advisory 2015–03	Respondent universe (railroads)	Total annual responses	Average time per response	Total annual burden hours
(4) RR Installation of Additional Wayside Signs throughout Its System or Portions on Which Passenger Service is Operated, with Special Emphasis at Identified Locations.	28	3,024 Wayside Signs	15.4839 minutes	780

Frequency of Submission: One-time; on occasion.

Total Estimated Annual Responses: 5,880.

Total Estimated Annual Burden: 2,217 hours.

Pursuant to 44 U.S.C. 3507(a) and 5 CFR 1320.5(b), 1320.8(b)(3)(vi), FRA informs all interested parties that it may not conduct or sponsor, and a respondent is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Authority: 44 U.S.C. 3501–3520.

Corey Hill,

Executive Officer.

[FR Doc. 2015–24181 Filed 9–22–15; 8:45 am]

BILLING CODE 4910–06–P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA–2015–0081]

Petition for Waiver of Compliance

In accordance with part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public notice that by a document dated August 12, 2015, Metro-North Railroad (MNCW) has petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 213. FRA assigned the petition Docket Number FRA–2015–0081.

MNCW requests relief from 49 CFR 213.233(c), which specifies the required track inspection frequency. MNCW's request concerns the twice-weekly inspection requirement that applies to MNCW tracks. The regulation specifies that if a track carries passenger trains, it must be inspected twice weekly. FRA has interpreted that 1 week is defined as a period of 7 days, Sunday through Saturday. MNCW states that it is more cost effective for its operations to satisfy the twice-weekly inspection requirement using a calendar week beginning on Monday, and requests a waiver to conduct track inspections on this schedule.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE., W12–140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:

- *Web site:* <http://www.regulations.gov>. Follow the online instructions for submitting comments.
- *Fax:* 202–493–2251.
- *Mail:* Docket Operations Facility, U.S. Department of Transportation, 1200 New Jersey Avenue SE., W12–140, Washington, DC 20590.
- *Hand Delivery:* 1200 New Jersey Avenue SE., Room W12–140, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal Holidays.

Communications received by November 9, 2015 will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable.

Anyone is able to search the electronic form of any written communications and comments received into any of our dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its processes. DOT posts these comments, without edit, including any personal information the

commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at www.dot.gov/privacy. See also <http://www.regulations.gov/#!privacyNotice> for the privacy notice of regulations.gov.

Issued in Washington, DC, on September 16, 2015.

Ron Hynes,

Director, Office of Technical Oversight.

[FR Doc. 2015–24053 Filed 9–22–15; 8:45 am]

BILLING CODE 4910–06–P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA–2015–0093]

Petition for Waiver of Compliance

In accordance with part 211 of Title 49 of the Code of Federal Regulations (CFR), this document provides the public notice that by a document dated August 19, 2015, the Delaware Lackawanna Railroad Company (DLR) has petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR 223.11—*Requirements for existing locomotives*. FRA assigned the petition Docket Number FRA–2015–0093.

DLR has petitioned FRA to grant a waiver of compliance from 49 CFR part 223–Safety Glazing Standards, for a 100 ton, 600 horsepower diesel-electric locomotive, Number DL&W 426. This locomotive was built in 1934 by Electromotive Corporation for DLR for use in yard switching. DLR is a Class III railroad. DL&W 426 would be used in yard and terminal switching service at the former Delaware Lackawanna and Western yards in Scranton, PA, and occasional historic passenger moves within Steamtown National Historic Site. The locomotive would operate at speeds not exceeding 15 mph. The locomotive is currently equipped with unblemished laminate safety glass and is serviced and maintained by DLR, in Scranton, PA. The waiver is being sought because of the limited operation of the locomotive and the low risk of
